SALEM, OREGON, WEDNESDAY, SEPTEMBER 14, 1904

NO. 215.

## GREAT CROWDS ATTEND SALEM DAY AT FAIR

Attractions Will Be Among the Best of the Week---Fine Racing Program

Today is Salem day, and since early morning the vast crowds have been arriving in Salem. The people know that when the fair is in earnest when it announces the best programs of the week, during the last few years the thousands have been pleased with the attractions.

**Tuesday Afternoon.**  
The attendance at the fair Tuesday was better than any second day in past years. The Woodmen of the World contributed largely to this during the afternoon and evening.

The races were strong and gave the large crowd entire satisfaction.

The first race was the 2:20 pace, best in 3, for \$500. Garvin Wilkes, Derbertha, Byron Laee, Major Del and Halens started.

Byron Laee took first money, Derbertha second and Garvin Wilkes third. Time by heats, 2:15, 2:15 1/2.

The 2:13 trot, for a \$400 purse, was an exciting event with three starters, H. H. Helen Norte and H. D. B., and they divided the money in the order named. Time by heats, 2:15, 2:14 1/2.

The one-mile running race, for a \$150 purse, was won by Crosby, with All about second and Penzane third. Time 1:32.

The Woodman Stakes, six furlongs for a purse of \$500, was warmly contested. Nonie won with a new record on an Oregon track of 1:12 1/2, with My Surprise second and My Surprise third.

**Evening Program.**  
The evening program was excellent. The favorite singer, Mrs. Hallie

Parrish Hinges, delighted the large audience with several sweet songs, her clear, strong voice being perfectly audible in every portion of the pavilion hall. She responded to hearty encores. McElroy's band furnished splendid music throughout the evening.

Prof. W. C. Hawley delivered a stirring address on Woodcraft, and was roundly applauded for his many happy and witty points.

The quartet rendered several selections, and were well received.

The Women of Woodcraft assisted in the program with a number of fine moving pictures.

**Today's Racing Events.**

## FOUND WOMAN'S BODY

Cleveland, O., Sept. 14.—The body of a middle-aged woman doubled up and badly decomposed, was found in a closed trunk, floating in the lake off Ellsworth Bros' factory by a watchman, who discovered the trunk and brought it ashore. On opening it he was horrified to find the remains of a woman.

Two letters were found in the trunk addressed to Margaret Lyon, 279 St. Clair street. The top of the head was crushed in, evidently with a blunt instrument, and there is evidence that the woman was murdered. On Monday the body of an unknown man was found in the same slip, with his head crushed in and pockets rifled.

**San Francisco Surprised.**  
San Francisco, Sept. 14.—The London dispatch saying that it is reported that another Russian cruiser, the Korea, is expected to arrive in San Francisco shortly, has increased surprise and conjecture in local shipping circles. The last accounts from the Korea was at Vladivostok, from which port she was operating in conjunction with the regular fleet. While the report is necessarily causing some concern, no actual fear is felt for the safety of any vessels the Korea may encounter, if she is actually en route to San Francisco, it being held that she is in no condition to overhaul fast liners sailing from Pacific coast ports. By an odd coincidence the Pacific Mail liner Korea is scheduled to leave here on Thursday with a million dollar cargo for Japanese ports, and will leave on the time set, unless developments force a change of the sailing date. The Russian Korea belongs to the Russian East Asiatic Steamship Company, and is about the same size as the Lena. Her armament is unknown.

## BOARD INSPECTS VESSEL.

San Francisco, Sept. 14.—The naval engineers, under the direction of Admiral Goodrich, boarded the Lena, to make a more thorough inspection. The report will be sent to Washington immediately, and final orders as to the disposition of the vessel is expected from the authorities before night. A rigid watch is being kept on the vessel. Captain Berlinsky will visit Admiral McCalla, at Mare Island navy yard today, and, as the navy yard has been offered to him for the purpose of laying up his vessel for repairs, arrangements to that end during his visit are not likely.

**Collier Uninjured.**  
San Francisco, Sept. 14.—The British collier Ditton, which went ashore in the fog five miles south of the Cliff House last night, and which was feared to be a total loss, was towed off this morning uninjured.

**More at Work.**  
Chicago, Sept. 14.—Of nearly 10,000 union butchers and laborers still unemployed at the stock yards, 600 were reinstated today. Members of the cattle butcher's local are threatening to go on a strike again, unless more of their numbers are put to work speedily.

**Will Be Shipped Home.**  
St. Petersburg, Sept. 14.—United States Ambassador McCormick is completing arrangements to send 800 Japanese refugees, collected at Perim, to Germany, whence they will be shipped home.

