

T. B. KAY, REPUBLICAN CANDIDATE FOR THE LEGISLATURE

Some Reasons Offered Why He Should Be Returned to the General As- sembly

The people of Marion county will show their appreciation of the faithful services of T. B. Kay in the last legislature by electing him a second time by an increased majority. Kay is the right kind of a man to have in the legislature. He is free and outspoken in his opinions, with no deception in his make-up. It was he who introduced the flat salary bill and fought for it until it passed the House. He forced the scalp bounty bill out of the hands of the committee so that it could be passed, thus cutting off an expense of \$10,000 a year. He fought the clerkship abuse from start to finish and gained the title of watchdog of the treasury. It was his bill that provided for the loaning of the school funds to school districts, thereby placing \$250,000 out at interest and increasing the school revenue by \$12,500 per year. He was a leader in the fight for the corporation tax and the inheritance tax and opposed the passage of the new assessment law which made a special session of the legislature necessary. The Republican county convention acted wisely in renominating a man who has such a good record as this. Democrats as well as Republicans will show their appreciation.

benefit of the taxpayers. At the last regular session Kay worked and voted for the Eddy corporation tax law although his own company would be a heavy tax payer under that law. Such a man can be trusted to represent the interests of the people faithfully and he will be elected by an enormous majority.

Worked for Economic Measures.

Taxpayers, regardless of party lines, endorse the course of Representative T. B. Kay in the last legislature. He opposed the clerkship abuse, voted against the bill for the establishment of another normal school, fought successfully for the repeal of the burdensome scalp bounty law, and introduced the bill which has enabled the State Land Board to loan out \$250,000 of idle school funds. He worked against the new game law which proposed to increase the appropriation by \$12,000. He worked for the Eddy Corporation tax law which has added \$100,000 a year to the state income, thus lessening the burden of property owners. Every tax payer, whether he be Republican, Democrat, Prohibitionist or Socialist, can take pleasure in voting for a man who has thus faithfully stood for the best interests of the people.

Did Not Oppose Child Labor Bill.
The enemies of Mr. Kay charge that gentleman with being active against the Child Labor bill in the last legislature, and no doubt many are believing these statements, whereas in truth there was no opposition to the bill, the vote of the house being practically unanimous for that measure. He is likewise being accused of opposing the Eight Hour bill, whereas the truth is that bill originated in the senate and never reached the house. This class of falsifying will rebound to the credit of Mr. Kay and make votes for that gentleman instead of hurting him.

An Employer of Labor.
Such men as T. B. Kay build up a community. The Thomas Kay Woolen Mills give employment to more people than any other industry in Marion county. Kay is a level headed business man whose interests are closely identified with those of the taxpayers of Marion county. He is the kind of man that is needed in the legislature to make laws for the

as a blacksmith and worked for nearly twenty-five years at his trade, twelve years of which time he was in partnership with Jimmy Ross, now sheriff at Toledo, and a candidate for re-election. For the past ten years Mr. Rice has been at Pratum where he has a blacksmith shop and a merchandising store. Mr. Rice was married twenty years ago to Miss Clara Gunnison of Ashland and their union is blessed with four Rooseveltian boys. Mr. Rice was a candidate for the nomination for the office of assessor four years ago but failed by a few votes. He is a strong Republican popular and a good worker. He is a capable business man and will make a good assessor as there is no doubt of his election by a large majority.

Salem Bird Study Club.

The club met in annual session in the parlors of the Unitarian society, Friday evening at 8:00 p. m., Mrs. W. C. Hawley presiding. The following officers were elected: J. W. Cox, president; Mrs. A. W. Prescott, first vice-president; Mrs. D. J. Fry, second vice-president; Mrs. Frank Hughes, third vice-president; Mrs. W. C. Hawley, secretary; Mrs. A. W. Prescott, corresponding secretary; A. F. Hofer, Jr., treasurer; Miss Nellie Taylor, A. E. Aufrance, Wm. Warner, advisory board.

An interesting paper on "Birds of Sherman and Gilliam Counties" was read by Miss Clara Smith. Some original photos of humming birds were exhibited by A. E. Aufrance.

The club will hold its next meeting Friday evening, May 27th, at 8:00 p. m., at the same place.

The club will give a field meet on Minto's island next Tuesday, at 3 p. m. All lovers of birds, old or young, are requested to attend.

Bear This in Mind.

You don't have to come down town when you want to order meat. Just ring us up or send one of the children after it, and your orders will be filled promptly, and with just as much care as if you had come yourself. Remember the meat war is still on, and you get the advantage of the cut rates. E. C. Cross, State street.

A Remarkable Test

APPLIED BY A TEACHER IN A LEADING UNIVERSITY.

Demonstrates the Power of Dr. Williams' Pink Pills to Restore Shattered Nerves.

