

CULATORS LET LOOSE OF MARKET

review of grain trade and market conditions, exclusively to The Journal, by F. H. Fyfe, Manson & Co., (Chicago.)

There has been complete change of sentiment in wheat for holders who were unwilling to get any material in prices became discouraged sellers. As the market there was a lot of stop loss people who had holdings were unwilling to realize the market was going their way. The causes of the change in wheat are many. The movement continues longer than expected. South movement did not fall off as the visible supply was five millions in two weeks. As a lot up in the volume of buying. The pressure of the movement became too heavy as a river sometimes rises over its banks so this of wheat seemed to fill up demands and then over the whole speculative trade weight. The sudden weakening of the corn market induced wheat the approach of the government, which is expected to be the accumulation of stocks, Russian shipments, supply demands, all helped to the market.

decline Minneapolis is selling lots of flour, some for Pacific coast ports sales of Japan.

ing for the trade to discover the commercial basis. A pessimistic enthusiasm over the reports of damage to the crop is over. Speculative have taken their profits or losses; it remains to be seen the big run will continue.

CARRH OF THE STOMACH.

Simple, but Safe and Effectual Cure for It.

of the stomach has long been the next thing to incur. The usual symptoms are a full sensation after eating, acid sometimes with sour risings, a formation of gases, pressure on the heart and difficult breathing, headache, nervousness and played out, languid feeling. It is often a foul taste in the coated tongue, and if the stomach could be seen, show a slimy, inflamed condition.

For this common and obtrusive is found in a treatment of the food to be readily digested before it has time to irritate the delicate surfaces of the stomach. To prompt and healthy digestion the necessary thing to do, and normal digestion is secured the condition will have disappeared.

ing to Dr. Harlanston, the best treatment is to use a meal a tablet, composed of Aseptic Pepsin, a little Nax, Seal and fruit acids. These can now be found at all drug under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy and thorough digestion will follow their regular use after meals.

Dr. S. Workman, of Chicago, Ill., "Catarrh is a local condition arising from a neglected cold in the whereby the lining membrane of the nose becomes inflamed and the discharge therefrom passing into the throat reaches the stomach, this producing catarrh of the stomach. Medical authorities prescribe for me for three years for catarrh of the stomach without cure, but to-day I am the happiest of men after only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feelings. I have found flesh, appetite and rest from their use."

Stuart's Dyspepsia Tablets is the best preparation as well as the simplest and most convenient remedy for indigestion, catarrh of the stomach, biliousness, sour stomach, and bloating after meals.

Excellent Custom Mill. Red Star Mills, of Turner, are the most reliable concerns of the valley. Under the management of T. N. Humphrey the best of that section find it to their interest to patronize these mills, as they make a specialty of that class of flour. See announcement. dwit

It is timely to look ahead and remember that last year in November the western movement was one million and a half a day and no such movement can possibly be expected this year. Conservative operators are calculating the present stampede of holders will clear up the situation and that the next move of the trade and the public on the buying side will be based on a more accurate knowledge of the actual yield of the year and that the next period of improvement will be of more stable character.

Corn operations have been marked by a radical change also. The unexpected happened—the largest acreage ever planted and the largest percentage of green corn ever seen late in September all helped forward to a degree thought almost impossible a fortnight before by perfect weather conditions and absence of killing frosts. The big corn crop is made. There is some shortage in old corn supplies, but the new corn is king from this on. Offerings of millions of bushels of new corn for shipment to meet future contracts became the mountain which overwhelmed the bull leaders regardless of their financial strength. The men nearest the corn fields were right. The powerful operators who banked on ridiculously low estimates of yield and an accident to the crop were wrong. From a 50c level May corn is back near 45c. It will take more than ordinary developments in cash and export demands to check the sinking tendency of the price in the face of such magnificent promise.

In oats there is less severe loss in prices. The market already had been depressed by heavy selling against accumulating stocks. The week raised visible stocks two and a half millions to total of 22,500,000. The May price touched 32c on further decline and may reach the 30c level.

Corsets for the Nose.

The "smart" set in society—and their followers in humble life—will do almost anything to "improve" their personal appearance. Cutting dimples has been quite the rage for some time past and the writer knows that "dimple cutters" in the West End have been doing quite a big business during the present season. Ladies who never dreamed of having dimples before have now got what they think admirable specimens upon the face and neck. What will happen when dimples go out of fashion it is difficult to surmise, but no doubt the "beauty doctors" will be able to make the necessary repairs.

Our contemporary, the Medical Press and Circular, in its current issue, deals with another of the latest novelties in this direction. It emanates—like other things of the kind—from Paris, and is a "special corset for the nose." It is readily conceivable that prolonged and severe pressure for the correction of a supposed malformation may be most injurious under certain circumstances; while it is questionable if mere alteration in position would have the slightest effect in removing a "bottle" nose or in overcoming a chronic rosacea. To the practice our medical contemporary applies the sledge hammer of denunciation:

"To lower the art of surgery to the level of mere facial beautification may be sometimes undignified, but to tamper with anatomical outlines of the human countenance is one of the most insidious forms of quackery when undertaken by unskilled hands, and for the sake of pampering a foolish vanity."—London Daily News.

