

CANCEROUS ULCERS ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it, and medical advice or any information you may desire will be given by our physicians without charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

TEACHERS WERE AT SILVERTON

Third Local Institute Attended by Delegation From Salem

The third in a series of local teachers' institutes was held by County Supt. Moores at Silverton Saturday, April 23d. About a dozen Salem people were present, having gone over in carriages and by train.

The day and the institute were voted a success by all in attendance, due, in great measure, to the hearty welcome and warm hospitality accorded the visitors by the principal, teachers, patrons and children of the Silverton schools.

The morning was devoted to discussions on intermediate and advanced numbers, led by Principal Parker, of Silverton, and Supt. Traver, of Salem. The afternoon session was opened by an appropriate program, efficiently rendered by the primary pupils of the Silverton school, which reflected great credit on their painstaking teachers.

A paper on school room decoration by Prof. Allard, of the Woodburn schools was evidently the result of practical application on his part, as all will attest who have visited his school at Woodburn.

Ex-Governor Fletcher read an extremely entertaining paper on "The Old Time School," a revelation of the school of 50 years ago, and a marvel of comparison between that school and the one of today.

State Supt. Ackerman closed the institute with a talk on "The Sentence," in which he gave the teachers some new and interesting things to think about.

Not the least attractive and popular number on the program was the richly provided table to which all were invited, at the noon hour, spread by the students and patrons of the higher grades of the schools, and to which all did ample justice, showing their appreciation by the reluctance with which the dining hall was abandoned.

The Silverton people certainly did themselves proud, and the teachers are all secretly wishing they may soon be invited there again.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass state could not remedy a bad liver or the hundred and one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists. At Dr. Stone's drug stores.

The Toilers in Our Factories.

No workmen in the world can do so much or use the same intelligence that our own American workmen and women are capable of. That is why America is now beating the world in manufactures; all due to the brain and muscle of our Yankee men and women.

Unfortunately where there is smoke, dirt and dust and little sunlight there also can be found the germs of disease. Nature's great disinfectant is sunlight. It is in the factory, the workshop, the office, that men and women suffer from diseases which are in the dust and the bad air. Such disease germs enter into the blood in two ways, either through the lungs or stomach. After years of experience in an active practice, Dr. R. V. Pierce, of Buffalo, N. Y., discovered a remedy that is a blood-maker and tissue-builder, at the same time it starts into activity and there is perfect elimination of waste matter. The germs of grip, malaria, catarrh or consumption find a fertile field if the body is not kept in perfect order and the blood pure. Because the stomach is diseased there is a diminution of the red corpuscles of the blood. This is why one is sleepless, languid, nervous and irritable. Sensitive stomachs groan aloud at the irritating cod liver oils, but they will get all the food elements the tissues require by using the "Golden Medical Discovery."
