

FUMES UNDER WALK

Caused the Three Persons to be Injured at McMinnville

Mr. and Mrs. Ed. Switzler returned this morning from McMinnville, where they accompanied George Pearce in his automobile, and were present when the painful accident occurred. The explosion was caused by a quantity of gasoline spilling on the sidewalk, and when the machine was started, the fumes exploded, tearing up the walk, and injuring Messrs. Pierce, Darby and Curran. They were all resting easy when Mr. and Mrs. Switzler left McMinnville this morning, and will recover. Mr. Curran is a son of Mrs. L. F. Mars, who lives on the Garden Road. In spite of reports, Mr. Switzler says the machine is only slightly damaged.

They expected to return on the 4 o'clock freight, but the brakeman would not allow them to get aboard the train, so they were stranded in the peaceful village of Marion for the night. The adventurous youngsters asserted their right to a living, and proposed to have a fire and patronize some local hen roosts, but about 9 o'clock last evening enterprising youngsters of Marion gave them warning to leave the town, and the last seen of them, then were en route to Turner afoot in the dark of night. Who they were is unknown, and what the consequences of their escapade were is equally a mystery.

NEWBRO'S HERPICIDE

THE ORIGINAL REMEDY THAT "KILLS THE DANDRUFF GERM" SCHOOL CHILDREN.

Every child should know that baldness is a contagious disease, caused by a microbe. Prof. Unna, of Hamburg, Germany, discovered that dandruff, itching scalp, falling hair, and final baldness are produced by a germ or microbe that passes from one head to another, where it burrows into the scalp and by multiplying and extending deeper and deeper into the hair follicles, saps the life of the hair root and produces baldness.

IT TAKES YEARS

to produce complete baldness, for the action of the dandruff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the endeavor made to combat the growth and development of the dandruff microbes, which can only be destroyed with Newbro's Herpicide.

This new antiseptic scalp germicide is past the experimental stage. It was made to destroy the germ that causes dandruff and falling hair, and by coaxing energy back into the impoverished bulbs, it enables the hair to grow naturally and luxuriantly. Thousands of letters from physicians, clergymen and laymen tell the same story of its wonderful success.

AN IDEAL HAIR DRESSING. It is fortunate for those who understand the new rules for scalp cleanliness that the antiseptic qualities of Newbro's Herpicide make it the most delightful and refreshing hair dressing imaginable. Chronic baldness is incurable; save your hair while you have hair to save.

"ENTHUSIASTIC HERPICIDE FOLLOWERS."

"I am pleased with your Herpicide and consider it all that one could ask as a dressing and all that you claim for it. I tell all my friends there is nothing like Herpicide."
(Signed) Mrs. S. B. Merrick, Seattle, Wash.

"I have given Newbro's Herpicide a fair trial and permit me to say that it is within itself a wonder. As a remedy for dandruff and falling hair I think it is far superior to anything in its line."
(Signed) R. E. Mitchell, Oakesdale, Wash.
