The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

That old Grand Army man, Lyman Blakeley, is quite ill. He has marched on many a Southern battlefield. He has been in many a Grand Army parade. He has cheered the old flag, and hurrahed for many of the great generals. Call on him at his home in North Salem, and say an encouraging word to the old comrade. Let us hope he is not fighting his last battle, but if he is he will do it bravely. That is the kind of stuff the old Union veterans were made of. They did not go to war as professional soldiers, or because they loved fighting. They wanted the war to be over and get home, and they meant business.

## Rain Coats

A rain coat is better than rheumatism, and costs much less.

Pneumonia comes cheap, but goes high.

A genuine cravenette rain coat on the back is worth two umbrellas in the hand.

The cravenetting process don't make the fabric air-tight—nor yet deluge-proof; does make it non-absorbent of moisture and odorless—all without changing its appearance.

An ideal rain coat and fall overcoat combined.
