The Small Things

are given particular attention in our store. A ten cent job receives the same care and attention when repairing it, as a ten dollar job. This is what has built our business up to its present high standard and proportion. Our repair department is where we live and its a common fact that when work has been a failure elsewhere, it finds its way to us and is made the same as new. People living along R. F. SELECTS CAMPAIGN MANAGERS

Chairman Cortelyou Names Men Who Will Assist Him

Chicago, Aug. 3.—Chairman Geo. B. Cortelyou, of the Republican national committee, has selected the men who are to serve on the executive committee during the coming campaign. The committee is divided equally between Chicago and New York four members being allotted to each headquarters.

The following are the members of the executive committee, as announced by Mr. Cortelyou tonight:

Eastern headquarters, New York—Charles F. Brooker, Connecticut; N. B. Scott, West Virginia; Franklin Murphy, New Jersey; William L. Ward, New York.

Western headquarters, Chicago—Henry S. New, Indiana; Frank O. Lowden, Illinois; R. B. Schnelker, Nebraska; David W. Mulvane, Kansas.

Director of speakers' bureau, Western headquarters—James A. Tawney, Minnesota.

The chairman, secretary, treasurer and sergeant-at-arms of the national committee are also the officers of the executive committee.

Colonel New will have charge of the Western headquarters, while Senator Scott, it is said, will exercise general direction of the work at New York.

With the exception of the speakers' bureau, all departments heretofore maintained by the Republican national committee will be abolished and the work conducted under direction of members of the executive committee.

The advisory board of the committee, of which ex-Controller of the Currency Charles G. Davis, of Chicago, will be a member, will be appointed by Chairman Cortelyou next week.

After this announcement, Mr. Cortelyou left for New York.

Managed Hotel.

St. Louis, Aug. 3.—The first official act of Theodore Roosevelt, Jr., manager pro tem of the Inside Inn, at the world's fair, was to discharge his secretary, Alexander Russell, for refusing to obey orders. With much ceremony, and before the department heads of the hotel, the eldest son of President Roosevelt yesterday accepted the position of manager of the Inside Inn, conferred upon him by Mr. Watcham. Young Roosevelt will hold this position for 24 hours. Kermit Roosevelt was made assistant manager, and the two cousins were appointed secretaries.

Good Buggies

There are a whole lot of things most every purchaser of a buggy or rig can't see.

For instance, he cannot see through paint or varnish—he has to trust the maker and the seller for the value in the rig.

Wouldn't you as lief trust a good factory with a reputation as some unknown maker, or possibly a "bargain counter rig" with the manufacturer's name left off?

Our Studebaker goods are reliable. Sixty years of reputation lie behind them. Come and see what we have to offer.

Some popular-priced rigs, too, of standard make, with which we have made a big hit.

Senator Scott Says That West Virginia Is Safe for Republicans

Washington, D. C., Aug. 3.—Senator N. B. Scott, of West Virginia, manager of the eastern bureau of the Republican national committee, conferred with President Roosevelt this morning after a trip through the west, bringing assurances that Colorado, and Nebraska are sure for Roosevelt. West Virginia is safe, he says, and the Democrats cannot take the legislature from him if they spend \$4,000,000 in the effort.

FOUND COAL VEIN

Oregon City, Aug. 3.—The discovery by the Wallace boys yesterday of a vein of coal in the foothills above the upper Clackamas hatchery, has thrown the residents of that section of the county into a fever of great excitement.

While prospecting Wallace discovered an exposed vein of coal that he was able to trace for a considerable distance. All of the country surrounding the find is being staked off into claims and filed on and the excitement is intense. Samples of the mineral have been submitted to an expert whose findings are awaited with great expectancy.

GAVE THEM SLIP

Rouen, Aug. 3.—Despite the close watch of the newspaper men, Mrs. Maybrick left here on the night of July 25th, for Havre alone, with several trunks and now probably is either aboard the steamer St. Paul or Kaiser Wilhelm bound for America.

Georgia Horticulturists.

Tallahassee, Ga., Aug. 3.—The annual convention of the Georgia State Horticultural society, which began here today, is one of the largest meetings in point of attendance in the 28 years' history of the organization. The opening session this morning, after addresses of welcome and responses, included a discussion of "Cantaloupes," by E. J. McRee, of Kinder Lou; "Watermelons," by M. B. Jones, of Thomasville, and "Strawberry notes," by S. S. Smith, of Decatur.

Legislation and horticulture, plant pests and maladies, experimental work, and the protection of bird life were among the subjects discussed this afternoon. Several hundred plates of the finest specimens from garden and orchard are included in the exhibition which is being held in conjunction with the meeting. The sessions will continue through tomorrow.

Centennial of Indian Pow-Wow.

Omaha, Neb., Aug. 3.—Under the auspices of the local and state historical societies suitable exercises were held today in celebration of the one hundredth anniversary of the first conference with Indians ever held west of the Missouri river. The council was held August 3 and 4, 1804, at old Fort Calhoun, 16 miles north of this city. Colonel Merriweather Lewis, and the pow-wow which ensues furnished the name for Council Bluffs, just across the Missouri river, which has now grown into a city of 25,000 people.

STRUCK ON HEAD BY LIMB

Albany, Ore., Aug. 3.—Word was received in this city today that D. F. Meyers was killed at his place near Lacombe this morning while fighting a forest fire. A limb from a burning tree struck him on the head, killing him instantly.

The forest fire had been raging all night and the people of that vicinity were fighting to save their timber and homes. Lacombe is about 20 miles east of this city and is in the midst of a heavy timber belt. About two weeks ago deceased lost his saw mill by fire. He was a prominent citizen of the county and leaves a family.

(Frank and Oliver Meyers, are sons of the deceased and are employed at the Spa in Salem. They were informed of the sad occurrence by telephone this morning and left at once for their home.)

Sold Their Interests.

Otto E. Krausse, of Portland, is in the city today, and it is learned that he and his brother John R. Krausse, have sold their interest in the big wholesale shoe house of Prince & Krausse, and have retired from business for the present. They expect later to re-engage in business, but will first take a long-earned rest. Mr. Krausse's family is at present at Newport for the summer.

On exhibition at our store, is the result of two years' time taking surveys and elevations of this enormous undertaking. The educational value to students and teachers is inestimable. Not one person in one hundred knows in what direction the Panama Canal runs, what the distance is across it, nor the amount it will cost when completed. This model is to be given to the school or college securing the greatest number of votes in the voting contest, which begins August 8th. One vote given with every 25c purchase.