Cleveland Speaks Tonight.

New York, Oct. 21.—There was an unusual air of bustle about the Democratic headquarters today caused by the activity in completing arrangements for the mass meeting in Carnegie Hall tonight, under the auspices of the Business Men's Parker and Davis Association. The announcement that former President Grover Cleveland is to preside has caused more interest to be taken in the demonstration than has attached to any of the political rallies held in New York so far during the present campaign. Though the former President has made it plain that he does not intend to deliver a speech it is generally expected that he will have a few words to say in expression of his views on the issues of the present campaign and of endorsement for the national ticket. The principal address of the evening will be delivered by John G. Carlisle, ex-secretary of the treasury.

A WOMAN'S NERVES

A THRILLING INCIDENT IN THE HISTORY OF A HOME.

Health Wrecked by Burden of Anxiety—Ordinary Medicines Did Not Help—Dr. Williams' Pink Pills Cure.

Some important facts bearing on an exciting event which occurred in January of 1903, have recently been brought to light. At that time, it will be recalled, an employe was reported to have made an attempt to stab his employer, Mr. J. A. Wyatt. The murderous purpose fortunately failed, and the courts disposed of the legal aspects of the case. The public excitement died down, but the matter had other grave results, which for a long time threatened to make it a tragedy. Mrs. Wyatt, who had been pros'rated by anxiety for her husband, did not recover from the severe shock to her nervous system, and the doctors in charge of the case exerted themselves in vain to help her.

To a reporter who visited her home at No. 1189 Seventeenth street, Des Moines, Iowa, Mrs. Wyatt described her condition at this time as follows:

"My solicitude was so great that it affected my heart and then my stomach. I had pain in the region of the heart, palpitation and shortness of breath so that I could not walk very fast. My head ached very badly and I was finally seized with vomiting spells whenever I took any food. A doctor was called who pronounced the trouble gastritis, but he gave me no relief. Then I tried a second doctor without benefit. By this time I had become very weak. I could not keep the most delicate bro'ch on my stomach, and at the end of a month I was scarcely more than skin and bone and was really starving to death.

"I don't look now like a woman just ready to die, do I? Well, I owe the recovery of my health to a very simple circumstance. One day when I was down-hearted at the failure of everything that was done for me I recalled how much benefit my sister had got from Dr. Williams' Pink Pills and I decided to take them in place of the doctor's medicine. They helped me right away. In four days I could take weak tea and crackers. In two weeks I was able to leave my bed. Dr. Williams' Pink Pills was the only thing that checked the vomiting and as soon as that was stopped my other difficulties left me. I have a vigorous appetite now and am able to attend to all the duties of my home."

Not only great anxieties but small daily worries use up nervous force, and in multitudes of such cases every organ of the body finally gets out of order, for the nerves supply the vital energy to every part. Cases like these do not yield to ordinary medicines. They are reached and promptly cured by Dr. Williams' Pink Pills for Pale People, because these marvelous pills act at once on the blood and supply it with nourishing elements that are carried to every nerve in the body.

The way to feel well, and to be well is to keep the blood pure and rich. The remedy that does that the most quickly, thoroughly and cheaply is Dr. Williams' Pink Pills. They are sold by all druggists.

An Apple Country.

A. P. Aufrance, who has just returned from the British possessions, says the country north of us is becoming a great apple exporting region. He was employed as an apple packer on Lord Aberdeen's estate, at Vernon, B. C. The expremier of Victoria has 300 acres in apples, and shipped nearly 100 carloads to the Eastern market.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass state could not remedy a bad liver or the hundred and one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists. At Dr. Stone's drug stores.

He Surrendered.

A story is told of a labor war in Jones county, Mississippi, which was recently fought out to a conclusion by one, Moses Adams, who owned a saw mill at that place, and whose long time amicable relations with his employes was severed by the demands of the latter, which he contended he could not concede without loss of not only his profits but his capital.

Having received his answer, his workmen struck. Undismayed, Moses Adams set about to secure other workmen to take the places which the strikers had abandoned. The strikers went into camp, surrounded the mill, sent out pickets, who threw out, hard and fast, all the strike breakers who came within the lines.

Moses Adams fought his fight outside the armed ramparts for a whole month; then he concluded to surrender. His manner of doing so was in strict accord with the most honored rules of war. Instead of yielding his mill to the strikers for so much loot, or of selling or leasing it to some one who would re-enlist the strikers in his service, Moses Adams courteously invited them to witness his subjugation and retreat.

