

Editorial Page of The Daily Journal

By HOFER BROTHERS.

Scripps News Association Telegrams.

Published every afternoon except Sunday at 197 Commercial street.

Subscription terms: Daily one year, \$4.00 in advance; daily three months, \$1.00 in advance; daily by carrier, 50c per month; weekly one year, \$1.00 in advance.

JOURNAL SPECIAL DELIVERY.

One week 10c; one month 35c; three months \$1.00. At Journal office; at Daise's grocery, South Salem; at Bowersox' grocery, Yew Park; Asylum Avenue Grocery Store; Electric Grocery, East State street.

Single Copies—Price 5 cents. Price to newsboys 2 1/2 cents per copy.

To Mail Subscribers—The date when your subscription expires is on the address label of each paper. When that date arrives, if your subscription has not again been paid in advance, your name is taken from the list. A change of date on the address label is a receipt.

Entered at the postoffice at Salem, Oregon as second-class matter.

HERE'S TO THE GIRL OF BASHFUL FIFTEEN.

(Richard Brinsley Sheridan.)

Here's to the maiden of bashful fifteen;

Here's to the widow of fifty;

Here's to the flaunting extravagant queen

And here's to the housewife that's thrifty.

Let the toast pass,

Drink to the lass,

I'll warrant she'll prove

An excuse for the glass.

Here's to the charmer whose dimples we prize;

Now to the maid who has none, sir;

Here's to the maid with a bosom of eyes

And here's to the nymph with but one, sir.

Let the toast pass,

Drink to the lass,

I'll warrant she'll prove

An excuse for the glass.

Here's to the maiden with a bosom of snow;

Now to her that's as brown as a berry;

Here's to the wife with a facefull of woo

And now to the damsel that's merry.

Let the toast pass,

Drink to the lass,

I'll warrant she'll prove

An excuse for the glass.

For let 'em be clumsy, or let 'em be slim,

Young or ancient, I care not a feather;

So fill a pint bumper quite up to the brim

So fill up your glass, nay, fill to the brim

And let us even toast them together.

Let the toast pass,

Drink to the lass,

I'll warrant she'll prove

An excuse for the glass.

As cattle—we mean horned cattle—grow cheaper, dressed beef seems to grow dearer.

In August, 1903, dressed beef was \$5.37 1/2 per hundred in the great markets, while beef on the hoof was \$5.17 1/2. In 1901, dressed beef sold at the same price, while live sold for \$6.50.

Seven large packing houses are reported to have made \$140,000 a day last year above any previous profits.

THE DEMOCRATIC NOMINEE.

Cleveland will be offered the Democratic nomination for President.

There is only one other Democrat who will have any consideration in the convention.

That is Carter Harrison, the mayor of Chicago, whose boom is becoming formidable.

He has the advantage of being a man from the Middle West, and has never fought his party.

He is a performer—has governed the second largest city of the country successfully.

CARTER HARRISON IS THE ONE MAN OF CONSERVATIVE TENDENCIES WHO WOULD BE SUP-

PORTED BY THE BRYAN DEMOCRATS AND LABOR-SOCIALIST DEMOCRACY.

He is, besides, a man of practical character in public affairs—saying but little and making few mistakes.

A WOMAN AND A DOG.

(Tacoma Ledger.)

A very rich American woman has been attracting some attention in Paris by the attention she requires for her dog.

The dog is no great shakes, as dogs go, being a terrier of some sort, with hair of great length and silkiness.

But he has had the ill-fortune to fall into the possession of a silly woman who has more money than sense, and is having a fairly miserable time of it.

According to a correspondent of an Eastern paper, a special room is engaged for this dog at one of the most fashionable hotels.

A maid is paid to attend him. He wears a collar set with jewels.

His meals are ordered with special care from the same restaurant where his mistress feeds, and the choicest dainties are always selected for him—a portion of woodcock or quail, or other high-priced viand, and it is always served on a silver platter, with as much attention to daintiness as if he were the most important thing in the whole world.

