### HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

mitting what is good about Congressman Hermann.

The people generally respect and admire Mr. Harris of Lane county, and if he is nominated we shall take pleasure in helping to elect him to congress.

The friends of Hon. Binger Hermann are not fighting him or any other aspirant. They have plenty of good material to urge in behalf of their own candidate and let it go at that.

### TITLE OR A HEART.

Hurrah for Beauty Wanamaker, of Colorado!

Many an American girl has traded her wealth or beauty for a title.

Beauty Wanamaker compelled her suitor to give up his title in order to marry her.

The romance began five years ago at Newport. The wooer was Count Hans Marx von Wegener, scion of a wealthy and titled family of Berlin. He fell in love with Miss Wanamaker on sight. The girl liked him well enough—as a foreigner.

Most girls would have been fascinated by the title, but Beauty is a mighty good American.

She has lived mostly on her father's big ranch in Colorado. She is an expert rifle shot and fond of outdoor sports. Growing up in the free, wide spaces she developed into a strong, beautiful, sensible and independent young woman. She finally told her German admirer that she did not like foreigners in general and did not believe in titles at all.

This young fellow had red blood in his veins.

He went back to Germany and when his time expired in the army adjusted his affairs, renounced his title and came to this country, announcing his intention to become an American citizen.

Who could resist such a sacrifice? He was accepted and the marriage has taken place.

Pretty romance.  
Sensible girl.  
Happy Husband.  
Take off your hats to plain Mr. Wegener, of Colorado, and his wife.

### INDUSTRIAL PROGRESS.

The world's automobile record was broken at New Baltimore, Mich., on January 12th, by Henry Ford, of Detroit. He made the mile in 39.25 seconds, 6 1/2 seconds lower than the previous world's record. The terrific run was made over the ice of Anchor bay.

The foreign commerce of the United States for 1903 was larger than that of any other year in the history of the country. It amounted to nearly \$2,450,000,000, as against \$1,714,000,116 in 1893, \$1,547,020,316 in 1893 and \$1,164,616,132 in 1873.

Norway has established a workingmen's bank, the object of which is to loan money at a low rate of interest to workingmen with which to purchase homes. The plot of ground to be bought is not to exceed five acres, and the erection of the home thereon is not to exceed a total cost of \$804. The interest charged is 3 1/2 or 4 per cent. Forty-two years are allowed in which to refund the money.

### A FAIR CONVENTION.

The Marion county Republican convention bids fair to be a harmonious gathering. The fighting will all be over when the primaries have been held.

The Republicans have lost the most important office in the county by unwise factional differences which should not exist. This can be obviated by giving all elements fair treatment.

The Journal believes it would be wisdom to give the chairmanship of the convention to the country. Salem has such a preponderance of delegates that such a course would be just and generous and tend to produce good feeling.

Marion county has little tolerance for bossism but a great deal of appreciation for fairness and intelligence and as a model of good government should also be a model in political procedure.

## X-RADIUMS

Rev. J. R. N. Bell has been called upon to retain his successful pastorate of the First Presbyterian church at Baker City. He was formerly a newspaper man, and there is no better training for his calling.

Corbett, the defeated pugilist, was a school boy at Baker City, and the sports there lost great sums of money on him.

What is more attractive to the female heart than a millinery store in the spring—and such a spring as this!

The Eugene Register says: There are several citizens left in Lane county who have not announced themselves as candidates for office.

This is the time for springing political forerbacks. The crop is right, and the springer is always ready.

The war correspondents have had Port Arthur bottled up so many times, it is time to bottle up the correspondents.

Caste is said to be slowly dying out in India, and being established in America.

The Mormons cannot be accused of race suicide.

Another blanket-sheet Sunday newspaper, with full literary department, stereo features has sprung full-fledged from the brain of the dauntless Portland Journal publishers.

There were persons opposed to the new Salem charter. There are persons opposed to taking a correct census of Salem. There are persons opposed to Salem being on the map. There are persons afraid to have their property become valuable for fear of having to pay more taxes. There are persons who would kick if they were in heaven and fed on manna. But not many.

