"I had been sick several years with indigestion and nervous prostration, which kept me almost constantly under a physician's care, and while I had been treated by four doctors. I received only temperary relief. I was very wask and helpless, and unable to attend to my nousehold duties. After reading about Dr. Miles Nervine, I concluded to give it a trial. The first few doses brought restful sleep at night, and an appetite for food. Continuing the treatment, I rapidly improved, and now I am well and able to do all my work."
