Some Busy Bees.

They had a dance up in Union county last Monday night that was a "hummer." All the "smart" set were out. At least they smarted before they got out of the hall. A fire in the building warmed into activity a swarm of bees over the ceiling, which were particularly fond of buzzing around in society, and when the lights were turned on "improved each shining hour." The queen bee insisted on leading the grand march, and even the honeyed entreaties of the dancers met a stinging rebuke. Discontented with the

droning music of the orchestra, they gave them a combing down, and then galloped over to the dancers staying on the firing line, until the intruders were completely routed. Finally some one conceived the idea of turning out all the lights but one, and the bees, gathering around it for a council of war, were captured and carried out of the hall, and the dance went on.—The Dallas Chronicle.

CLUB AT CORVALLIS

Its Organization the Result of Minister of That City

A movement is on foot that has for its purpose the establishment in Corvallis of a club similar to the Alco club in Albany. The plan has been wrestled with laboriously by various committees and sub-committees for several weeks past. A point has been reached where those working on the matter have determined to launch the enterprise, and a committee to canvass for membership with that end in view has been appointed.

The details of the plan have not been worked out. That has been left for the membership to settle, in case organization is effected. The general idea is to gather as many business men and citizens as possible into an organization for social, mental and physical development, and, incidentally, to supply a respectable resort to which students and others with time to spare may be admitted. The plan includes provisions for bowling alleys, a gymnasium, reading room, smoking room, billiards and other games, and for the sale of soft drinks, cigars and confections, or, as stated by the committee on constitution, everything incident to a club except a bar and the sale of cigarettes.

The prospective constitution says the object of the club is the "development of the physical, mental and social capacity of its members." The management is confided to a president, vice-president, secretary, treasurer and five trustees, elected each for one year. Eligibility for membership is confined to persons 15 years of age and over, and there are three kinds of members, active, associate and non-resident. Active members must be 21 years of age, and shall pay an admission fee of \$1 a month, in advance. Associate members are to be between 15 and 21 years, and students of the Agricultural College are eligible. For the associate members the admission fee is \$1.00 and the dues 25 cents per month. Persons residing more than three miles from the city limits may become non-resident members, and their membership fees and club dues shall be the same as those of associate members. The privileges of the associate and non-resident members shall in no wise differ from those of active members save they shall not hold office or vote at club elections.

As stated above, the whole arrangement, with reference to details, so far is only tentative, and is subject to the will of the final organization, if effected. In preparing the plan, the constitutions of organizations of the sort in neighboring towns, particularly those of Albany, Salem and Astoria have been studied, and the arrangement of the Alco club at Albany has been largely followed, such changes being made as are necessary to meet conditions in Corvallis. While working on the plan a committee went to Albany and visited the rooms of the Alco club.

The movement had its origin among the ministers of Corvallis. A committee from them has held numerous joint meetings with a committee from the college faculty and a committee of business men. The college committee was: Dr. Withycombe, Prof. Cordley and Prof. —. The ministers' committee was Rev. Carrick, R. V. Green and Rev. Moores. If the results of the canvass for membership justifies a public meeting is to be called, at which time there will be a full discussion of the matter.—Corvallis Times.

Pretty Safe Rule to Go By.

When there is a feeling that the heart or lungs, blood or liver, brain or nerves are diseased, at once commence to doctor the stomach. This is the foundation of the trouble in 90 cases out of every 100. Commence to regulate the digestive organs, get them in healthy working condition, and the other troubles will leave of themselves. Diseases which have their beginning in the stomach are cured through the stomach. The medicine for stomach disorders and half the ills of life, is Dr. Gunn's Improved Liver Pill. They are sold by all druggists for 25c per box. One pill is a dose. These pills put all the digestive organs in good condition so that disease has no basis to work upon.

Snowed Under.

Artist Gunn, at J. L. Stockton's has so much work accumulating that they are compelled to stop accepting orders February 27th. The amount of work coming in shows that Salem people appreciate an offer like this. Those still wishing to get a \$3.50 crayon portrait for 75 cents will do well to remember this date, February 27th. The artist will be in town until all this work will be finished. 2-20-2td-1w

Perfect Digestion Means Health.

A Good Stomach Keeps Every Part of the Body in Perfect Condition and Disease Cannot Break In.

A POSITIVE CURE FOR BAD STOMACHS.

You Can Also Enjoy Mince Pie if You Take Stuart's Dyspepsia Tablets.

If your stomach is all right, you are all right. Why are growing boys nearly always healthy? Because they have not abused their stomachs by excessive eating and drinking and weakened or destroyed the functions of that organ. Because they eat what Nature demands of good wholesome food and then take plenty of exercise and run and romp and help out in the process of digestion and keep their stomachs strong and well. The same is true of men who lead active outdoor lives and engage in physical activity. Their digestion is perfect, the food nutriment is properly assimilated, the blood is pure and healthy and you seldom hear of them being affected with headache, backache, kidney trouble, liver trouble, constipation or any other of the common ills that always afflict those with bad stomachs.

If there is anything wrong with you, be sure your stomach is right. If it is not right, get it right and do it in the right way—that is the natural way. Stuart's Dyspepsia Tablets are a natural remedy for all stomach disorders and weakness. They possess exactly the same properties that the gastric juices and other digestive fluids of the stomach possess and they actually do the digestive work of the stomach and enable that organ to rest and recuperate and become sound and

well. They act in a mild, natural manner and cause no disturbance in the digestive organs. They prevent any fermentation of the food which causes sour stomach.

Stuart's Dyspepsia Tablets instill health into every part of the human body. They compel perfect digestion of the food and perfect assimilation of the food nutriment. Every organ and part of the body is kept in repair and good health necessarily results. At the same time the stomach, being relieved of the work of digestion, gets well and strong.

A prominent Detroit physician says: "I prescribe Stuart's Dyspepsia Tablets for all cases of stomach trouble. I have tried many prescriptions, including a number of my own, but find nothing that gives such universal relief as this remedy. They are natural, harmless and thoroughly effective in their work, and while I have a natural antipathy to patent medicines, I do not hesitate to prescribe and recommend Stuart's Dyspepsia Tablets on all occasions."

The above is no exception. The best physicians are prescribing them all over the land. They can be had of any druggist for 50 cents a box, and if your own doctor is real honest with you, he will tell you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia Tablets.

Not Forgotten.

The editor of the Review had never known until Sunday last how far into vice he had lapsed. A visit to the post-office brought him a choice assortment of beautiful valentines, which have been carefully pasted upon the office walls as reminders when any lapses into further bad habits are contemplated. We are characterized successively as a dude, a cur, a cigarette fiend, a nobody, a despoiler of infant femininity, a brainless jackass, a case of swelled head, a croaker, and in the last one accused of trying to make the public think we are brainy. Here are nine different views, presumably of nine different persons, of that humble nonentity known as a country editor, and it is very evident that everyone does not look at us with the same eyes. We promise our keen-eyed observers, however, from now on a marked improvement will be noticeable in our behavior.—Prineville Review.

An unknown assailant fired two bullets through the window of Mrs. Hugh Dennison's home, in Portland on Thursday morning.

Do It Today.

The time-worn injunction, "Never put off 'till tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it TODAY—and let that remedy be Dr. Bosch's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists. At Dr. Stone's drug stores.
