Salem Boy at Eugene.

Last evening the student body met and elected John Kestly football manager for the rest of the season in Sid Smith's place, resigned. Howard Catlin, of Salem, was elected baseball manager for next spring. Both of these gentlemen are very popular students, and the student body did well in choosing them. Mr. Kestly is president of the sophomore class, and plays substitute quarterback on the football team. He also belongs to the Crescent Club. Mr. Catlin is a senior, and plays half-back on the football team. He is also a good track man. There is plenty of good material in school this year, and there is no doubt but that Mr. Catlin will put out a good team next spring. The old players of last year's team in school are King, catcher; Bean, third base, and Smith, shortstop. A good many new players have enrolled this year, including Watson, Dimmick, Pender, Driver, Hawkins and others. Football practice will be resumed this evening. The first game will probably be on November 5, with the U. of O. second or the business college.—Eugene Register.

Mr. Catlin was a former student at the East School. He is the son of Mr. and Mrs. Russell Catlin, of this city.

Devoted to His Mother.

Probably no other person in Eugene receives as many daily papers, and by as faithful a carrier as does Mrs. B. S. Beals, who is nearly 86 years old, is the mother of Eli Elliott, one of the oldest active railroad engineers on the Southern Pacific. For over 30 years he has been pulling the daily express train through the Willamette valley, and each time his ponderous locomotive passes the cottage where his mother resides a large roll of daily papers is always thrown from the cab window to the one who is always at the gate waiting. During the past few months, however, Mr. Elliott has not had the pleasure of seeing his mother at the gate very often as he passes, for her health has been failing. But, although of great age she is very determined, and keeps actively engaged most of the time.—Eugene Guard.

Nebraska Bankers in Session.

Omaha, Neb., Oct. 26.—The annual meeting of the Nebraska Bankers' association opened here today, with a good attendance. Various papers and addresses by bankers and financiers of prominence were presented during the day. At tomorrow's session there will be more addresses, reports of the committees, discussion of resolutions and election and installation of officers. The convention will close with a banquet, for which elaborate preparations are being made.

Good tea, good coffee, best baking-powder, best flavoring extracts, best spices, pure soda, at fair prices and moneyback. Schilling's Best, at your grocer's.

ARE NOT GOLD BRICK

But Partners Do Not Agree Over Their Accounting

J. G. Martzoff has filed complaint against his partner in the brick making business, E. D. Cass. Plaintiff claims that when the partnership was formed it was agreed that he was to furnish the experience and defendant the capital, and the proceeds were to be equally divided between them. He also claims that during the year 1903 two kilns of brick were made containing 100,000 and 140,000, respectively, and that during the year 1904 two more were made containing 120,000 and 187,000 bricks, respectively, and that defendant sold the first three kilns mentioned, and a small part of the last, and used the money so obtained for his own personal use, and without the knowledge of the plaintiff, and that said money was in excess of defendant's share of the proceeds. He also states that defendant has refused him access to the books. He prays for a decree of the court dissolving the partnership, and ordering an accounting of moneys received, and that a receiver be appointed, and all outstanding debts be settled, and the remainder be divided between the partners. He also asks that defendant be enjoined from interfering with debtor collecting moneys, property or effects of said firm. Carson, Adams & Cannon are the attorneys for plaintiff.

THE FARMER A TRUE AMERICAN TYPE.

It remains true now as it always has been that in the last resort the country districts are those in which we are surest to find the old American spirit, the old American habits of thought and ways of living. Conditions have changed in the country far less than they have changed in the cities, and in consequence there has been little breaking away from the methods of life which have produced the great majority of the leaders of the republic in the past. Almost all of our great Presidents have been brought up in the country and most of them worked hard on the farms in their youth and got their early mental training in the healthy democracy of farm life.—Roosevelt at Bangor, Me., August 27, 1902.

The countryman—the man on the farm, more than any other of our citizens today, is called upon continually to exercise the qualities which we like to think of as a typical of the United States throughout its history—the qualities of rugged independence, manly resolution, and individual energy and resourcefulness. He works hard (for which no man is to be pitied), and often he lives hard (which may not be pleasant); but his life is passed in healthy surroundings, surroundings which tend to develop a fine type of citizenship. In the country, moreover, the conditions are fortunately such as to allow a closer touch between man and man than, too often, we find to be the case in the city. Men feel more vividly the underlying sense of brotherhood, of community of interest.—Bangor, Me., August 27, 1902.

The man who tills his own farm, whether on the prairie or in the woodland, the man who grows what we eat and the raw material which is worked up into what we wear, still exists more nearly under the conditions which obtained when the "embattled farmers" of '76 made this country a nation than of any others of our people.—Roosevelt at Sioux Falls, S. Dak., April 6, 1903.

The true welfare of the nation is indissolubly bound up with the welfare of the farmers and the wage worker—the man who tills the soil and the mechanic, the handicraftsman, the laborer. If we can insure the prosperity of these two classes we need not trouble ourselves about the prosperity of the rest, for that will follow as a matter of course.—Roosevelt at opening of the Pan-American Exposition, May 20, 1901.

The success of the capitalist, and especially of the banker is conditioned upon the prosperity of both workingman and farmer.—The Law of Civilization and Decay—American Ideals, p. 267.

In a country like ours it is fundamentally true that the well being of the tiller of the soil and the wage-worker is the well being of the State.—Roosevelt, Sioux Falls, S. Dak., April 6, 1903.

Mrs. W. F. Osborn, now of Eugene, is in the city, attending the Unitarian conference. While here she is the guest of Prof. and Mrs. J. H. Ackerman.
