BIDS RECEIVED.

Flouring Mills Company Will Construct Bridge on North Front Street.

Manager Babcock, of the Salem Flouring Mills Company, announced this afternoon that he had called for and received sealed bids from a number of contractors for the construction of the bridge over the ditch on North Front street, and that these bids would go to Portland this evening to the head office of the company, where they would be opened. He stated that the company would then take the matter under consideration, and, if the bids were reasonable, would award the contract; otherwise the company would go ahead with the needed work itself. This will settle the long-standing controversy regarding the bridge on North Front street, and the rebuilding of the structure will be hailed with delight by the residents of that part of Salem, and the traveling public compelled to pass over that portion of the street constantly.

Have you enough Money to build you a house?

Then buy an acre-tract of land in Smith's Fruit Farms No. 2, and build you a house on it. You pay only \$5 a month for the land until paid for. This is cheaper than paying house rent. Then when you pay your installment, which is virtually house rent, it is money being put into your own home, not into some other person's pocket. Can you not see the great advantage of looking into this offer we are making you? These tracts are only three minutes from the cars, with a plank walk all the way.
