Halloween Festivities.

The young folks introduced a rather novel innovation at a Halloween party Monday night. There was a real marriage ceremony, aside from the license, a blushing flaxen-haired youth leading a charming little brunette to the altar. The youngsters had "read a book" about part of the secondary ceremonies and proceeded to kiss the groom and bride, the girls one, the boys the other. The chaperones turned their faces to the walls, so it is said, and the resonant smacks came thick and fast. The little practice may save embarrassment at future times, providing youth's expectations are fulfilled.

DOWN RIVER IN BOAT

Carl Long, who is wanted at Aurora for hitting another man over the head with a club, and rendering him unconscious for several hours, is now being pursued around the state by Sheriff Culver. The sheriff went to Aurora this morning, and from there to Oregon City, where it is understood Long went in a boat. The name of the man who was injured is unknown, and he is in a very serious condition, though, with good medical attendance and nursing he may be able to pull through. It is expected that the sheriff will return with his man tonight, for he usually gets the man he starts after in the shortest possible time.

Business Change.

It is announced that the Salem Brewery association has sold the business of furnishing ice to the public of Salem and otherwise to the Salem Ice company. Those interested in the latter company are Messrs. John Stillman, M. H. Utter and J. A. Colgan, all of this city. All of these gentlemen are well known business men of Salem, Mr. Stillman having for many years been connected with the Salem brewery and ice business. The many years of practical experience possessed by him will absolutely assure the public of a most efficient service and the best of attention in the matter of attending to their wants in the ice line. Messrs. Utter and Colgan have been for years in the teamster and hauling business, and are decidedly well equipped for the business in which they in the future will be engaged.

Owing to the fact that the brewing business has assumed such proportions that the same requires the undivided attention of the Salem Brewery association, it became necessary to place the ice business in separate hands, and in turning the same over to the Salem Ice company the Salem Brewery association wishes to thank the many patrons for the cordial support that was always given them during the past.

The Chinese, Japanese and Siamese are peculiarly skilled at botanical feats. One of their wonderful achievements is known as the "changeable rose." The bloom is white in the shade and red in the sunlight.

Mud Upon the Streets.

You can hear the dew drops splash, Against the window pane and eash,
You can feel the dampness 'neath your feet,
You know that it's raining,
But the only thing that's gaining,
Is the River Island mud upon the street.

In the summer time they haul it,
Then they dump it and they scrawl it,
Scratch and scatter it complete.
It is pampered and caressed,
Shaped up nicely and then dressed,
This River Island mud upon the street.

It's a loving sort of mixture,
(Guess that's why it is a fixture),
And its clinging propensities are hard to beat.
When all things forsake you,
The stuff will never shake you,
This River Island mud upon the street.