(Portland Journal.)

The Salem Journal announces editorially that "its publishers are not candidates for any office in the gift of the people, and will not accept nominations for the legislature or any other office." Good resolution. What does a successful newspaper man want of an office, anyway? He should be free to watch the fellows who are in office and comment on their doings independently.

(Portland Telegram.)

The Salem Journal wants a census of that city taken next year, so as to show up its big increase of population since its legal boundaries were extended to include the actual city. Considering Salem's very poor official showing in 1900, the suggestion is a good one.

If they don't let up on Alex La Follette he will be sent back to the legislature, in spite of his refusing to be a candidate.

Isn't that love-feast between Alex La Follette and Mattie Jones equal to a nigger minstrel show? But we rather admire the kind of men who can settle their past difference and unite for what they believe to be right.

If you were not on the right slate perhaps you can rustle a proxy.

We can't see but what the Democratic party is about as harmonious as the Republican.

Thomas Jefferson Halley of eastern Oregon is talked of for congress on a ticket that corresponds to his name.

Billy Egan better look out or he will be getting over into a Republican primary.

It is no longer the bloody fourth, the dirty seventh, but the scrapping fifth.

For fair play the seventh ward republicans take the political bakery.

The Oregonian is full of what wonderful things the Harriman lines will

do for oriental trade. They would do about as well to look after hauling a little lumber out of western Oregon.

Now watch Jack Jeffrey walk off with any nomination he sees fit to have the democrats give him.

What office will he "take" at the hands of our convention this year is what some Marion county democrats are asking themselves.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. An Era of Motor Lines.  
The commercial clubs of Salem and Independence are agitating the building of an electric motor line between the two towns, and committees from each organization are now working on the project. The Observer believes that such an enterprise would pay handsome returns on the money invested, and be a valuable factor in helping to build up both towns. The time is not far distant when the entire Willamette valley will be covered with a network of railroads and trolley lines.—Dallas Observer.

Twenty Years Trial.  
There are lots of good things the doctors know nothing about. We frequently cure people of disease after the doctors have given them up. If the disease comes from overwork, dissipation or exposure, causing weak and watery blood and loss of flesh and strength, we have the one sure remedy in Dr. Gunn's Blood and Nerve Tonic. These tablets taken with meals turn food into rich red blood, making strong, steady nerves and increasing the strength, producing solid flesh at the rate of 1 to 3 lbs. per week. This means health. Druggists sell Dr. Gunn's Blood and Nerve Tonic for 75c. per box or 3 boxes for \$2. For nervous prostration, loss of memory, or a pale sallow complexion, a better remedy, was never made. Doctors know nothing about this remedy only the fact that we make cures which we have been doing for 20 years.

### THE FIGHT ON HERMANN.

The Eugene Register is leading the fight against Hermann—as it so-me to think that necessary to land its Lane county candidate—Hon. L. T. Harris. It's strong suit is the failure of Hon. Binger Hermann to get onto the River and Harbor committee, and is deplores this very much and thinks that is a good reason why Hermann should be retired.

Why if Mr. Hermann had got onto the River and Harbor committee its pet candidate would not have stood a show of even being mentioned for

the place. It ought to be glad Binger didn't get there.

All joking aside, those eastern politicians haven't any use for our Binger. Cannon of Illinois fought the Irrigation bill and is an economist from the interior of Illinois where they haven't any rivers or harbors.

Besides Speaker Cannon is compelled to make a grand-stand economy record in the face of the coming presidential election, and so no Rivers and Harbors Bill will be prepared at this session.

He also knows that if he puts Hermann on that committee there will be something doing for Oregon Rivers and Harbors.

But Marion county has tremendous interests outside of Rivers and Harbors. For instance Hermann is on the committee on Indian Affairs, and then listen to this telegram received Saturday:

House has passed Indian appropriation bill retaining all increases secured by me for Chemawa. Total appropriation allowed \$133,200.