As a consequence the poor brute's appetite is spoiled and he is a sickly cur, instead of a happy, healthy dog, as he might be if he had some chance to live as a dog should.

Some people will find fault with this silly woman and say all manners of evil things about her, no doubt; for example, that she might do a whole lot of good things with the money she thus spends so foolishly, by relieving the distressed, or helping the poor or sick, or those who are unfortunate in many ways, and so she could.

But if she did this she would not be doing what nature seemingly designed her to do, and that is to make others, who have less money than she has, more contented with their lot because they are not as she is.

Few women, we take it, who have sound minds, would care to be known, as she is coming to be known, for her foolish extravagance and disgusting taste.

Most people would rather be glad to have less money, and know how to get more out of it.

Many rich people seem to be distressed to find sufficiently foolish ways to be rid of their money, and this one seems to be one of them.

She doubtless gets less pleasure out of it than many people would get from much less.

The late Senator Sharon is reported to have been fond of saying that one drawback to great wealth was that it robbed its possessor of the power to enjoy the game of poker.

Few people sympathize with him in this deprivation. Many people have been content with a small fraction of what he had, if they never got three acres beat, and knew they never would have a chance to make them win.

It is not a bad thing for anybody that foolish people find foolish ways to be rid of their money, and no one need regret that they get little good of it.

It is far better that they spend it foolishly than not spend it at all. It loses nothing of its value in going through their purses.

Whether spent to buy high priced viands for a dog, that often wishes, no doubt, that he might have a bone, and a chance to gnaw it in quiet in some back yard, or to put clothes on the back of some shivering child that sadly needs them, it returns again to the useful employments of the world and legitimately helps many.

W. F. Matlock Appointed.

Governor Chamberlain yesterday appointed W. F. Matlock, of Pendleton, a member of the state board of agriculture to succeed George Chandler, of Pendleton, whose term expires March 14. Mr. Matlock has always

taken a great interest in the state fair, and his appointment is generally looked upon as a good one.

This appointment will necessitate the election of a new president of the state fair board, as Mr. Chandler, the retiring member, is now the president, having been elected last fall when President Wehrung retired from the board owing to the fact that he had been appointed superintendent of the Oregon exhibition in St. Louis.

It is generally believed that W. H. Downing, of Shaw, one of the members appointed on the board by Governor Chamberlain last fall, will be elected to succeed Mr. Chandler.

COURT STREET PEOPLE

Met Last Night to Discuss Street Improvements

Asphalt and Brick Estimates Considered— but All Seemed to Favor Crushed Rock

An adjourned meeting of Court street property owners was held at the city hall last evening, J. P. Frizell chairman, and C. L. McNary secretary.

Reports were called for from the committees appointed at a former meeting, Mr. Pohle was the first to respond, concerning gravel, and formed estimates as follows:

For block 348 feet long, with curbs set 20 feet from the property line, leaving the street 59 feet wide

The plan of putting on the gravel to be as follows: The street surface having been previously brought to a proper sub-grade. Put on the gravel 12 inches deep in the center of the street and six inches at the curbs, roll it down well with a road roller, which will leave it about eight inches deep at the center line of the street, then put on fine gravel to the depth of three inches over the entire surface, and roll down again. Also put in cement curbs.

Estimate of Cost.

Gravel required from street line to street line, that is for 348 lineal feet will be 763 cubic yards. One street intersection will take 304 cubic yards. Lineal feet of curbing per block 778 feet.

763 cubic yds gravel, 60c.....\$457.80

304 cubic yds gravel, 60c..... 182.40

778 lineal feet of curbing at 30c 233.67

Use of road roller, per block.. 40.00

THE POWER OF STEAM.

Many May See Hot It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c, in stamps for sample to The Herpicide Co., Detroit, Mich.

Republicans will hold their next state convention at Portland, Thursday, April 14.

