

OFFER MUNICIPALITY MILL PROPERTY

Salem Flouring Mill Company Would Sell Brick Mill for Lighting Purposes

Mayor Waters is in receipt of a significant communication as chairman of the committee which was appointed by the council to receive bids on electric lighting properties. It is no less a proposition than the offer of the large brick mill and warehouse with all the water power, water wheels and apparatus pertaining to the same. The letter is given below, and the entire community is so familiar with the nature of this property that no further explanation will be needed as to its merits.

Several propositions of a lesser desirable character have been submitted, which will, in due time, be laid before the committee, and no doubt others will come to the surface before this matter is disposed of.

The letter is as follows:

Hon. F. W. Waters, Mayor Salem, Or.:

Dear Sir.—Replying to your letter of the 14th inst., we desire to offer you our brick mill in North Salem with the land on which it is located, also the old frame mill located on this property, the ditch and such land along same necessary to protect the riparian rights—some 10 to 20 acres—in the city limits of Salem, an exact description of which can be furnished if required.

At the brick mill is one 40-inch Victor water wheel, head at low water 36 feet, at maximum head should develop 325 to 350 horse power. By proper arrangement of pulleys, wheel could be speeded at maximum head during summer months, and for heads as low as 26 feet during freshets. At this head it would develop about 200 effective horse power. At the old frame mill is one 26-inch Leffel water wheel, which is available for some use.

The engineer's report, from which we are quoting, recommends as the best arrangement to utilize the power the installation of a pair of 42-inch horizontal wheels with flow of water equal to the capacity of the canal, and with this arrangement the plant, except at extremely high water, would be always good for at least 500 horse power. During the greater part of the

Will Preserve Old Altar.

Workmen are this week installing in St. John's Catholic church in Oregon City a new altar at a cost approximately of \$500. The new furniture, which has been provided by the ladies of St. Andrew's Altar Society, replaces the altar that was placed in the church building and dedicated in 1846.

The Oregon City church being the oldest Catholic church in the state, the altar will be preserved as a relic of the earlier history of the Catholic church in the Northwest by the members of the congregation. The new altar will be dedicated by Archbishop Christie as soon as he recovers from his illness.

Blue River Mines Road.

Judge Chrisman and Commissioners Edwards and Price have returned to Eugene from Blue River, where they have been inspecting the wagon roads with a view to their improvement. They find the camp flourishing, and will authorize the expenditure of funds for the betterment of roads in a judicious manner.

Notice.

The lumber companies of this city, after this date, will charge cartage on orders calling for the delivery of less than 1000 feet of material.

SALEM SOCIAL EVENTS

Pretty Home Wedding.

About 75 of the friends and relatives of the contracting parties gathered at the home of Mr. and Mrs. Isaac Lynch, 236 State street, on Wednesday evening, July 20th, to witness the service which united John Graber and Miss Ida Lynch in the bonds of holy matrimony.

The Lynch home was beautifully decorated. At 8:30, to the strains of Lohengrin's wedding march, played by Miss Ida Stege, the bridal party entered the room and took their places in an alcove, standing beneath three floral bells. During the ceremony, which was performed by Rev. F. W. Cliffe, Miss Ida Stege played "O Promise Me" very beautifully.

The bride wore a pretty gown of white silk crepe de Paris over white taffeta, and carried bride's roses. Miss Frances Liston accompanied the bride and wore blue silk crepe de chine. Charles Roth attended the groom. After congratulations, numerous small tables were set throughout the room, and a wedding supper served by Misses Bessie Cooper, Celeste Liston, Hatie Odekirk and Helen McCoy, was enjoyed.

After a trip to Newport Mr. and Mrs. Graber will return to this city, and will reside at the home of the bride's parents until after August 15th, when they will be at home to their many friends at 215 Thirteenth street.

Batchelor—Inman Wedding.

On Thursday evening, at 8:30 o'clock, at the residence of the bride's parents, on Mission street, in this city, Miss Carrie A. Batchelor and Mr. C. M. Inman were joined in the holy bonds of matrimony, Dr. W. C. Kantner, of the First Congregational church, performing the ceremony in his usual impressive manner. The bride is the daughter of Mr. and Mrs. James Batchelor, and is a beautiful

and estimable young lady, and an accomplished musician. The groom is a member of the law firm of Turner & Inman, and is a practicing attorney of recognized ability.

Judge Batchelor's home was tastefully decorated for the occasion with amillax, potted ferns and ivy, and the bride was attired in a lovely gown of champagne voile over silk, and carried a shower bouquet of white carnations. Immediately preceding the ceremony, Miss Minnette Prior, of Woodland, California, sang "Call Me Thine Own" in a way which delighted those present, and showed that young lady possessed of a pleasing and cultured contralto voice. The happy couple entered the parlors to the strains of Mendelssohn's wedding march, played with great credit by Mrs. J. W. Baker.

After the ceremony those present partook of an elaborate luncheon, after which the high contracting parties departed on the 10:35 overland train south for a two-weeks' trip after which they will make their home in this city. On account of the extended illness of the bride's mother, the wedding was a quiet one, only the near relatives and intimate friends of the young people being present.

More Cement Crossings.

The city authorities have just ordered a cement crossing put in on High street, just east of the city hall, to replace an old wooden one. That's the kind of permanent work that helps out a town, and it should be fostered in every part of it.
