CRASH!!

Goes the crockery and the waitress will probably be called clumsy and careless. Her plea of sudden dizziness is not allowed. "What right has she to be dizzy?" they ask.

Women who are suffering from diseases peculiarly feminine are liable to sudden dizziness and faintness, and it is only by curing the womanly diseases to which they are subject that dizziness and other ills can be entirely relieved.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It cures irregularity, dries disagreeable, weakening discharges, drains, heals inflammation and ulceration, and cures female weakness. When these conditions are cured, backache, headache, dizziness, etc., are also cured.

"I suffered for twelve years with female trouble," writes Mrs. Milton Grimes, of Adair Co., Iowa, "which brought on other diseases—heart trouble, Bright's disease, and at times would be nearly paralyzed. Had neuralgia of stomach. I can freely say your medicine (nine bottles in all, five of 'Favorite Prescription', four of 'Golden Medical Discovery', and two vials of Dr. Pierce's Pellets), have cured me. I can work with comfort now, but before would be tired all the time and have a dizzy headache, and my nerves would be all unstrung so I could not sleep. Now I can sleep and do a big day's work, something I had not done for over eleven years before."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Doctor Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

Why

does the manufacturer put up his article in a valuable glass jar instead of a tin can?

Because

At a very small increase of cost it gives housekeepers a useful receptacle of necessities instead of a worthless tin can.

Eppley's Perfection

BAKING POWDER is the only article so put up, but the reason all housekeepers want it is because it produces the best results for the least expense. Try it for its virtues as well as to get the can.

INTERESTING POSTAL INFORMATION

It costs the government \$69,724,853.60 for the transmission of the mails. If the postoffice department were a private enterprise under the management of a shrewd business man he could easily save the business one-quarter of this amount.

Barring this expense the balance of the railway mail service, including offices, clerks, and other items, cost the government only \$12,105,549.77.

A rate of 3 cents a pound for merchandise from the beginning to the terminus of a rural free delivery route has been recommended to congress. This is making some progress toward a national system of parcels post.

The total receipts of the department were \$143,582,624.32 and the expenses \$152,362,116.70. Most of the deficit is represented by the establishment of new rural free delivery routes, which are rapidly being extended.

It is recommended to congress that the interstate commerce commission be empowered to prohibit telegraph and express companies from aiding the concerns denied the use of the mails to do business.

A law is asked for to punish persons who send dangerous matter, like tarantulas, snakes, scorpions, loaded revolvers and poisons through the mails. The occasional snakes, scorpions and tarantulas seen by convivial postal employes are not included in this category, which is restricted to the genuine articles.

There were only 26 postal employes arrested during the year for violations of the postal laws and regulations, which shows to what a high state of efficiency and honesty the postoffice department has reached. Even a mother-in-law could be entrusted among them without fear that some employe would steal her.

The year's increase of revenues was \$9,358,181.10.

Expenditures for the rural free delivery service came to \$12,056,637.35; there was an increase over the expenditures of the year before of \$4,902,237.35. The president said in his message that the beneficent results attained in extending the free distribution of mails to the residents of rural districts have justified the wisdom of the outlay.

Statistics brought down to October 1, 1904, show 27,138 rural routes in operation, serving approximately 12,000,000 people in rural districts remote from postoffices. These figures also have a great significance to mail order men, who see in them one of the principle causes responsible for the rapid growth of their business; they show that over 12,000,000 homes have been brought in closer contact with them.

There are 3859 petitions for the establishment of rural free delivery routes now under consideration.

But very little was said in the president's message about the abuses by publications of the second class privileges, and publishers see in this an intention of the government to let this question of the postmaster general's authority to interfere with a publisher's second class privilege, after it has been granted to him, rest until the United States supreme court has rendered its decision on the case now before it.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and, unless the inflammation can be taken out, and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY, & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for Constipation.