He did precisely what Kuropatkin did at Liao Yang when Kuroki made that position unattractive; he blew up his works. Having distributed the dynamite with skillful precision, he applied the match, and in less time than it takes to tell it the entire works had disappeared from Jones county, Mississippi, and the war between him and the strikers had come to an end.

Mrs. Gilbert Has a Birthday.

New York, Oct. 21.—Scores of congratulatory messages from men and women prominent in the theatrical profession all over the country were received today by Mrs. G. H. Gilbert upon the eighty-fourth anniversary of her birth. Flowers, too, fairly rained upon the veritable actress, and her home, at No. 33 West Sixty-first street, was a perfect bower. Never in better health and as eager for work as the youngest beginner, Mrs. Gilbert spent a good part of the day in rehearsing "Granny," the Clyde Fitch show which is to be produced at the Lyceum Theatre next Monday night and in which she is to have the principal part.

Mrs. Gilbert is an Englishwoman, born in Lancashire on October 21, 1821. Her first appearance was in the Norwich circuit as a dancer in 1846. The same year she had married a professional dancer, George Henry Gilbert. They came to the United States in 1849, and she continued as a dancer until 1859, when she began playing leading old woman characters, in which she has acquired her present fame. Her husband died in 1866. In 1869 Mrs. Gilbert entered Augustin Daly's company and remained in it until his death. Since then she has been with Charles Frohman.

Celebrate Nelson's Victory.

London, Oct. 21.—Trafalgar Day (for the anniversary of the battle of Trafalgar, fought October 21, 1805), was celebrated today in the customary manner. Many parts of the world were represented among the beautiful floral offerings that were placed about the base of Nelson's Column, in Trafalgar Square. Nelson's old flagship, Victory, at Portsmouth, was decorated in honor of the day.

Miss Rose Hennessy, well known as a poetess and elocutionist, of Lexington, Ky., tells how she was cured of uterine inflammation and ovaritis by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I have been so blessedly helped through the use of Lydia E. Pinkham's Vegetable Compound that I feel it but just to acknowledge it, hoping that it may help some other woman suffering as I did. For years I enjoyed the best of health and thought that I would always do so. I attended parties and receptions thinly clad, and would be suddenly chilled, but I did not think of the results. I caught a bad cold eighteen months ago while menstruating, and this caused inflammation of the womb and congested ovaries. I suffered excruciating pains and kept getting worse. My attention was called to your Vegetable Compound and the wonderful cures it had performed, and I made up my mind to try it for two months and see what it would do for me. Within one month I felt much better, and at the close of the second I was entirely well.

"I have advised a number of my lady friends to use it, and all express themselves as well satisfied with the results as I was."—Miss Rose Nora HENNESSY, 410 S. Broadway, Lexington, Ky.

The experience and testimony of some of the most noted women of America go to prove beyond a question that Lydia E. Pinkham's Vegetable Compound will correct all such trouble and at once, by removing the cause, and restoring the organs to a normal and healthy condition.

"DEAR MRS. PINKHAM:—About two years ago I consulted a physician about my health which had become so wretched that I was no longer able to be about. I had severe backache, bearing-down pains, pains across the abdomen, was very nervous and irritable, and this trouble grew worse each month. The physician prescribed for me, but I soon discovered that he was unable to help me, and I then decided to try Lydia E. Pinkham's Vegetable Compound, and soon found that it was doing me good. My appetite was returning, the pains disappearing, and the general benefits were well marked.

"You cannot realize how pleased I was, and after taking the medicine for only three months, I found that I was completely cured of my trouble, and have been well and hearty ever since, and no more fear the monthly period, as it now passes without pain to me. Yours very truly, MISS PEARL ACKERS, 327 North Summer St., Nashville, Tenn."

When a medicine has been successful in restoring to health more than a million women, you cannot well say without trying it "I do not believe it will help me." If you are ill, do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound and write Mrs. Pinkham at Lynn, Mass., for special advice. Her advice is free and helpful. Write to-day. Delay may be fatal.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

BRYAN'S VIEW OF PLAFORM.

"I shall not misrepresent the situation, or appeal for votes for the ticket upon false grounds. A Democratic victory will mean very little, if any, progress on economic questions so long as the party is under the control of the Wall Street element. * * * The labor plank, as prepared, by Judge Parker's friends on the subcommittee, was a straddling, meaningless plank. * * * The nomination of Judge Parker virtually nullifies the anti-trust plank."—William Jennings Bryan, in "The Commoner," July 13, 1904.

Burlington Route

To the World's Fair Soon or Not at All

Next month is its last, you know, and if you are wise you will go before the final rush. There are **Low Rates on Special Dates** and the Burlington offers a splendid service via the Scenic lines.

If you are interested send your name and address and I'll write you full particulars.

A. C. SHELDON, General Agent, 100 Third Street, PORTLAND, OREGON.
