My Life

Hung On a Single Thread With Heart Disease.

You should never wait until your life hangs in the balance before you give the necessary aid to your sick heart.

A weak heart is always serious, for it affects every organ of your body through its inability to purify and keep the system supplied with pure, rich, life-giving blood.

Any indication of heart trouble, such as shortness of breath after exercise, redness of face, hot flushes, oppressed feeling in chest, weak, hungry spells, palpitation, dizziness, sudden starting in sleep, irregular pulse, is serious, and should be cured at once.

The safest and surest treatment is Dr. Miles Heart Cure, a nerve and muscle builder, a blood tonic. It acts directly on the heart, nerves and muscles, giving them strength and vigor, and relieves every symptom of a sick heart. Your life depends upon your heart, and a weak, diseased heart, like a single thread, can endure but little.

"I suffered for years with my heart. At times my life hung by a single thread. A number of physicians and an eminent specialist treated me. Without the knowledge of my doctor I took Dr. Miles' Heart Cure. It lifted the pains from my heart, and caused a free circulation of blood. I am now able to attend to my affairs, something I had never hoped to do again."—MR. JOHN KOELGES, 136 Clinton St., Cleveland, Ohio.

If first bottle does not benefit, your money back. FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank. feature of the whole initiative business.

Any crank or freak legislator can get up a product of his badly wheeled cerebrum, and fire it at the voter with an argument at public expense.

No one will take the pains to reply, and the voter is misled into supporting what he supposes is a reform bill.

Of course, Mr. U'Ren will reply. He has nothing else to do. In fact he is paid to do it at the expense of the taxpayer.

He says: \$2000 was spent to perfect this bill. He probably got most of it.

THE SKELETON.

The Salem Journal, which demanded a direct primary law most fiercely, now opposes the present law for some reason. A skeleton has been discovered.—Albany Democrat.

Yes, the skeleton is there, and it is a grim one.

The law The Journal asked for put no expense on the taxpayers. The one proposed doubled election expenses.

The law The Journal demanded shut out no political party. The U'Ren law shuts out all but the two big parties.

The law The Journal demanded left men free to vote with any party. The U'Ren law compels them to disclose their party affiliation in advance, ties their hands and makes independent voting impossible.

The Journal advocated a law which made it easy for any poor man to be a candidate.

The U'Ren bill puts a monopoly of office getting in the hands of the rich, the frothy and the professional politicians.

Besides, the Democratic state platform endorses the Direct Primary law and the Republican platform refused to give it any endorsement whatever.

DEFECT OF OVER-EDUCATION.

The Standard Oil university of Chicago has a lot of theoretical numbskulls and they are continually evolving impracticable and nonsensical effusions that are to say the least, childish and shallow.

The latest professor, so-called, to break out is one Starr, and he twinkles in an absent minded manner as follows:

"The war has resolved itself into a conflict of races. Upon its outcome depends the question whether the yellow races will rule supreme over the white races and nations of the earth. England and the European nations are on the decline. They are exhausted. They are unnatural, and their end is near. As every dog has his day, I believe the day of the white race is about over."

Perhaps the poor fellow realizes his own rotting away condition and thinks that all mankind is weak and degenerate. Or perhaps the educated fob is in such an exclusive and narrow atmosphere that he only sees the few weaklings like himself and judges the white race from those chaps, simmering, whimpering semi-idiots that they are.

These high salaried theorists who ride through life without much effort, and occupy a chair of high sounding name by the grace of some old robber who probably fleeces the very life blood out of every person coming in contact with his merciless talons, are mighty poor specimens of white manhood. If the world had depended on such scholastic cranks for advancement, we would be driving oxen and waiting six months for our dispatches. With all their supposed learning and

social cultivation not one great discovery can be traced to them. Their edicts and epistles bear the stamp of emptiness and if followed would lead to the utter demoralization of the human race.

Many a bright useful man has been ruined by over education. A man may be hampered by under education, but his brain remains sound. It is different however with the college worm, who gets in a rut and from his little path attempts to survey the whole world.

His sphere of observation is too limited and his position too obscure to become a leader but the poor ignoramus is in the dark and fails to get his proper bearings. Because the world greets him with a chilly reception he thinks humanity is declining, and he passes out and away from the vision. But the old world moves along at about the same speed and the common every day sort of people continue to do things tending to advance the mental, moral and material conditions.

X-RADIUMS

The Seattle Times and Star are rivals in a race to find a missing 30 month's old child, Prewett Baker, believed to have been kidnapped.

Between Socialism, eight-hour laws, woman-suffrage, local-option and waterspouts, Colorado has a great deal to contend with.

The Journal, for a newspaper that doesn't live by any graft whatever, was never so prosperous as right now. It earns a little surplus each month of the year.

If that Woodburn editor knows of any rottenness in the administration of the present county court he owes it to the public to make it public and this paper is open to him to disclose his facts.

The people of Salem will not endorse backward steps in the public schools. They do not want the trees in Marion square cut down and sold for cordwood. They do not want to go back to the old plan of "working" the roads. Give us progress all along the line, gentlemen.

Lane county Republicans are pulling for 1000 majority for the whole ticket. They want to be the banner interior county in the state. Marion should be good for 1200 to 1500 with any kind of a campaign.

It is seriously proposed to cut down the trees on Marion square.

The Daily Coast Mail at Marshfield is setting a hot pace in the Republican newspaper campaign of Southwestern Oregon.

The Seattle Sunday Times is in six sections and has 56 pages.

Take a free guess on the population of Salem. See conditions of contest in this paper.

There is a wonderful lull in the Paradjournment of congress; others to the adjournment of congress; others to the fact that it is tainted too strongly with Hill-Belmontism; others still, say that it is due to the meat-ax methods, adopted by the majority in the New York state convention. The chances are that its collapse is owing to the absence of any spontaneity on the part of the Democrats of the nation. A boom to endure among Democrats must have something back of it besides the schemes of politicians.

No such country as lies between Salem and Dallas would lie outdoors anywhere in the world 60 days without a railroad through it in any state but Oregon. If it were in Pennsylvania there would be at least three lines through it. The Journal wishes Daniel Webster Holmes all the luck in the world to get that line built. After it is done the S. P. Co. and everybody else will say why wasn't it done long ago.

If this state would spend half the money it puts up for a grafting scheme like the Portland fair in encouraging the building of railroads it would get 10 times the benefits, and the taxpayer would grow richer instead of poorer. But the people love to be lumbugged and pay the lumbugger at the same time. But how much longer are Jeff Myers, Wm. H. Wehrung, et al. to be kept on the payrolls, anyhow?

The borough of Morrisville, New Jersey today celebrated with appropriate exercises the centennial of its incorporation. A leading feature of the celebration was the unveiling of a monument to Robert Morris, the financier of the Revolution, in honor of whom the town was named.
