**FEDERAL IRRIGATION PROJECTS**

**Circular in Explanation of Department**

**Situation in States and Territories for Which Money Is Set Aside--\$2,000,000 for Oregon**

Apropos of the formal approval by the Secretary of the Interior of new irrigation projects under the reclamation law in California, Oregon and the Dakotas, the Interior Department issued a statement covering the disposition of the reclamation fund, which is, in part as follows:

"These approvals mark practically the close of the preliminary or tentative stage of reclamation work. The projects in each state and territory are now well outlined and provisions made for all of the available funds."

"During the two years which have nearly elapsed since the passage of the reclamation law, efforts have been concentrated on general examinations and comparison of the merits of various projects. These have now been selected and approved, contingent on securing the water rights and lands at reasonable cost, and perfecting all details partly completed. The situation in each state and territory is as follows:

- "Arizona—Salt River project, under construction, at estimated cost of about \$3,000,000.
  - "California—Yuma project, construction approved by the secretary at a cost of about \$3,000,000.
  - "Colorado—Uncompahgre project, involving an expenditure of \$2,000,000.
  - "Idaho—Minidoka project, for which about \$2,600,000 has been provisionally allotted.
  - "Montana—Milk River project, general allotment of \$1,500,000.
  - "Nevada—Truckee-Carson project, under construction, at a cost of about \$3,000,000.
  - "New Mexico—Hondo project, at a cost of \$350,000.
  - "North Dakota—Fort Buford project, taking water from Yellowstone River in Montana, at a cost of about \$1,200,000.
  - "Oregon—Malheur project, costing about \$2,000,000.
  - "Utah—Conservation of water in Utah Lake, at a cost of about \$1,000,000.
  - "Washington—The storage and diversion of Soshone River near Cody, for which \$2,250,000 has been set aside.
- "In all, the projects outlined will cost \$27,000,000, and will require for construction two or three years. They will reclaim in round numbers 1,000,000 acres of land, all of which will be susceptible of intense cultivation, and should be capable of supporting a population of 500,000 or more persons. The money expended in constructing these works is derived from the disposition of the public lands. The expenditures are to be returned by installments to the reclamation fund and to be used over again in building works, many of which are now under preliminary examination, data being acquired so that the work can proceed as rapidly as the money becomes available."

Grand Opera House this evening bids fair to be one of the most important events of the local theatrical season, both from an artistic and social viewpoint, and it is now quite evident that the body of the theater will be nearly all occupied by social leaders.

This clever young star makes forceful and direct appeal to the finer sensibilities, while the play is one which attracts thinkers of all ages and classes. Unlike most plays, built upon a serious topic "The Crisis" is developed entirely along comedy lines, the authors touch in constructing his play was as light and dainty as that of the star who will interpret the leading character.

Her work as leading woman of the most famous stock company in this country, the Lyceum stock of New York, and later as the chief support of Mr. John Drew, has won for Miss Irving an enviable place among American stage favorites. She has long been known as one of the cleverest and most beautiful of American actresses, and her appearance here will be looked forward to with great eagerness.

**New Bicycle Free**

Salem census and what it will do for you.  
Everybody is interested in the census that is now being taken, and in order to promote the greatest possible publicity for this most important event in the recent history of our city, The Capital Journal has decided to give a fine new bicycle to the person guessing nearest to the number of people in our city, as revealed by the new official census. It will take several weeks to close the enumeration and compilation, and during this time The Journal will give reports from day to day of the progress of the work, and the probable results. From these the reader can draw conclusions, and make a close guess.

**Terms of Contest**  
In order to make this more than an idle random guessing affair, The Journal proposes to place a few restrictions upon it, and then give absolutely free to the person who guesses nearest to the official count a brand new Mitchell bicycle, ladies' or gent's, with coaster brake. Every subscriber paying 50 cents for Daily or Weekly, by mail or carrier, will be entitled to one guess for the wheel. Those paying one dollar will get two guesses, but, in order to prevent strife, and protect the legitimate guesser, it will be necessary to deposit the original subscription receipt in the box at The Journal office, with your guess written on the back of same. Call at The Journal office and learn the particulars, and then look at the wheel, at the warehouse of Mitchell, Lewis & Staver. It is the best Mitchell wheel, with coaster brake, guaranteed for the year, and is backed up by the Mitchell, Lewis & Staver Company.
