"About three years ago I was taken with a bad cough, vomiting and spitting blood," writes Mr. D. J. Robinson, of Spring Garden, W. Va. I tried many remedies; nothing seemed to help me till I commenced using Dr. Pierce's Golden Medical Discovery. After using ten bottles and four viais of his 'Pleasant Pellets,' I commenced to improve. My case seemed to be almost a hopeless one. Doctors pronounced it ulcer of the lungs. I was sick nearly two years—part of the time bedfast. Was given up to die by all. I thought it would be impossible for me to live over night at one time. I haven't spit any blood now for more than twelve months, and worked on the farm all last summer. It was Dr. Pierce's medicines that cured me."

Talk of Its Advantages and Not of the Little Unpleasant Things

A correspondent signing himself 'Newcomer," in the Cottage Grove Leader has the following very pointed and truthful article in the last issue of that excellent paper:

"May I take a little space in your paper to tell a few of my impressions of this great state of Oregon. First of all what impressed me most, was the lavish way in which nature had dealt her bounties; forests, mines, water, quarries and good soil for agriculture. Coming from California where irrigation prevails, the fields and gardens watered only by rains seemed strange. Oregon streams, their banks covered with vines and flowers have been an unending source of pleasure, for many rivers in California are "dry creeks," as their banks too plainly show. Traveling from Los Angeles to Portland one passes through great changes in the scenery. Immediately upon leaving the southern cities, we pass into arid land, save where irrigation has reclaimed the desert, and all through the length of the state gardens and orchards are water.
