**Republican Platform.**  
The Republican party of Oregon, in convention assembled, congratulates the state and nation upon the continued ascendancy of Republican principles and policies in our national government and the unprecedented prosperity that has followed the maintenance of those principles and the enforcement of those policies.

The honor of the nation has been fearlessly and eagerly maintained at home and abroad, whether in the enforcement of law against defiant corporations, in vigorous protest against outrages on Americans in Syria, Jewish massacres in Russia and unfavorable machinations of European powers in Asia.

President Roosevelt has redeemed his pledge to carry out the policies of the party as formulated by that great statesman and revered martyred president, Wm. McKinley.

He has shown himself the foe of corruption in public life, the ardent champion and wise friend of the army and navy, and the firm believer in equal rights before the law to employer and employe, rich or poor, black or white.

Under his energetic leadership the Isthmian canal, frustrated for a time by a Democratic President, is soon to be realized, and to distinguish his administration by one of the greatest engineering triumphs known to man.

We recognize the profound obligation under which Oregon rests to President Roosevelt for his active and determined effort on behalf of the Lewis and Clark centennial, and we pledge ourselves to testify to the sincerity of this appreciation by a rising majority for the Republican ticket in June, and again in November.

In this connection we especially endorse the tireless labors of Senators Mitchell and Fulton and Representatives Hermann and Williamson.

We instruct the delegates of this convention to the Republican national convention at Chicago to vote first and last for Theodore Roosevelt for President, and to use all honorable means to bring his nomination to pass.

For the first time in years the state of Oregon is represented in both houses of congress by a strong, harmonious, united and effective delegation, inferior to none from the West.

Their efforts in behalf of the nation, their party and their state have been crowned with signal success, and we hereby express to them our confidence and esteem and pledge them our support in their further efforts to advance the interests of Oregon and the Pacific coast.

Thanks to the courage and wisdom of two Republican administrations and four Republican congresses, the money of the nation has been securely established upon the gold standard, the standard of enlightened nations of the world.

The per capita circulation is the largest in our history, and every dollar of paper and coin is as good as gold.

We commend the measures now pending in congress, at the instance of Republican members, further amending the currency and banking laws in the direction of safety and elasticity.

We renew our allegiance to the principle of protection to American industries.

The merits of the Dingley law are attested by the unprecedented prosperity of the nation since its passage in 1897.

Schedules must be changed from time to time as new conditions arise, but when the tariff is revised it must be by friends, and not by the foes of American industry.

We heartily commend the fearless and determined course pursued by President Roosevelt and Attorney-General Knox towards the trusts, and we point with pride to the hostility aroused against the administration among the speculators of Wall street, and corporations that defy the law.

Obedience to the law against monopoly inflicts no hardship on any honest industry, and the action of the President in the Northern Securities merger and other cases has only served to check dangerous speculation and encourage every legitimate enterprise.

We endorse the policy enunciated by President McKinley and followed by Secretary Taft, of "the Philippines for the Philippines," and we especially commend the earnest and persistent efforts made by Senator Mitchell for lower tariffs between the Philippines and the United States.

We hold that the Philippines must be retained by the United States for their own good, as well as for a base of American influence in the Far East, but that justice requires the least possible burdens upon their commerce with the United States, that they may be cemented to us by ties of self-interest and affection.

In the interest of Pacific development, we demand for the Philippines the same liberal and beneficent treatment that has been accorded to Hawaii and Porto Rico.

Proud of the history and achievements of our party, and especially of the present administration and the beneficial results that our nation is receiving therefrom, and particularly our old Oregon country, we confidently submit our cause to the patriotic citizens of our state for indorsement, and earnestly appeal to them to show their gratitude and appreciation to President Roosevelt and our Republican leaders in congress for honoring our history and adding in the development of our matchless resources.

### Why Russia Lacks Leaders.

Russia possesses very few conspicuous and seemingly no great men at the beginning of one of the most fateful periods of her checkered history. At home, the thinking and the working classes live in a continuous ferment of passive resistance to the daily manifestations of bureaucratic authority—a ferment much too intense and widespread, it would seem, to be amenable to the palliative or coercive measures hitherto employed against it with success. Abroad, a series of complications has arisen which threatens to undermine the paramount position occupied by Russia in the hierarchy of nations for over a decade; and as yet the men capable of steering the ship of state clear of both or either of these dangers have not come to the front. Dextrous and conscientious officials are indeed, numerous enough at the apex of the social pyramid, but they are mostly individuals to whom uniforms, rank, and decorations impart the appearance of intellectual or administrative talents which many of them in reality sadly lack.

From this striking fact, however, it would be a mistake to draw the inference that there are no master spirits among a people of nearly one hundred and fifty millions. There may be, undoubtedly there are, many men of superior parts, possibly more than one individual of real genius, who, under such circumstances as prevail in the United States, France, or England, would be able and ready to take the tide in the affairs of their country at the flood. But in Russia,
