FACULTY MEMBER ELECTED

Trustees Meet and Ask Prof. Boyer to Accept Place

Professor C. O. Boyer, vice president of the University of Puget Sound, has accepted the chair of physics in the Willamette university. The position was tendered to Professor Boyer at a meeting of the board of trustees on Monday.

The Tacoma Ledger says of him: "Professor Boyer's friends think that he would have accepted the presidency of the university with which he has been connected for the past eight years if it had been tendered to him at the June meeting of the board, but since the board took the election under advisement he declined to become a candidate."

Professor Boyer is a graduate of the Puget Sound university and was connected with it for seven years until he became vice president of the new institution, the University of Puget Sound. During the last year of the existence of the Puget Sound university he was acting president.

When the election of a president to succeed Dr. E. M. Randall was under consideration in June, a petition signed by all the students of the university, and another signed by 150 business men, were presented to the board asking for Professor Boyer's promotion, but there seemed no possibility of his being unanimously elected, and for that reason, it is believed, he withdrew from the contest.

AMONG CLIFF DWELLERS

Quaint Customs of the Ancient Races Are Pictured

St. Louis, July 7.—Famous caves of the stone age, as they exist today in the canyons of Arizona, New Mexico and Colorado are reproduced for the habitation of real Cliff Dwellers on The Pike at the world's fair, and here the life of those ancient aborigines may be studied amid natural surroundings.

Added ethnological interest is found in a large pueblo of Zuni and Moki Indians, who daily perform the historic snake dance and follow the strange customs common to their tribes. These Indians are the descendants of ancient kings and are the remnants of a once powerful race. They have not been seen heretofore at any exposition.

Huge cliffs form the front of the concession and above these can be seen a towering peak which can be reached by a tortuous trail overhanging rocky ledges, deep fissures and caverns. Burros convey the visitor to the top of the crags, where the caves and their relics may be seen, and where a fine view is obtained of the busy scenes of The Pike below.

Entrance to the City of Cliff Dwellers is through a tunnel which pierces the cliffs. The reverse side of the walls presents more caves and other mountain trails. A large structure of quaint architecture occupies the center of the village, and in this the Indians perform the dance of Kachina, the poetic flute dance and the dramatic snake dance.

The Kachina is distinguished by the use of the heads of buffalo and bear, which are worn by the warriors over their heads to conceal the features. The Snake Kiva, a cavern reached by a ladder, the famous Dance Rock of Wepi, the Antelope Altar and other interesting sights rise from cacti and sage growing in the rocks and sand.

Long ladders reach to the roofs of the cliff dwellings, and potters, weavers, silversmiths, basket-makers and other Indian workers give the final touch to the attraction.

YOUR HAT May Be a Stylish One, But It Makes Trouble.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.
