

MANY BUILDINGS TO BE ERECTED

Handsome Business Houses and Beautiful Residences Will Add Still Further to the Capital City's Charm

Building operations in this city this coming season promise to be fully as extensive as those who have marked the past few years, and Salem promises to be in the midst of a building boom in a few months that will mark another epoch in the prosperity of the Capital City of Oregon. So extensive are the preparations for the coming season's operations that W. C. Knighton, the Portland architect, has found it necessary to open an office here to supervise his work in this city, while the other architect operating here, W. D. Pugh, is also kept busy with his work.

The most important project under way is the erection of a \$20,000 business block by the Breyman, adjoining their White Corner property on Commercial street, and the excavation for which is now being made. This building will be of brick and fitted with the most modern and up-to-date fixtures and appliances, and every foot of the proposed structure is already rented for a term of years.

Hon. Geo. S. Downing will, as soon as spring opens, erect a fine two-story residence at the corner of State and Sixteenth streets, for rent. Mr. Downing says that he does not need this house but is an expansionist and aims to live up to the spirit of the age in this respect.

The addition to the Murphy block, corner of State and Commercial streets, is now under way and will be pushed to completion as rapidly as possible. F. B. Southwick has the contract and is pushing the operations with a large force of mechanics. The building will be 81 feet front on State street and 75 feet deep, and will have two modern store rooms fronting on State street, the rest of the structure to be used as addition to the stores in the main building. The new structure will have modern fronts and will be one story in height, with a gravel fire-proof roof.

The First Congregational Society of Salem has taken steps toward erecting one of the most commodious churches in this city, and an expenditure of \$8000 is contemplated in this work. The church will be erected as soon as the weather permits of building operations, and while the plans are not quite complete as yet, it is known that the new structure will occupy the site on which stands the present sanctuary of the society. The addition to the present church will be removed, and it is planned to utilize the present main structure for an addition to the new church, for uses as lecture room, the new building to be erected on the front of the lot facing on both Liberty and Center streets. The church will be made one of the most modern and beautiful sanctuaries in the city. Rev. W. C. Kantner, who recently had a call from Portland which he was seriously considering has, since the society determined to build the new church, decided to remain here and help in this work in which he is sorely needed.

The plant of the Capital Lumbering Co., at the foot of Ferry street, is undergoing extensive repairs that add much to the beauty of the premises. The mill buildings proper have been weatherboarded and painted, and a new fire-proof roofing will take the place of the present shingle roof as soon as it can be placed in position.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. Ida O. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

when the weather settles. New up-to-date machinery is being installed in addition to the already complete plant, and the mill will be in better condition for the work of the season than ever before.

The Voget Lumber & Fuel Co., which recently started in business in this city, having acquired the lumber sheds formerly used by the Santiam Lumber Co., has erected a fine two-story house at the yard, in which the manager resides and has his offices. The new company has begun operations and the permanence of the buildings erected at the yards indicates that the management is here to stay.

J. I. Matthews is building a nice story and a half house on Center street, near 20th, on a tract of land owned by the Voget Lumber Company. The new cottage is to be occupied by Mr. Matthews. It will be a most comfortable and neat home, and will cost, when completed, about \$1200.

The Voget Lumber Company owns several lots in that section, and expects to erect a number of cottages this season, for sale or rent.

J. A. Taylor, operating under the name of the Capital Improvement Co., has just completed a large warehouse and shed in the rear of his old warehouse, corner of Chemeketa and Front streets, for the accommodation of his rapidly increasing business. The new warehouse is built in the shape of a quadrangle, 82 feet square with an open space in the center, and will be used as stables, wagon sheds and storage rooms for building materials and the machinery used in Mr. Taylor's business.

W. D. Claggett, who has acquired the Charles Claggett residence, corner Commercial and Marion streets, will in the spring erect a modern two-story cottage on the place, beautiful in design and one of the most comfortable houses in the city. It will be of eight rooms with basement, and will occupy the site of the present residence on the place that has stood there for a third of a century and is one of the landmarks of Salem.

A. N. Moores has in contemplation the erection of a fine home on the corner of Chemeketa and Summer streets, expecting to occupy it with his family. The new structure will be built in the quaint colonial style of architecture and Mr. Moores will spare no expense in making it one of the beautiful residences of the Capital City. The house will contain 10 rooms, will be heated with hot water and fitted with electric lights and gas fixtures and the most approved plumbing.

W. M. Kaiser expects to soon begin the erection of a beautiful two-story residence, corner of Liberty and Union streets, making an excellent improvement in that portion of Salem. The new home will contain nine rooms and will be fitted in the most modern style, to be occupied by Mr. Kaiser and family.

Hon. J. Q. Wilson will erect a couple of fine residences on the corner of Liberty and Center streets, on the vacant lot where formerly stood the old Cross residence. The cottages will be modern in design and appointment, and will be for rent, to accommodate some of the late arrivals in Salem. Plans for these cottages have already been prepared and contracts for their construction will be let in a short time.