Each county will be represented by one delegate at large, one for every 150 votes cast for Judge Bean at the last election and one for every fraction of 150 larger than 100.

The total number of delegates will be 316. In 1902 the total was 343 and in 1900 336, on the same basis of apportionment.

The State committee recommends to county committees April 2 for primaries and April 7 for conventions.

Conventions of the two Congressional districts are usually held the day before the state convention.

The nominations will be: Supreme Judge.

Dairy and Food Commissioner.

Four Presidential Electors.

Eight delegates to the National Convention at Chicago, June 21, four at large and two each Congressional district and eight alternates.

The date recommended for the primaries and county conventions are not binding on the county organizations.

X-RADIUMS

Russian officers condemn Japanese naval tactics, but then they have a right to, they were not satisfactory—to them.

The Seattle Mail and Herald is a real mean thing when it says: "Portland went into transports when the Dix crossed the bar. It will probably be her final effort in the transport line."

Did you notice that it sprinkled about 7 o'clock last night?

According to the Seattle papers all the stories told about Seattle grafting were trifles. The election comes off this week, and conditions will improve.

When the ground gets dry enough in spots, and you hear the small boy call "knucks" and "fen dubs," you will know spring is here to stay.

The sweetest things in spring millinery—Salem girls, of course.

Some people don't know when an issue is dead—Bryan is one, and there are others.

Some folks haven't recovered from the sudden shock of last Sunday yet.

Will Meet Friday.

The committee of arrangements of the Young Men's Republican Club, charged with the duty of arranging a program for the meeting to be held at the city hall next Friday evening, met last night, and prepared a good program of speeches and musical numbers for that occasion, the first public meeting of the club for the ensuing campaign. Prominent local speakers will be on the program, but the principal speaker of the evening will be Hon. Geo. C. Brownell, of Oregon City, who has never before delivered a political address in the Capital City. The committee has also secured the attendance of the Pratum quartet, and local singers of repute will help enliven the evening. The meeting will be for the general discussion of Republican principles, and does not in any way pave the way for the success of any one candidate for nomination.

Knights of Pythias.

Work in first and second ranks to night. Members of the Uniform Rank should bring uniforms.

Ayer's Cherry Pectoral
 quiets tickling throats. Doctors have known this for 60 years. Ask your own doctor about it. Do as he says.

The Wearing of Ribbons.
 Ribbon is more in request than it has been for some time. Favor is almost exclusively observed to the very lightest makes of taffetas in plain or glace shades, and with an almost imperceptible border. Setting aside those of narrow widths required for making ruchings as described, I find the demand to be most for three four and five inch ribbons. These medium widths are made up into different kinds of bows. These are generally composed of as many short ends (snipped in vandykes) as loops, and are not over large, so that half a dozen may be easily used for the trimming of a broad brimmed hat set about in different parts of it joined one to the other by a folded scarp of ribbon. The widest widths are for draperies or to band round crowns. Similar bows are also made to trim sailors and other small hats and toques, as are small wings and short broad couteaux, both of which are more often than not, matched to the straw, whether this be self-colored, shaded or in mixed tints. Harlequin of the new models show signs, although these are likely to be worn for some time longer, particularly matinee and other full dress hats. Orders for ostrich have fallen off considerably, but this is understood to be only a momentary depression, although flowers are to be the decoration of spring hats. It is more than likely ostrich plumes will be the fore again at midsummer.

Sale of City Bonds.
 The City of Salem, Oregon, will sell twelve subscriptions for the purchase of \$30,000 of its Municipal Four Per Cent Refunding Bridge Bonds, to be issued on the first day of April, 1904. The subscription book will be open at 10 o'clock a. m., on Tuesday, March 1, 1904, at the office of the city recorder, in said city and will be upon the popular loan plan, the last year subscriptions being filled first and those next highest in due sequence.
 N. J. JUDAH,
 City Recorder.
