

Your Heart.

When Your Heart Fails to Pump Your Blood, Trouble Results.

Have you heart trouble? You have, if you find it hard to breathe after walking up stairs, exercising, etc. If you have pain in your left side, in your back or shoulder. If you suffer from cold extremities, pale face, blue lips, dry cough, swollen ankles. If you have fainting spells, breast palpitation, redness of the face, discomfort in sleeping on one side. The only scientific treatment for this whole train of troubles is Dr. Miles' New Heart Cure. Dr. Miles' New Heart Cure is the prescription of a famous specialist, whose great success in treating obstinate nervous heart disease has made his name pre-eminent in the medical and scientific world. The medicine will cure you. We know we want you to prove it. If first little does not benefit, your druggist will give you back your money. If you have for several years suffered at times with heart trouble, I got so bad I could not sleep half the night, and had to sit up on the side of the bed a good many times to get breath. Three of my brothers have died of heart trouble, and I thought I was going the same way, but about two and a half years ago I got a pamphlet about Dr. Miles' New Heart Cure and thought I would try a few bottles. After using them I recovered, and have had better health since then than before for several years. Can heartily recommend them for heart trouble. —REV. JERRY HURT, Pastor Baptist Church, Hurl, Kans.

GAME WARDEN BAKER FILES HIS REPORT

State Game Warden J. W. Baker has prepared his first biennial report to the Governor, which is now in the hands of the state printer.

He says that Oregon today is one of the best game states in the Union. The 1500 copies of the game laws, which the special session of legislature authorized printed, have all been distributed and that he still has many applications which he cannot fill and asks that 5000 copies be printed for the ensuing two years.

The most serious violations of the laws occur in distant parts of the state that are difficult to reach and deputies have to travel as far as 75 or 100 miles, and that with the small amount of money allowed for paying them it is impossible to investigate many complaints that are made. Only two cases of forest fires were reported during 1903 and both lacked in evidence that would warrant an arrest.

The law for the protection of elk expires September 15, 1904, and should be re-enacted as soon as possible.

The deer in Oregon are on the increase, and are not being slaughtered in Southern Oregon as they were in the past. He recommends that the running of deer with dogs be permitted during October, but any dog caught running one during May, June or July be killed and the killer be exempt from prosecution. He recommends a bounty being placed on the cougar, they being a great killer of deer.

The reports of the numbers of Chinese or Mongolian pheasants are very conflicting, some parts of the state reporting an increase and others a decrease. For the protection of these

birds he recommends a limit of five birds a day, and to prohibit the use of dogs for three years, and if used at all to confine their use to the last 15 days of the open season.

The native pheasant should be protected for five years.

He reports that elk are not very numerous and should be protected entirely for ten years.

Grouse are more numerous this year than last.

Quail in some parts of the state are greatly on the increase, Josephine and Jackson counties being the best.

He says the law allowing one hunter to kill 50 ducks in one day is a disgrace and that 20 is a large and sufficient number.

Geese should be killed at any season, but prohibited at all times on nesting or roosting places.

The limit on Mountain or Brook trout should be changed from 125 a day to 75. Salmon trout should be caught with hook and line in October and November.

Bass are being caught in many streams now and are increasing rapidly.

When the hunter and farmer are convinced that the game laws are for all, then and not until then will the game laws be respected.

Twelve or fifteen deputies should be hired and the best way to secured the funds for their pay would be to license all hunters, both resident and non-resident.

He makes the following recommendations:

- First—Prohibiting the sale of upland birds for five years.
- Second—License on each resident

- hunter of \$1.
 - Third—License on each non-resident hunter of \$20.
 - Fourth—License on each jointed fishing rod of 50 cents.
 - Fifth—Increase of penalties for the violation of the game laws.
 - Sixth—Bounty on cougars of \$20.
 - Seventh—Bounty on timber wolves of \$15.
 - Eighth—Bounty on wild cats of \$4.
- He shows that there were 215 Chinese pheasants, 40 quail, 4 pair of deer horns and 1 pair of elk horns shipped out of this state in the last year.
- There were 49 arrests made and penalties imposed in the last year.
- Allowance for the office was \$4200, and expenditures were \$4045.72, leaving a balance of \$154.28.

Leased Hop Land.
Our enterprising merchants, Seobert & Dodge, have branched out again and will go to raising hops. Mr. Dodge returned from Woodburn yesterday, where he completed a ten-year lease on 45 acres of as fine hop land as there is in the valley. They will plant 20 acres at least at once, and may put in the whole 45 acres by next year. Mr. Dodge says there are men at Woodburn who are willing to enter into contracts for the next three years' crops at 20 cents a pound.—Eugene Register.

New Head for Carnegie Institute.
Washington, Dec. 13.—The directors of Andrew Carnegie's Washington institution are in session here today, and it is expected that before they adjourn announcement will be made of the selection of a new president of the institution to succeed Daniel C. Gilman. President Gilman for personal reasons has been desirous of relinquishing the presidency for some time. It is believed that his successor will be Dr. Henry Smith Pritchett, head of the Massachusetts Institute of Technology, which is shortly to be merged with Harvard college.

NATURE SPARES
The Stricken Rose From Grief.
What a fortunate provision of nature it is, that deprives the root of memory suffering; for how poignant would be the grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the sufferer; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the year gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpticide absolutely destroys this germ, thus permitting the hair to grow or mature as intended. Sold by leading druggists. Send 10c. in stamps for samples to The Herpticide Co., Detroit, Mich. Daniel J. Fry, Special Agent.

Why

does the manufacturer put up his article in a valuable glass jar instead of a tin can?

Because

At a very small increase of cost it gives housekeepers a useful receptacle of necessities instead of a worthless tin can.

Eppley's Perfection

BAKING POWDER is the only article so put up, but the reason all housekeepers want it is because it produces the best results for the least expense. Try it for its virtues as well as to get the can.
