Have your cake, muffins, and tea biscuit home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the house wife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

Royal is the greatest of bake-day helps.

## TWO HUNDRED ROOTERS ACCOMPANY TEAM

Excursionists of all sorts and descriptions congregated at the depot this morning and took their departure on the local for Portland to see the great struggle that is taking place in that city on the gridiron this afternoon. There were 182 tickets sold, and the purchasers ranged from howling college boys to old men who were trying to look sober and austere, but with indifferent success, for each time the "varsity yell" would arise from the lusty throats of the students the eyes of the older generation would kindle, and it was only with great effort that they could restrain themselves from joining in on the choruses of the college songs which the "varsity girls" were singing. This game promises to be one of the

best contests of the season, and, although the wearers of the winged "M" are considered unconquerable on their own field, the supporters of the honor of the "cardinal and old gold" feel sure that they can give their opponents a "hot time," even though they do not defeat them. It cannot be said that the Salemites go to Portland expecting to meet defeat, but they will have to face the fact that only one Oregon team ever wrested a victory from the Portlanders, the University of Oregon, several years ago.

The collegians feel that they have an advantage that other teams have not had, that is that they are accustomed to playing on a sawdust field similar to the Multnomah gridiron.

## OPPOSED TO WOMEN WORKING IN SHOPS

New York, Dec. 10.—"Girls should not work in shops or factories because it unites them for married life," said Mrs. Florence Kelly at the woman's conference of the Society for Ethical Culture.

"I used to believe in trade unions before I knew the working girl," she asserted, "but girls don't go forward in their trades; they marry. The number of girls in factories and stores is increasing faster than in domestic service, and this is a distinct disadvantage to the community. The girl who has sat in the public school and has sat in the factory is not fit to found a family."