**Boards British Steamer.**  
Gibraltar, Sept. 14.—The British steamer Ortona, which arrived today from London, reports passing a Russian cruiser, which was boarding the British steamer from Liverpool.

## JAPAN WILL SEND OYAMA MORE TROOPS

One Hundred Thousand Additional Men Will Be in the Field Next Month

London, Sept. 14.—The Rome correspondent of the Exchange Telegraph wires a telegram received there from Tokio, which states that the government, in reply to a request from Field Marshal Oyama, has promised to send reinforcements of 100,000 men and 221 guns by October 1st.

St. Petersburg, Sept. 14.—Word has just reached Petropaulovsk, in Asiatic Russia, that in June a Japanese schooner, with 150 naval reserves, landed and plundered several villages in Asiatic Russia. The Russian militia finally repulsed the invaders, killing 70.

**Another Cruiser to Arrive.**  
London, Sept. 14.—A dispatch from Paris quotes a St. Petersburg correspondent to the Echo De Paris as reporting that a second Russian auxiliary cruiser, the Kore, may be expected to reach San Francisco shortly. The general staff at St. Petersburg feel confident that the United States will allow both the Lena and the Korea to obtain sufficient coal and supplies to take them to Vladivostok. The vessels are intended to stop the shipment of contraband of war to the Japanese from American Pacific coast ports.

**Report From Port Arthur.**  
St. Petersburg, Sept. 14.—Two belated reports were received from General Stoessel, commanding at Port Arthur. The first, dated August 28th, reads:

"Yesterday, during a violent thun-

der storm, the Japanese attempted to storm the left bank of our position, near forts Nos. 1 and 4, on Udaushan mountain, but the attack was repulsed. Our losses were three killed and two officers and 98 men wounded. The Japanese fire prevented the medical corps from picking up the corpses."

The second report is dated September 2d, and is as follows:

"Yesterday night the enemy attacked Visolaya and Dlinnaya mountains and the neighboring fortifications. The leading files of the enemy were discovered in good time, our batteries opening fire. Fortunately the Japanese columns following the leading files encountered our automatic mines, and many of them were blown to bits. We repulsed the attack within an hour. Our losses were one officer and seven men wounded."

Tokio, Sept. 14.—Field Marshal Oyama confirms the report that a considerable force of Russians are remaining south of the Hun river, and says the Russians are fortifying the heights on both sides of the Liao river at Tie-Pass.

**Will Release Calchas.**  
Vladivostok, Sept. 14.—The prize court has decided to release the British steamer Calchas, also all neutral parts of the vessel's cargo. The part of the cargo consigned to Japanese ports, consisting of flour, cotton and timber, was confiscated. The Calchas will be detained for three months longer, in order to allow the owners time for an appeal from the decision. She was captured while bound from Puget Ports to Japan.

Our store will close at 11 o'clock a. m. WEDNESDAY, Salem Day At the Fair

When Buying Shoes for Fall....

You must consider the quality of leather in the shoe. Solid leather shoes are absolutely necessary if you expect satisfactory wear during the rainy season.

The ★ 5 ★ Brand

Has stood the test for 12 years in our shoe department. Every pair is built to give satisfaction.

**Dry Goods**

All of the latest novelty weaves in dress goods and waistings will be found in our line this season. Our assortment of staple dry goods is very complete. Don't buy an expensive rain coat ready made. It will cost you only half as much to buy our extra fine waterproof cover by the yard and a 10c New Idea raincoat pattern, and have it made-to-fit. A large shipment of

**Thomson's Glove-fitting Corsets**

Just in. All seams run around the body. It is a special feature which gives a better fit, and you can't find it in other makes.

**Men's Clothing**

No matter how fine the fabric in a suit, it must be lined and trimmed with suitable material and cut to fit, or it will not give satisfaction. Our factory is very careful to see that the inside of a suit is made of the proper material, as well as the outside.

**Boys' Clothing**

Needs great wear-resisting qualities. Our "Jane Hopkins' Boy Proof" Clothing is a boon to mothers of lively boys. If you have a boy, try one of our new fall suits for him, and see what "boy proof" means.

**Hosiery, Underwear, Hats, Shirts, Comforts, Blankets**

Everything in ladies' and men's furnishings.

**The New York Racket**

The only store in Salem run on the spot cash plan, which, with our economical business management, enables us to undersell "regular stores." Two large store rooms full of honest values.

E. T. BARNES, Prop.

Corner of Commercial and Chemeketa Streets