Mrs. Leander Lane, wife of the minister of the Christian church, of No. 2910 I street, South Omaha, Neb., tells how her daughter has been enabled to resume her professional work as a teacher after suffering for nearly three years from severe nervous prostration:

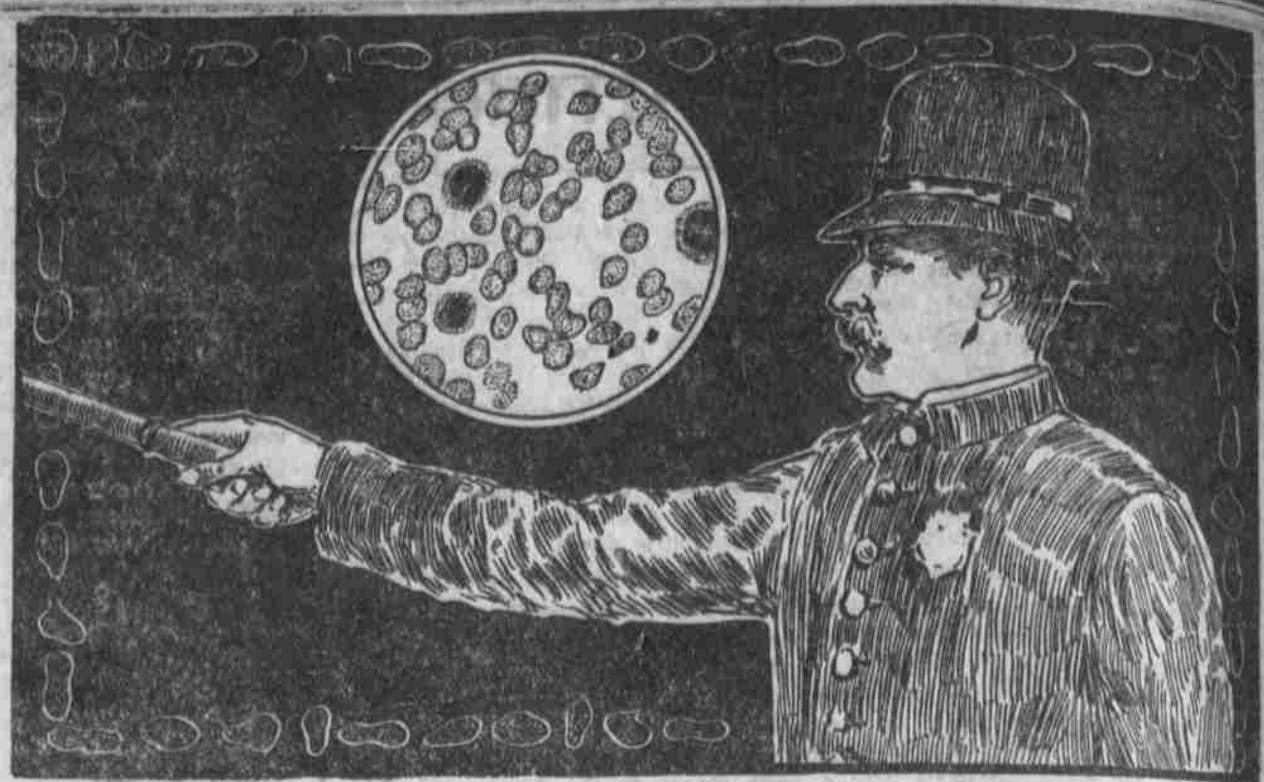

"When she was passing from girlhood to womanhood," says Mrs. Lane, "she suffered greatly from difficulties peculiar to her sex. The physician did not help her; but a few boxes of Dr. Williams' Pink Pills brought about the perfect regulation of her system."

"While she had escaped from one grave trouble, she unfortunately began to overwork, first as a student and then as a teacher in a large Iowa institution for orphan boys. She enjoyed her work and was very enthusiastic, but the strain finally told on her. She became pale, weak, nervous, unable to sleep; she had no appetite and she suffered from severe headaches. Then came a complete breakdown and her work had to be given up."

"The confidence which Dr. Williams' Pink Pills had already inspired in us led us to try them again in this emergency. Improvement came at first slowly, and we sometimes doubted whether she was gaining, but we noticed that whenever she stopped taking the pills she fell back, and whenever she resumed the use of them she revived and so we kept up the treatment until she recovered her usual health and was able to take a position in one of our universities where she is happily at work. My mother, my daughter and myself have a well-founded confidence in the merits of Dr. Williams' Pink Pills and are always ready to recommend them."

"This is simply one more proof that these pills seek disease at its source and effect fundamental cures in all diseases having a common origin in impaired blood or nerves. They arrest physical decay when it seems inevitable and find a road to restoration when the doctor misses it. They are sold by all druggists throughout the world."

The Guardian of Our Body

SCIENCE UP-TO-DATE.

