The testimony was to the effect that Balliett realized something like \$250,000 on a mine, with an investment of \$30,000, and that the abandoned shaft is almost worthless. Deny a Purchase

Separate answers have been filed by the defendants to the complaint of J. M. Arthur & Co., against A. L. Prevost and William Meehan for \$226 which plaintiffs' claim was the profit lost by the failure of defendants to accept laundry machinery which, it is claimed, they ordered for the installation of a laundry at Woodburn. In the answers defendants claim that they talked to the agents of the concern, and he made out a list of machinery which would be needed, but that they had not formed a partnership, and did not order, but the agent had them sign the list, which they did innocently, in order to show good faith in the partnership was formed. They also claim that when they decided not to go into the business they notified defendants not to send the goods, and defendants pray to have the complaint dismissed.

LAND FRAUD CASES

Portland, Nov. 26.—The principal feature of the evidence introduced in the land fraud cases this morning was to the effect that S. A. D. Puter and Mrs. Emma Watson, occupied the same room in a hotel at Prineville, and were known as man and wife. This evidence was offered for the purpose of showing a sufficient reason they might be considered conspirators in land frauds.

The name of Frederick Krebs, the big Wisconsin lumberman, was brought into the case by the admission of a certified copy of a deed transferring certain land, alleged to have been fraudulently secured, to him by Emma Watson.

Colorado Politics

Contests are now framed by the Republicans against the Democratic senators in Pueblo and Boulder counties. The Republicans charge naturalization and other frauds, but the Democrats say they have evidence of a plot by the Republicans to alter the returns in Pueblo county by means of acid. They also charge questionable tactics in Boulder county, to reverse the unofficial vote on the senatorship.
