

SOME EDITORIAL ADVICE

To Mr. Rigdon on Political Matters, Past and Present

September 6, 1904.

Editor Journal: Truth compels me to say that I was simply surprised that my letter to you ever saw the light of day in the columns of The Journal. I simply meant to stick a pin in that part of your corporation where a conscience should abide.

There are 17 good and valid reasons why a man with my record should not support T. Roosevelt for the high and mighty office of President of the United States. In the first place he, like McKinley, is a man of honest instincts, but, like the latter, he has his own price fixed, and the classes against the masses will see to it that he gets to the last coin of his own valuation of his own manhood. In the second place, if elected, he will stand for everything that stands in opposition to the vital interests of 90 per cent of the American people. I think it unnecessary to here recite the remaining 15 reasons why a Lincoln, Stephens, Blaine Republican should not vote for Roosevelt. It is mean and contemptible to name Abraham Lincoln in connection with the degenerate scheme of plutocracy today called Republicanism. The party has no more right to claim Lincoln as one of its political patron saints than the devil of orthodoxy has to claim the kingdom of heaven. Elections in this country are carried by the "flouters." This class is composed largely of commercial patriots who stand ready to deliver their ballots for prices ranging from a bushel of potatoes up. Another element in the floating class is made up of the old, young and middle-aged, uninformed, misinformed, whose highest ambition is to be on the side that beats, b-gosh, and this is the dangerous element.

Has history failed to record the downfall of republics on the same road we are so hilariously charging along? As for Bryan, he favored the ratification of the treaty with Spain because he wanted the Republican party to have free course and an unhindered head, to the end that it might reap the reward of its own doings. It was good politics on the part of Mr. Bryan, as it is now good politics and patriotism, as he sees it, to support Parker instead of supporting even indirect political scheme, which, if unchecked, will surely land us in the whirlpool of horrors that overtook France in the closing years of the eighteenth century.

J. RIGDON.

Editorial Comment.

If Mr. Rigdon believes in the principles of the Republican party he should support the men who represent those principles. If he believes in some other principles he should, and probably does, support men who represent those principles. We judge from his expressions that he is not at heart very much of a Republican at present, but points with pride to those times and to those men he supported when he was in that happy frame of mind. He has one of the earmarks of an unreconstructed Democrat, in imagining that everybody from the President down, excepting himself, has a price. We are surprised that so good and pure a man should seek to justify Bryan for "playing politics" with so sacred a matter as ratification of the treaty with Spain

by which we became responsible for the future welfare of the Philippine islands. The honor of the nation and the flag of our country are not political playthings.

We hope friend Rigdon will feel better after blowing off his political gas and welcome him to come again, if it will make him any happier, and if our readers do not object. He probably has no one to give a piece of his mind to on the political situation, and a little space in our paper is always open to people even though they differ from our views in the most radical manner. Mr. Rigdon is talking stuff and thinking things and using a political nomenclature that has been out of date about eight or ten years. He should read up, get out of the ruts he is thinking in, and get hold of something fresher, and he would feel better.

Removing to Portland.

Today Mr. and Mrs. A. E. McAtee remove from this city to Portland to make their future home. Mr. McAtee has resided in and around Salem for 34 years. His wife was a daughter of Lewis Johnson, an old-time architect and contractor of this city. In his younger days Mr. McAtee taught school, and many of the citizens now grown to manhood and womanhood went to Mr. McAtee's country school. For several years he was janitor of the Park public school, and also conducted a mercantile business in Yew Park. As a member of the Grand Army and an Odd Fellow he has a wide circle of acquaintances here who will miss him and his family. A son, Bert, has been employed at Portland for some time, and Miss Cora McAtee, a daughter and popular young society woman, has been in the telephone exchange for three years. The McAtees regret to leave Salem, but Mr. McAtee has better prospects at contracting in Portland, and they have sold their fine home in Yew Park to Fred Rice, of Pratum, the new county assessor, who has moved to Salem.

Exhibit Took Prizes.

With the exception of the samples of flax fibre, the Jersey cows at the college farm thought the samples of growing grain for the state fair were pretty good. Some one left the barn door open, and the cows walked in to make a physical examination of the edible qualities of the various kinds of oats, grain, flax, etc. Several bunches of English oats got first prize, the wheat came in for a red ribbon, while the flax fibre was considered unfit for cow feed, and was tramped under foot. When Overseer Kent came around next morning the atmosphere suddenly became charged with a blue sulphurous haze.—Corvallis Gazette.

For over fifteen years I have suffered more or less from Impure Blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all Boils disappeared and I have not been troubled any since. GEO. G. FERTIG, 114 W. Jefferson St., Louisville, Ky.

Newark, Ohio, May 23, 1903. From childhood I had been bothered with bad blood, skin eruptions and boils. I had boils ranging from five to twenty in number each season. The burning accompanying the eruption was terrible. S. S. S. seemed to be just the medicine needed in my case. It drove out all impurities and bad blood, giving me permanent relief from the skin eruption and boils. This has been ten years ago, and I have never had a return of the disease. MRS. J. D. ATHERTON.

What Is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver Trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle, yet thorough. Only 25c at J. C. Perry's drug store.

ANOTHER POPULAR RESORT

W. W. Zinn Will Open a New Store on Court Street

W. W. Zinn, the popular confectioner, is soon to open another store. It will be located in the room at 104 Court street, formerly occupied by the Citizens' Light & Traction Company's offices.

The exact date of the opening cannot be given, but will be the later part of this week, at which time the new fixtures will have arrived.

The rooms are undergoing remodeling, and the fixtures are to be elaborate and up-to-date. The general coloring is to be cherry.

Everything in the way of soft drinks and ices will be found at this early palace, while especial attention will be given to strictly high-grade confectionery. Mr. Zinn's originality in the candy line will be given full sway.

There will be boxes daintily draped to harmonize with the general effect. In 1897 a partnership was started, known as Ellis & Zinn, with a stock of less than \$100, consisting of small lines of tobacco and a bootblack stand. Three years ago Mr. Ellis withdrew.

The remaining member has kept on improving and adding to the stock as his constantly growing trade demanded.

Mr. Zinn, by courteous treatment and good workmanship, has been rewarded by a trade as a result of which he now finds it necessary to branch out, in order to accommodate all classes.

A WOMAN TO BE PRETTY

Must Have Lustrous and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
