OFFICIAL CENSUS SALEM, MAY, 1904, 13,287.

Republican National Ticket

- For President: THEODORE ROOSEVELT, of New York. For Vice-President: CHAS. W. FAIRBANKS, of Indiana. For Presidential Electors: G. B. Dimick, of Clackamas, A. C. Hough, of Josephina, J. N. Hart, of Polk, Jas. A. Fee, of Malheur.

THE OREGON EXHIBIT.

While the Lewis and Clark exposition is making fine progress at Portland, it is a fact that the Oregon building and exhibit at St. Louis is a monumental failure.

California and Washington have grand buildings, striking displays, generous hospitality, and are crowded all the time.

Recent visitors at St. Louis confirm first reports that the Oregon building is neglected, and there is no one to greet you.

The displays are insignificant and dust-covered. The old Populist gentlemen with whiskers has even gone to seek better entertainment.

Well, that was an inheritance of the old political regime of this state, and Oregon has entered upon a newer and better era.

The Lewis and Clark fair at Portland seems to be in the hands of younger and brighter men, and Oregon is entering on a better day.

PLAYING THE GAME OF CLOSED TOWN.

That is the great game at Portland at present. Slot machines are silent. Money games are stored away.

The district attorney is even threatening to prohibit people from eating in private boxes at restaurants.

The fountains of beer at the Sunday theatres are next to be dried up, and sensational sermons at the churches prohibited.

Sheriff Tom Word is threatened with assassination, if he does not let up on his crusade against gambling.

The mayor issues one pronouncement after another against vice, and the city of Portland is to be put under the most stringent regulations. It is said all this is to make the streets dead as in a deserted city, and cut down the crowded street cars on Sunday.

Then the politicians hope for a reaction that will again make Portland as wide open as Babylon in the palmiest days of Nebuchadnezzar.

BRIGHT AND BUSY WOODBURN.

The Gem City of French Prairie never had a brighter present or more hopeful future than right now.

Walter L. Toome still lives there, and financially and politically, is at least a 1200 candle-power proposition.

Fruit and hop land is bringing big figures. So is vegetable land, and it will be a big supply center for Portland markets in this line.

Another three-front block is being put in, and thirty houses were built this year.

A big livery stable is one of the valuable additions to the city, which is still electric lighted from Silverton.

Three thousand has been subscribed towards a modern opera house, and that improvement is a sure thing.

A number of the most intelligent people are regular subscribers to the Daily Capital Journal, and many take the Weekly.

SETS A FINE EXAMPLE.

The T. B. Kay Wooden Mills set this city a good example of public ownership of a lighting plant.

That corporation makes its own electric light with water taken from the Mill creek water power that is offered the city for \$50,000.

The wooden mills make their own lights, and light their offices and the "Thos. Kay residence" on State street.

What is a good thing for the T. B. Kay wooden mill corporation would, in the long run, be a good thing for the city of Salem.

PORTLAND JOURNAL PAYING.

That dubious enterprise of establishing another high-class daily paper at Portland seems to have succeeded.

It is said the Portland Journal daily is now on a paying basis, but the Sunday paper is still a bill of expense to the company.

Portland is one of the modern municipalities with a full-fledged New York Journal style of a newspaper.

How yellow journalism all you want to, such a paper as the Portland Journal does advertise a town.

GREAT FORCES FOR ROOSEVELT.

There are three great forces working together for Roosevelt's election, and that they will prove to be irresistible no one who has followed the course of national elections can doubt.

1. There is the crop situation. This country is to have, the largest cotton crop in its history and one of the greatest wheat and corn crops ever known. This means money, prosperity and contentment for the farmers, increased earnings for the railways and continued activity in the steel, rail and other industries which produce railway supplies.

2. All the great industries of the country, all the business interests, are for Roosevelt, because they know that his election means a continuation, without jolt or change, of the present conditions. They know that if his election is announced on the night of November 8, no anxiety will be felt for the future, but that, on the contrary, every business and industry will say: "Well, we are all right now for four years more. We can go ahead with our plans in absolute confidence that nothing disturbing will happen."

3. The people as a whole are for Roosevelt on the broad ground that a change is always undesirable in a time of prosperity, and a change now is so obviously a leap in the dark as to be a change for the worse. What possible assurance can any man give that Parker and the Democratic party will give the country a better administration than McKinley and Roosevelt and the Republican party has been giving for eight years and are pledged to give four years longer?

It begins to be apparent that, in delivering the party over to what may be called Belmontism, the Democrats laid up trouble for themselves. They are at present in the clutches of the party managers and capitalists, and neither appears to be doing them much good. Capitalists are not an evil, in a party or in a nation, unless they are using influence to the detriment of their fellowmen; but when a party becomes the party pledged to the interests of capital and political machinery, the mass of the voters do well to be uneasy.

The demagogue is pretty bad, but compared with the thoroughgoing boss he has his good points. He can not consistently disregard the rights of the majority of the people and then ask defiantly, "What are you going to do about it?" and this Hill, Gorman and Sherman have repeatedly done.

Judge Parker started out, attempting to do a sort of circus act—straddle two horses at once. As the two horses pulled apart he found it necessary to choose between the one which represented the capitalist end of his party and the one which represented the rural voters of the west. He chose the former. The party may have trouble catching the other horse when it is wanted.

BELMONTISM.

X-RADIUMS

Aurora is a funny town. No one can buy a building lot there for love or money. The old first families of the colonists have about all there is in the way of real estate, and they do not have to sell. But the town grows, and it is said there is room for a bank.

Talk about starting new banks, there is quite a field in the Willamette valley. Independence, Gervais, Woodburn, Aurora and Mt. Angel are all said to be wanting a small bank located there, and it is said such an institution would do a good business. The Willamette valley is all right. Why,

"Madam," said the grocer, "let me introduce Golden Gate—the highest grade coffee on the market."

Nothing goes with GOLDEN GATE COFFEE but satisfaction. No prices—no coupons—no crockery. 1 and 2 lb. aroma-tight tins. Never sold in bulk.

J. A. Folger & Co. Established half a Century San Francisco

any three hop growers can start a bank nowadays.

Another bank has been added to the Capital City. The wise business man will welcome "another" in almost any line of business, because "another" always means something doing, property resting, more wages paid, more people employed, better service. We have almost got to the point where we would welcome "another" coming of Christ.

The Eugene Register reports the loss of its office Bible this week. The paper is charitable enough not to accuse the Methodist conference ministers of stealing it.

The dogwood is in the second bloom and the vine maple and hawthorne is painting the hillsides scarlet.

Salem is growing so metropolitan that more help would seem to be needed selling tickets and checking baggage at the Southern Pacific passenger depot.

Carelessness the Cause.

We are reminded by an accident which occurred in Portland last week of a matter of which many people are guilty. It is regarding carelessness in throwing peach skins, banana peel, or such substances on the sidewalks, and thus putting danger in the path of pedestrians. It may seem a light matter to throw a small grape skin on the walk and is thoughtlessly done every day in the week. And yet these many small skins are as capable of doing injury as their companions, the much-offending seeds, which were formerly thought to be responsible for the dreaded appendicitis. As proof of this we refer to the accident mentioned as having occurred in Portland, when a music teacher of that city slipped on a grape skin and, falling upon the pavement, dislocated her hip. Learn a lesson from this use the streets, instead of the sidewalk as a receptacle for such things. A little caution may save much trouble.

The Southern Pacific have made additional sale dates for the sale of world's fair tickets, as follows: October 27th, 28th and 29th. W. E. COMAN.
