This is the Double Disc

From a Monitor Drill. You can see that it is of a construction that will enter the ground, and put the seed where it belongs—under cover—and that it will not scratch and dig out the trash you have taken pains cover. The disks are self sharpening, and you will find that either wet or dry, they do better work than shoes or hoes.

COURT HOUSE NEWS

Report of Experts Will Be Presented to County Court

County court yesterday granted the application of Balfour, Guthrie & Company for warehouse licenses for their five houses. They do a general grain warehousing business, approximating last year, according to the petition filed by them, at 20,000 bushels of wheat and 30,000 bushels of oats. The court fixed the bond at \$20,000.

The resignation of W. W. Taylor as road supervisor of district No. 23 was accepted, and Wm. Taylor was appointed. Also the resignation of J. E. Cutsford as supervisor of district No. 7, and J. E. Zeigler, was appointed as his successor.

County Recorder Seigmund appointed his wife, Inez Seigmund, and F. E. Waters deputy recorders, and the appointments were confirmed by the court.

The Farmers' Mutual Telephone Co. was granted the right to erect poles on the county road leading from Liberty to Rosedale, and to connect with this city.

Clerk Boland filed a report showing the amount of warrants outstanding against the county for the period prior to seven years before July 1st of the present year, amounting to \$35,750, and he was instructed to advertise and cancel the same according to law.

Circuit Judge Galloway convened court this afternoon, and will hear a number of cases.

The report of Frank Davey and John

B. Giesy, the experts who have in charge the work of going over the books of ex-Sheriff Colbath, is about completed, and will be before the county court for approval about Monday. Nothing definite can be learned as to the findings of the experts, but it is known that they have checked over all the books very closely. They admit having found minor errors on both sides of the account, and also that nothing of an unusual character will be brought to light. There are many discrepancies for and against the office in the matter of computations, largely the result of present complicated tax collecting system, but it is not believed from all that can be learned that the balance either way will amount to much.
