**MEET TO DISCUSS
MARION COUNTY EXHIBIT**

Tomorrow morning the citizens of Marion county will meet at the court house for the purpose of deciding whether or not the county will present an exhibit for the Lewis and Clark fair. The question is a vital one for the community, and the meeting should be largely attended.

Marion county is the foremost division in the state, in point of population, wealth and resources, outside of Multnomah county. It contains the state capital, and is the second city within the Oregon country, and other counties will naturally take their cue from us.

It, through and short-sightedness,

Marion should fail to make proper provision for an exhibit, other counties would do likewise, and the result would be detrimental not only to the fair, but to the state of Oregon.

Every business man in the city of Salem should be at the court house tomorrow morning at 10 o'clock. The county court is asking the advice of the taxpayers, and it is desired that a large number of the representative citizens attend the meeting, and express their views. Tell the gathering what your ideas are of a successful exhibit, and the need that you now will return ten-fold during the next year or two.

**CITY
POLITICS
BUBBLING****Mayor Waters Wants
A Progressive
Ticket****Plenty of First-Class Material
to Select Men for All
the Officers**

Mayor Waters was seen today by a reporter, and said he was doing nothing to secure a renomination, in fact did not want the office unless he could have associated with him men who would work for the advancement of the city along every line.

Asked about street improvements, he said he hoped to have at least one permanent street improvement under way before the end of his present term, which expires in January. He said the contractors who wanted to submit a proposition for the Bitulithic pavement had shipped a sample of the rock from the quarry south of the city to Philadelphia, for test, and would be ready in two weeks to make propositions to the property owners. They had secured terms on labor and teams, and cost of rock and bringing it in by electric cars. They would employ all their labor, but a few experts right here at Salem.

For city recorder petitions have been signed up for W. A. Moores and S. A. McFadden. These petitions will not be published, as they are only signed up to bring a candidate before the primaries, and are not considered an endorsement.

Petitions are also in circulation for Tom Cornelius and Lon Gesner for city marshal. Louis Folsom and Night Policeman James Lewis are also mentioned for these places.

For city treasurer B. Frank Merrell has the leeway, and it is safe to say can have the nomination if he will take it.

Out of this material the city can secure a ticket of clean, strong, capable and progressive men. The direct primary will give the Republicans a direct vote on all candidates. It is more than likely that other names will be mentioned and brought out for places on the ticket.

For City Fathers.

In the first ward the name of A. T. Moffitt, ward committeeman, has been mentioned for alderman.

In the second ward Hal D. Patten and Claire Baker are talked of by their friends.

In the third ward Paul Wallace has been suggested as a man who would favor progressive policies.

In the fourth ward W. C. Smith, Fred Wiggins, C. M. Inman and Harry Olinger are talked of.

In the fifth ward the name of J. F. Goode has the call among the local politicians.

In the sixth ward John Knight can have the nomination if he will take it. He was in the council once, and made the fight that resulted in Salem getting the first steam fire engine.

In the seventh ward Lee Acheson will probably be renominated without opposition. He has favored street improvements, and fought constantly to secure lights for the ward.

Moore No More.

A marriage license was issued to Thomas J. Runkle and Miss Mable Moore.

**OFFICER
PENLAND
ROUNDS****Up Gang of Yew Park Hobos
and Escorts Them
to Jail**

The gang of hobos who have been making Yew Park their headquarters for some time past are not likely to disturb the peace loving residents of that community again with their petty thefts very soon.

Special Officer James Penland, of the 7th ward, last night with patience exhausted and blood in his eye, determined to rid the city of these vermin who have been complained of to him so long and loudly by Salem citizens. Loaded for bear he started for the scene of action with the determination to do or die and from the result it is to be supposed that it was more "do" than die. When he was in sight of the camp, which was a veritable "robbers' roost" he could smell the savory odors of, in the vernacular, a "mulligan," composed of chickens from the neighboring roosts, meaty spuds and vegetables of all kinds and descriptions, added to which were many dainty bits begged or pilfered from the tables of the good housewives of Yew Park. When the majestic arm of the law appeared in their midst, the gang, with much grumbling and bewailing of fate, submitted to the inevitable and meekly accompanied the officer to the city jail, where they remained, and dreamed of the feast which was still simmering over the fire in Yew Park un eaten.

On account of a leak in the water pipes in the jail this morning the gang was turned loose with a reprimand, upon their promise that they will leave the town and return no more.

Football Game.

Saturday, at 3 p. m., the speedy team from Columbia University of Portland, will go up against the Willamette heavyweights on the University campus. The game is expected to prove very interesting, as the field is fast, which will be to the advantage of the visitors. Willamette is determined to show up well, and the Portland boys are coming up to win. A large crowd is expected, as the attendance at the Monmouth game showed that people are interested. A good game is assured.

since the commencement of the siege amount to 50,000.

St. Petersburg, Oct. 21.—The official list of officers killed and wounded between October 11th and 13th totals 172, including Major-General Rabinski and 17 field officers killed. The wounded are in proportion of one to six. The list for the heaviest day's fighting south of Mukden are still unreported. Doubtless they will exceed the total losses at Liao Yang, where 500 officers were killed or wounded. The losses among the men are not yet approximated, but are thought to approximate not much over 20,000.

St. Petersburg, Oct. 21.—General Sakharoff reports no fighting yesterday. The armies maintain their respective positions, but there is continual reconnaissance on both sides.

St. Petersburg, Oct. 21.—A dispatch from Mukden says that a force of Russians yesterday evening surprised a Japanese battery, killed the gunners and captured three guns.