A. J. Bacey has in contemplation the erection of a fine cottage on Twelfth street, near Center. It will be one story, contain seven rooms and will be almost a reproduction of his home in Yew Park. The house will be for rent when completed, and the beauty and convenience of the structure will bring good tenants to the owner as soon as he is ready for them.

Thomas Jory has commenced the erection of a two-story cottage in South Salem, on Commercial street, just a block south of the old city limits. The house will be modern in appointments, finished in Oregon woods, and will be for rent as soon as completed.

On the property occupied by the old Rummel cider mill on South Commercial street, Walter Buckner, who last week acquired that property, will erect a beautiful and commodious residence for the use of himself and fam-

ily. The stone foundation for the building has been laid, and the cottage, which will be one of the finest houses in that part of Salem, will cost over \$2000 when completed.

Herman Pohle will soon begin the construction of a fine two-story house on the corner of Twelfth and Court streets, to contain seven rooms. The house will be a neat and commodious one and will be an ornament to that portion of Salem, where there are already a number of fine residences.

Mrs. Carrie M. Ogle and Miss Eva F. Cox have recently completed the erection of a nice new cottage on Chemeketa street, near Front, and they are now improving the premises by building new walks in front of the place and otherwise improving the grounds.

Bowling Contest.

The Ilihee bowling team is training hard for a contest with the Multnomah Club, of Portland, to be pulled off in this city next Saturday evening. The six of the Salem bowlers selected for the contest are: George Hoyt, W. H. Hatch, J. D. Sutherland, B. O. Schucking, Louis Lachmund and R. H. Coehow. The ladies are also training and expect to have a bowling tournament soon. On ladies' night, Thursdays, the fair ones gather in large numbers on the alleys of the club, and many of them are becoming quite expert in the popular sport of bowling.

TOOK A STRAW VOTE

Interesting Experiment in a Restaurant.

An advertising agent, representing a prominent New York Magazine, while on a recent Western trip, was dining one evening in a Pittsburg restaurant.

While waiting for his order he glanced over his newspaper and noticed the advertisement of a well-known dyspepsia preparation, Stuart's Dyspepsia Tablets; as he himself was a regular user of the tablets, he began speculating as to how many of the other traveling men in the dining room were also friends of the popular remedy for indigestion.

He says: I counted twenty-three men at the tables and in the hotel office I took the trouble to interview them and was surprised to learn that nine of the twenty-three made a practice of taking one or two of Stuart's Dyspepsia Tablets after each meal.

One of them told me he had suffered so much from stomach trouble that at one time he had been obliged to quit the road, but since using Stuart's Dyspepsia Tablets had been entirely free from indigestion, but he continued their use, especially while traveling, on account of irregularity in meals and because like all traveling men he was often obliged to eat what he could get and not always what he wanted.

Another, who looked the picture of health, said he never ate a meal without taking a Stuart's Dyspepsia Tablet afterward because he could eat what he pleased and when he pleased without fear of a sleepless night or any other trouble.

Still another used them because he was subject to gas on stomach, causing pressure on heart and lungs, shortness of breath and distress in chest, which he no longer experienced since using the tablets regularly.

Another claimed that Stuart's Dyspepsia Tablets was the only safe remedy he had ever found for sour stomach and acidity. He had formerly used common soda to relieve the trouble, but the tablets were much better and safer to use.

After smoking, drinking or other excesses which weaken the digestive organs, nothing restores the stomach to a healthy, wholesome condition so effectively as Stuart's Tablets.

Stuart's Dyspepsia Tablets contain the natural digestives, pepsin, diastase, which every weak stomach lacks, as well as nux, hydrastin and yellow parilla, and can be safely relied on as a radical cure for every form of poor digestion. Sold by druggists everywhere.

ACCIDENT AT COBURG.

Little Tillman Boy's Legs Broken and Cut by the Car Wheels.

A serious accident befell Elroy Tillman, the 8-year-old son of James Tillman, at Coburg Friday evening about 5 o'clock.

The boy was playing about the

Cremo

southbound train, which was switching in the yards at that place. A car had been switched off to the siding, and the Tillman boy attempted to climb onto it, but slipped and fell. In some manner the bones in both legs below the knee were broken, and the flesh pretty badly cut up, but the wheels did not pass over the legs else they would have been mashed to a pulp. No one witnessed the accident and it not known how it happened.

The boy was taken home and Dr. Jarnagin called. Dr. F. M. Day, of Eugene, was called and assisted in attending the injuries. It was deemed not necessary to amputate the legs, and it is thought the boy will recover nicely.—Eugene Guard.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY, & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

Strike in Hungary. Budapest, Hungary, March 14.—Eight thousand tailors and 500 metal workers struck today.

Chicago Snow Storm. Chicago, March 14.—One of the heaviest snow storms of the entire winter enveloped the city today, and traffic of all kinds is greatly impeded.

Off for China. Charley Lee Ho, a well-known Chinaman of this city, leaves next Wednesday evening for Canton, China, for a year's stay with his family. Charley, as he is called by all who know him, has many friends in this city who regret to see him go. He went to China several years ago for a visit, and remained nearly a year, and this time he expects to be back in the course of nine or ten months.
