

DRESS FOR OLDER WOMEN

The Shortcomings of the Too Girlish Dresses

Peau De Crepe the Ideal Fabric for Present Modes—Some New Per-fumes

In these days of great variety in modes, no white-haired woman need choose between grandmother capes and caps, and the fripperies of her granddaughter, as more and more time and thought is given to designing models for elder women, and not a little of the charm of her who is said to be "holding her age" is due to the suitability of her costuming.

To dress in extremely youthful style when time has placed unmistakable marks that youth has passed does but call attention to the fact, and point out the shortcomings.

To be sure husbands and brothers do not like their women folk to look dowdy or antiquated, but there is a distinct medium between that and such an unsuitable display of dress as I have reference to.

Suitable dressing is within the power of her who will give the question sufficient thought—even though her purse be not long.

For women of advanced years many loose cloth coats with matching skirts are seen, and for traveling as well as other general wear for the

coming season, the model I have depicted for you will be especially popular.

Composed of champagne Peau de Crepe—a fabric that combines the two most essential qualities for the coming season's modes, softness to contribute to the much desired drooping effect, and at the same time sufficient "body" to keep the garment from the deplorably "dragged" appearance so often seen—the coat is quite three-quarters in length, shirred to a belt at the waistline, and is handsomely trimmed with champagne

colored lace, and worn over a skirt to match.

To "grow old gracefully" is the essence of refinement—and apropos of essence—a word here and now about scents. Let all women—and men, too, for that matter—who wish to class among the "well groomed" avoid the vulgar perfume so commonly in evidence.

"The best or none" should be the

motto of her who would be truly refined, and she who chooses, for example, the new and charming bouquet of the Lubin of Paris, called Enigma, can rest assured that she is a delight to at least one of the senses.

Coming back to our muttons—the elderly lady's apparel—let her eschew the girlish scuttle-front hat, the exaggerated straight front corset and the extremely high heels. Let her choose a sensible shaped shoe, a correct model corset, such as the C. B. a la sprite, and a conservative shape of bonnet with a narrow velvet ribbon tied in dainty fashion under the chin, and she may make a strikingly effective and, best of all, sensible appearance.

WORK TO BEGIN SOON.

The Oregon Irrigation Company Making Its Final Arrangements.

A party consisting of Messrs. Hutchinson, Guerin, Turney, Elliott and Kelly were in town nearly the whole week putting in shape their irrigation project. Messrs. Turney and Guerin were here some weeks ago and left in a very enthusiastic state of mind. They are New York capitalists extensively interested in large projects throughout the United States, and also representing several other New

York capitalists, who are awaiting them at Portland. Major Elliott, of Birmingham, Alabama, an engineer of national reputation, and Mr. Kelly, late of the U. S. engineer corps, made a careful study of the territory, and the genial Southern major pronounced the Deschutes river the prettiest stream of water in the world.

The party came down from Portland to Shaniko as guests of President Lytle, of the Columbia Southern in the new private car, which has lately been put upon the road.

Arrangements are being made for starting a flume near the Reed & Steidl mill in about 30 days' time. The flume is to be about 4000 feet long, and will be 30 feet wide and 10 feet deep. Such a flume is capable of carrying an immense amount of water, which will be needed to irrigate 50,000 acres of land. C. C. Hutchinson has proven himself a first-class organizer, and he has always been held in high esteem by the people of this vicinity.—Bend Echo.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Englewood

Englewood

YOUR RENT IS THE KEY

that unlocks your home in a rented house. Why not be independent and get a home of your own, where love and equality reigns without lord or master. Such a home cannot be created in a rented house, where the rent may be raised, or the order of "break up," "move on" may come. By all means try to get a home of your own, and let rent worry be a thing of the past.

ENGLEWOOD

"The Place of Beautiful Homes."

is the key to the situation. Buy a lot in Englewood and lay a sure foundation for a beautiful home. As an investment, it is the safest, as Salem property is steadily increasing in price. You'll make no mistake in following the crowd.

Englewood Addition

Is the heart of a settled home district, and has every advantage of a beautiful home place. Scores of homes have been built here during the last year. The best garden and fruit lands in Oregon. The street cars run through the addition. Only five blocks from East school.

Prices \$60 to \$100

per lot, according to location. We sell from the earners' standpoint; make the terms to suit yourself, and there's plenty of lots for everyone, but considering their advantage, they can't last long. The choicest are rapidly being bought. If you contemplate building this spring, don't overlook Englewood.

Don't pay rent and have nothing but a rich landlord to show for it.
