

THE WHITE CORNER Millinery Department

Miss M. D. Evans, Proprietor

We announce for Thursday, September 8th, our
Preliminary Opening
Of Autumnal Millinery

From a style standpoint this showing will be of much importance to every lady, being the first expose of the ideas accepted by leading authorities as the most correct interpretation of the season's modes. The display will be very large—a comprehensive showing of millinery for every occasion, the smart hats for street wear, as well as the more elaborate creations for the swell functions.

GAGE HATS

READY FOR THE FAIR

Many Horses at the Track and Exhibits Commence to Arrive

The fair is drawing near, and the state fair grounds are a scene of life. Over 150 horses are now on the grounds, but only about 100 of these are in actual training. Tuesdays and Fridays are the days when the principal try-outs are made, but some good speed was made this morning. Thomas D. Condon, of Eugene, the well-known horseman, had his California horse, Lord Kitchener out, and says that he was never in better condition. Lord Kitchener is well bred and for two years has taken prizes on showing, both on breeding and individuality. Mr. Condon says he expects to make record time this season. After leaving here he will make the Eugene races, then Yakima, and then follow the circuit the rest of the season.

Among the Washington horses, John Lane has "Hellenas," from Medical Lake, and Sam Bowers (known as the "kite frame") from Cheney, the latter he expects to fly in the 2:11 pace.

The main gates and fence of the grounds are resplendent in a new coat of white paint, and repairs are being made to the grand stand, and, from outward indications the fair will even surpass its usual standard.

The ever-present merry-go-round has its canvass up, and will soon be dispensing popular airs and dizziness at

five cents a whirl. Quite a city of campers are already located outside the gates, and more are arriving all the time in wagons and on every train. A novel idea for keeping a 5-year-old child from running away from camp was hit upon by one of the campers. The child is tied to a tree by a rope about 20 feet long, and seems to be quite content with its limited sphere.

The track is in good condition, and good time could be made if the smoke would clear away, but the weather is a great hindrance.

Headquarters of the state fair board will be moved to the grounds tomorrow, where Secretary W. A. Moores will be found until everything is cleared up after the fair. Captain C. A. Murphy has been appointed superintendent of the pavilion, and will commence work on the exhibits tomorrow morning.

The first event to be held will be an unofficial running race with Case's Tenbrook and Brandon's Lizzie C., both of Albany, matched for a good-sized purse. This race will be run Saturday morning.

Chinese Masons Celebrate.

The Chinese Masons celebrated last Saturday evening with great pomp. Speeches were made by two Celestials, and pretty Chinese women attended. Bonfires and punk burned brightly until a late hour, and the colony pronounced it a grand success.

Schilling's Best, so far as it goes, means comfort and ease and economy.

A Good Dresser

A good dresser wants life in his clothes. Lots of men wear "dead" clothes, and don't know it. The life of a suit is the dash in the cut, curves and kinks of its makeup that at once stamp its wearers as a well dressed man.

Our Suits Are Full of Life

We charge no more for our suit excellence than other clothiers charge for "just clothes."

Our fall suits are now ready, and we trust that you won't mind if we nudge you gently and say to you that it's high time you were thing about yours.

We will be pleased to assist you in making your selection, and we shall be looking for you every day now.

Dr. Gunn's Blood and Nerve Tonic

There is not a woman in this land but at some time in her life would have been the better for the use of this Tonic. For diseases peculiar to women a better medicine was never made. It is composed of the ingredients from which the system has been deprived by disease, overwork or disipation. It enters at once into the circulation, building up the tissues that have wasted, making pure, rich blood in the most direct way. For weak, nervous, and unsteady people, pimply, pale or fleshless people, it will make strong, steady nerves and give the complexion that wholesome look that indicates health, producing good, solid flesh at the rate of 1 to 3 pounds per week. Druggists sell it for 75c per box, or 3 boxes for \$2. It should be taken after meals, one or two tablets each time.

Fore sale by Dr. S. C. Stone, druggist.

Will Be at Fair.

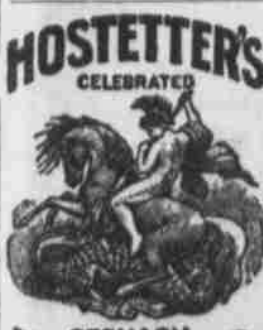

Little Emily Squier entertained a large and appreciative audience at the Main street M. E. church last night. At times the great audience was on its feet, fearful of losing a word or missing an expression. She is truly a prodigy. Should she return the church would be too small to hold the audience. Nature has wonderfully endowed her.—Owensboro, Ky., Enquirer.

Car Struck Wagon.

One of the Salem Steam Laundry wagons collided with an electric car this morning, resulting in a broken wagon wheel and smashed headlight.

The horse was going in a slow trot, having taken advantage of his driver's absence from the wagon, and started off down State street.

That greater damage was not done was due to the quickness of the motor-man in stopping the car.
