There are twenty different cinnamon barks, and they cost from 4 to 55c lb. This explains the market, all but one particular. Schilling's Best is the best with the coarser pieces picked-out; not thrown-away; oh no; they go to some less particular grinder.

Weak, Nervous People.
 We have received letters from all parts of the U. S. highly recommending Dr. Gunn's Blood & Nerve Tonic, until the faith we had in the remedy has been fully sustained. We had confidence from the very beginning that this medicine should make cures, but lacked that assurance that comes after many successful trials. Now that we have been upheld in our belief we want to impart to others our confidence. Nervous and unsteady people, weak, fleshless people, pimply, pale, or sallow people, are all victims of weak, watery blood. Make new, rich blood, to be forced through the system by the way of the arteries, and disease cannot remain. This Tonic cures disease by giving you strength to resist it. All druggists sell it for 75c per box, or 3 boxes for \$2. The tablets are to take after each meal. They turn the food you eat into rich red blood. Persons who take this Tonic gain in good solid flesh from 1 to 3 lbs. per week.
 For sale by Dr. C. S. Stone, druggist.

Sidelights on the War.
 St Petersburg, Oct. 24.—A returned officer tells the following gruesome story of the fighting on the retreat to Mukden: "The Japanese continually tricked our men during night fighting by shouting in Russian, which scores of them seem to know. During the confused fighting which took place on our retreat we fired a volley into a brown mass of men, to be met with the appalling answer, 'No strelaitse, mui Ruskie.' (Don't fire, we are Russians.) Our soldiers ceased firing, and were immediately met by a volley which knocked a dozen men over. Our men were furious enough to butcher their own parents. They surrounded the Japanese and slaughtered every one of them, giving no quarter. The next night a similar incident occurred. But hearing the treacherous words, 'We are Russians,' our men refused to cease firing. Luckily their shooting was bad, for the 'Japs,' instead of shooting back, groaned and swore in unmistakable genuine Russian. When we got over to them we found that we had been firing on our own men. A number were severely wounded."