The foremost biologist of our day is M. Metschnikoff who has shown the world of science that there are leucocytes in our blood that act as scavengers or policemen. These policemen which are called phagocytes look out for the noxious or poisonous elements in our blood. It is of the highest importance to the long life of the human being that these policemen guard us from the attack of germs from the outside—who enter our bodies like burglars to take our lives. Various offending elements such as micro-organisms are picked out of the blood and tissues by these policemen and destroyed. Therefore our lives are protected by these blood-cell-policemen the phagocytes, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscles. We can prolong life by keeping our blood in good condition—our circulation and liver active. In the above sketch the border shows types of red corpuscles which are degenerated, broken down blood cells—in healthy red blood the cells are round but when we get pale, thin and weak the rounded cells soon become irregularly shaped or like a dumb-bell. The policemen in our blood are represented by the dark irregular shaped cells within the circle showing healthy blood cells.

"The more study and time is given to the subject the more we find that the blood is the center of life"—says Dr. R. V. Pierce, the noted specialist of Buffalo, N. Y., "the health and comfort of the average person depends entirely on this blood supply—for the heart must have

pure blood or it will not pump and keep the body supplied regularly like the beautiful automatic engine it is. The nerves must be fed on pure blood—or we suffer the pain of neuralgia, which is the cry of the starved nerves for food. Headaches, cold in the head, catarrh—and many other things are due to stagnation of the blood." Many of our common ills could be prevented and cured if the people only knew themselves and their bodily make-up. Study some good medical book, it need not be technical—a good one is the "Common Sense Medical Adviser" by R. V. Pierce, M. D. This book is a complete treatise on Physiology, Anatomy, Hygiene and Medicine and gives simple receipts for the cure of ordinary ills—and is within the reach of everyone for this one thousand page illustrated book will be sent, by addressing Dr. R. V. Pierce, Buffalo, N. Y., for 21 one-cent stamps in paper binding, or cloth-bound for 31 stamps.

HOW TO PUT THINGS IN ORDER.

"A new broom sweeps clean"—and in order to put our own house in order we must get rid of all the poisons in the blood with a new broom such as an alterative extract made from roots and herbs—without the use of alcohol. Alcohol only shrivels up the red-blood corpuscles and therefore it is unwise to try and brace up one's strength with cocktails or alcoholic tonics and compounds. Some thirty-eight years ago Dr. Pierce who was in the active practice of medicine and surgery found that an alterative extract could be made of certain herbs without the use of alcohol, that was a specific for making rich blood—for eradicating the poisons from the blood. In some way the policemen in the blood are increased in number

and strength—so that we are put in the best possible shape to resist disease—to cure neuralgia, colds, catarrh, and incipient consumption.

"I believe that it is generally conceded that Dr. Pierce's Golden Medical Discovery is the best medicine for a man to take suffering from indigestion, kidney trouble or any of the afflictions resulting from overwork or neglecting a cold," writes J. Russell Hill, of 332 Barrie Street, Kingston, Ontario, Recording Secretary Imperial Knights' Federation League of Kingston. "I have used it several times during the past few years and have always found that it gave me immediate relief. It expels excessive uric acid in the system due to improper digestion, relieves the kidneys from congestion, drives headache and backache away, induces appetite and tones up the general system. I consider it a fine remedy for young or old men, sure to build up a run-down condition of the system."

"It gives me great pleasure to express my faith in the virtue of Dr. Pierce's Golden Medical Discovery," writes Mrs. Ellen Hayes, of Whittens Stand, Tenn. "For several years I suffered with stomach trouble. Had spells which were so bad no pen can describe the suffering I endured while they lasted. In November, 1901, I wrote to Dr. Pierce, describing my case, and he replied advising the use of his 'Medical Discovery.' I bought nine bottles, have taken five of them and have not had another spell since I commenced the medicine, although am not yet entirely cured. I have received much and lasting good from Dr. Pierce's Golden Medical Discovery, and know that if I continue with it that it will cure me. I thank you for your kind advice and the benefit I received from your medicine."

FRED J. RICE REPUBLICAN NOMINEE FOR ASSESSOR

Candidate for an Important Office Who Comes From the Ranks of Business Men and Smaller Property Owners

Fred J. Rice, the Republican candidate for assessor of Marion county was in the city the other day, and when interviewed by a Capital Journal reporter as to how he thought the office ought to be conducted, that gentleman responded very promptly with something like the following statement:

"In conducting the office of assessor it will be my purpose to pursue a course that will at all times tend to bringing the tax burden alike upon all classes of property, so that the entire wealth of the county will be placed upon the tax roll, making fairness and equality my motto at all times."

This statement has the right ring, and stamps Mr. Rice as a man of the proper conception of public affairs, a man who wants to do his full duty by all classes, and that is all that can be asked of any man. To the people of Salem it is needless to introduce Fred Rice, for every man, woman and child who lived here during the time he did know him and knows him favorably. For the bene-

fit of new comers and people in the more remote section of the county it may not come amiss, however, to state that he is an Oregon boy, born near Scio, March 22, 1862, but he came to Salem with his parents when a boy. His father opened a blacksmith shop here, and in 1872, during the famous Modoc war, was blacksmith at the Siletz reservation, helping keep the Indians there from joining with the Modocs. A few years later Mr. Rice's father, who was one of the best-known men in Western Oregon, went to Klamath reservation. On their return to Salem, Fred began
