**OUTRAGE ON TWO JAPS**

**Were Assaulted on the Big Steel Bridge**

**Were Knocked off Their Bikes and Pummelled by White Men**

Sunday at 4 o'clock four white men driving in a hack across the big bridge saw two Japs coming the other way on bicycles. After hurling abusive epithets at the Orientals, one of the white men, unknown to the reporter, jumped off the vehicle, leaped over the railing, knocked the Japs off their wheels, and proceeded to pound them with his fists. The blood flowed, both the Japs were bruised and beaten, and then the white men drove off.

"Get off those wheels, you s—s of b—s," shouted one of the gang.

"What right have they to ride bicycles? Let them walk," was apparently the only excuse the white men had for making the assault.

The names of the offending Japanese are M. Okiyama and K. Itano. They are small brown men, and work hard all the week through, and were out on their wheels for a little Sunday outing. They have notified Sheriff Culver and Chief of Police Gibson, and will swear out warrants, if they can identify their assailants.

This being Labor Day the Japs have not been able to get before a magistrate. One gentleman, who saw the outrage, says it was the worst case of the kind that has ever come to his notice. He was riding a wheel, and dared one of the men to get off and try the game on him, but got no response. He says the men were about half drunk at the time.

He is a printer, and resides in Portland.

**ABOUT THAT COAT**

You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.

We'll send you a sample free upon request.  
SCOTT & BOWNE, 409 Pearl Street, New York.
