

LETTER FROM LIBERTY

Mr. Weaver Wants to Know Where the Line is Going to Run

The Journal is in receipt of a letter from a property owner at Liberty, asking where the electric motor line is going to run. Inquiry of the Salem committee shows that they are offered some good subscriptions to leave the country road line, if that can be secured for right of way. Mr. Welsh, of the company, could not be seen this morning, but it is understood the company will run the line wherever the people want it to go, and are willing to put up the subsidy, without which the line cannot be built.

Letter From Liberty.
Ed. Journal: A great deal has been

said in the last few weeks about the Liberty and Rosedale street car line. Committees have been appointed to solicit subscriptions of money and work, but up to the present time we have not been able to learn anything about the extension of the car line in case they get what they want. At first it was supposed that they would follow as near as practicable the public road, but now we have a rumor that it will go to the rock pit and then south to the Crouse place, then east of the Miles place and then on to Rosedale, carrying Liberty off the track entirely, so until we know more about it, we will not feel like promising anything toward it. Yours respectfully,
C. L. WEAVER.

Married at Summit.

H. H. Ling, station agent at Summit, and Miss Dot Custer, of this city, were yesterday afternoon married at Summit by Justice of the Peace Underhill. The happy couple have many friends in this city who wish them the best and choicest blessings in their new state. Miss Custer is a resident of Albany, and the groom was formerly an employe of the C. & E. railroad offices in this city, leaving here a month ago for Summit, where he assumed the position of station agent.—Albany Herald.

Mr. Ling is the son of Mr. and Mrs. C. N. Ling, of this city, and is well known here. Ben Ling, of this city, attended the wedding.

Warm Summer Sunday.

The last day of July was a scorching, and temperature registers hugged the last nineties with California persistency. One on Commercial street reached 100, several marked time at 98, but the usual run was about 96. It was warm enough every place and very little breeze was in evidence until late in the evening, when the refreshing zephyrs toned up many a dejected and wilted system.

The grocer would be too comfortable if all his goods were like Schilling's Best and backed by the maker as they are.
