

**NEW DISCOVERIES IN CHEMISTRY.**

**Recent Experiments.**

A pin prick and a drop of blood on a glass slide will tell whether your blood is in a healthy condition or not. Every healthy man should have five million red blood corpuscles to every square millimeter of blood. If there are too many white blood corpuscles the person is said to be anemic and run down. A chemical test of the water from the human body will tell whether the kidneys are in good health or not. These tests of health are conducted by expert physicians and chemists every day. Such examinations are made without cost. This is only a very small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce, of Buffalo, N. Y., the founder and director of the Invalids' Hotel and Surgical Institute of that city. To build up the body that has been weakened by an attack of grip, pneumonia or typhoid, write Dr. R. V. Pierce for advice, giving all your symptoms, and he will give you the best medical advice possible to suit your case, and without cost. For those who are weakened by the after effects of a bad cold, cough or

grip caught during the winter, nothing will increase the number of red blood corpuscles and eradicate poison from the blood so quickly as Dr. Pierce's Golden Medical Discovery. This is a remedy which has stood the test of a third of a century, and has sold more largely than any other blood medicine in the country during that time. A most stimulating tonic because it goes to work in the right way, assisting the stomach to assimilate the food thus furnishing the blood proper nourishment, which in turn feeds the nerves. Neuralgia and nervous break-downs are only "the cry of starved nerves for food." The proper food for the nerves is good, rich, red blood. The "Golden Medical Discovery" does not depend upon alcohol for a stimulating effect. It is guaranteed to contain not a particle of alcohol. It is safe for the most delicate system, as it is an alterative extract made from roots and herbs. Although we know the germs of consumption and grip are in the air we breathe in rooms, street cars, shops, in fact everywhere, yet scientists have not been able to fight these bacteria very well. The best thing we can possibly do individually at present is to keep ourselves in such a state of health as to enable us to fight the bacteria with our own vitality. The blood through our veins and arteries should contain healthy, red blood corpuscles, which are capable of warding off the

attack of these germs if they get into our systems. Dr. Pierce's Golden Medical Discovery is just what is needed for such persons and it has received the praise of thousands of people throughout the United States.

"About two years ago I was a sufferer from lung trouble so severe that I could not take a deep breath without great pain," writes Mr. W. H. Collier, of Hartrock, Va. "It was my right lung. It would not expand when I breathed long or deep, the muscles of right breast seemed all shrunken away. I had a bad cough which was at times very troublesome. About a year ago I began using Dr. Pierce's Golden Medical Discovery and with most pleasing results. My breathing got better, cough stopped, appetite improved, and I gained in strength and in weight very rapidly. By the time I had taken three bottles of your 'Golden Medical Discovery' and two vials of your 'Pleasant Pellets,' I felt strong and well again. This was about one year ago and I have had no return of the trouble since. My lungs seem as sound as ever before, and I believe your medicine has entirely cured me and saved me from consumption."

The Common Sense Medical Adviser, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. Pierce, Buffalo, N.Y.

**International Conference to Be Held Next Week and Will Embrace Interesting Features**

Buffalo, N. Y., May 7.—Helen M. Gould will come to Buffalo next week to attend the international conference of the Young Men's Christian association. The gathering is to be held in celebration of the fiftieth anniversary of the first international convention of the association, which was held in this city in 1854. Besides Miss Gould, the distinguished guests at the conference will include Leslie M. Shaw, secretary of the treasury; George B. Cortelyou, secretary of commerce and labor, and Rear Admiral Francis J. Higginson, of the United States navy. Admiral Higginson will preside over a special session to discuss the naval work of the Y. M. C. A., in which Miss Gould is also especially interested.

It is expected the convention will be attended by at least 1500 visitors. They will come from all parts of the United States and Canada and a few are expected from Mexico, India and other parts of the world.

In addition to the reviews of the association work by departments, which will be presented from various standpoints by industrial leaders, army officers, railroad officials and other laymen and pastors, there will be addresses by many persons of prominence. Among the many who will address the convention are Premier Ross, of Ontario; President Joseph Ramsey, Jr., of the Wabash railroad; Major E. W. Halford, U. S. A.; President George W. Stephens, of the Baltimore and Ohio railroad; Robert E. Speer, of New York, and President J. A. Wiskersham, of the Atlanta and West Point railroad.

In conjunction with the meeting there will be an exhibition which will present in a striking manner the development of the work for which the conventions, state and provincial, as well as international, have stood in the growth of the association movement throughout North America. The rise and growth of the association will be reviewed, principles discussed and analyzed, the organization and methods examined, and the field and service of the agencies of supervision defined.

**The Trouble With Shoes**

All shoes would be good shoes if you didn't have to wear 'em. The trouble is, you buy them to wear; and a good many of them certainly are "wearing."

Selz Royal Blue shoe is made to wear, not simply to sell. You'll know what that means better than we can tell you, if you wear a pair.

Next pair of shoes you buy, get a Royal Blue shoe, on the Footform last; a shoe to wear with comfort, a long time. If your shoe-man hasn't it, write to us.

**SELZ**
