COOPER LABOR BILL

For the Protection of Employees in Sawmills and Factories

That any person, corporation or association operating a factory, mill or workshop where machinery is used, shall provide and maintain in use proper belt shifters or other mechanical contrivances for the purpose of throwing on or off belts on pulleys, proper safeguards for all vats, pans, trimmers, cut-off, gang-edgers and all other saws that can be guarded advantageously, planers, coggs, gearing, belting, shafting, couplings, set screws, live rollers, conveyors, mangles in laundries, and machinery of other or similar description. Exhaust fans of sufficient power shall be provided in the discretion of the commissioner of labor for the purpose of carrying off dust from emery wheels, grindstones and other machinery creating dust, where same is operated in an enclosed room or place. If a machine, or any part thereof is in a dangerous condition, or is not properly guarded, the use thereof is prohibited, and a notice to that effect shall be attached thereto. Such notice shall not be moved until the machine is made safe, and the required safeguards provided.

Section 2. All hoistways, hatchways, elevator wells and wheel holes, as well as flywheels and stairways in factories, mills, workshops, storehouses, warerooms or stores shall be securely fenced, enclosed or otherwise protected, and due diligence shall be used to keep all such means of protection closed except when it is necessary to have the same open, that the same may be used.

Section 3. That any person, corporation or association operating a factory, mill or workshop where machinery is used shall provide in each workroom thereof proper and sufficient means of ventilation.

Section 4. Any person, corporation or association who violates or omits to comply with the foregoing requirements or provisions of this act shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than 15 days nor more than 90 days.

Section 5. A copy of this act, together with the name and address of the commissioner of labor, printed in legible manner, shall be kept posted in each department of every factory, mill or workshop, and in the office of every public and private work, upon the employer or his agent or superintendent being supplied with sufficient copies thereof by the commissioner of labor.

Will Run Elevator.
Sam Clefman, who runs the state house elevator, has been missed by his friends for the past week, and all were delighted to see him reappear yesterday noon, but were extremely sorry to learn that he is still suffering from inflammatory rheumatism. His hand and foot are still badly swollen, but he says he is much better, and will be able to do his work throughout the session.

Benton County Levy.
The tax levy of Benton county is 15.2 mills, as follows: State, 5 mills; county, 4.6; state school, 3.6; road 2. The valuation of all taxable property is \$4,467,840. The levy is 1.2 mills lower than last year, when it was 16.4 mills. The Corvallis taxpayer has to pay an aggregate of 22.2 mills. Two years ago the levy in Corvallis was 45 mills.

All over this Coast,

ELECTRIC RAILROAD COMPANY

Change the Location of Site for Their Power Plant

The Willamette Valley Electric Railroad Company, through its chief engineer, H. C. Diers, has filed a new notice of location of water right on the McKenzie, above Martin's rapids, having abandoned the first location. The new one, while in the same vicinity as the old one, is a much better one. The notice calls for 100,000 miners' of water, and Mr. Diers says that 5000 horsepower can be generated—enough to operate the entire system of proposed electric railroads.

INVESTIGATING COOS BAY.

As to Conditions for Planting Oysters Near Marshfield.
Dr. J. B. Olmstead, of Portland, is making a short visit to Coos Bay. He will look into the subject of oyster culture those waters. He has had a great experience with oysters in Eastern waters, and is thoroughly familiar with the requirements for the successful cultivation of the bivalves. After examining conditions thoroughly there, he will make his report to Washington, and, if it be favorable, oyster culture will be inaugurated there on a large scale.

The extensive beds of oyster shells in the bay show that at one time they grew and thrived there in large quantities. There seems no reason why they should not do so now, adding another profitable industry to Coos Bay's equipment.

Two Insane Patients.

Sheriff J. W. Connell, of Washington county, yesterday committed to the asylum for the second time Miss Larsman. The patient is a young woman about 23 years of age. Her insanity is in a mild form, and when she was committed before she only remained a short time, when she was discharged for cured, but it seems that the malady has returned. Miss Mittelle, of Baker City, was also committed to the asylum yesterday, she being brought to the city by Sheriff H. K. Brown, of Baker county.

The Oregon boy who has not yet learned the trick of going under the circus tent can gratify that pleasure this summer, because we are to have Barnum & Bailey's and Ringling's shows the coming season.

SOCIAL EVENTS

Brilliant Event.
The most brilliant social event in the history of the Capital City was the grand ball given by Mr. and Mrs. H. J. Ottenheimer of this city at the Armory hall last evening. They were assisted in receiving and entertaining by Mrs. B. O. Schucking, Mrs. E. A. Pierce, Mrs. F. E. Slater and Mrs. A. L. Frank of San Francisco.

The hall was beautifully decorated. The stairway leading to the hall was banked with evergreens, and Jack o' lanterns were placed in the windows and lit up the scene. The ballroom was separated from the hall to the dressing rooms by a complete hedge of small fir trees, which were perfect in shape and size. Over the entrance to the ball room was draped a large American flag. The main decorations were evergreens and the national colors. Artistic skill was everywhere in evidence, and the ceiling was hung with small flags and evergreens were draped over the oval windows and flags were crossed under each one. In one corner of the room a large cannon draped in the national flags stood, around which were beautiful potted ferns of many varieties. A hedge of trees was arranged around the room, and also separated the luncheon room from the rest.

Here again the flags were used in abundance, and every available space was filled with evergreens, and the whole was lighted with red Chinese lanterns. On the right of the hall small tables were placed where cards were indulged in. This was an especially attractive place. The fir trees and the tall palms and ferns were extensively used and made it like small bits of nature.

Stationed in one corner of the hall, behind a white screen draped with vines and the red, white and blue garlands, McElroy's orchestra discoursed sweet music throughout the evening.

Over 150 society people were present, and tripped the light fantastic through the happy hours. Every detail of the entertainment was admirably arranged and the whole affair was delightful. Refreshments were served during the evening in the luncheon room.

The beautiful costumes of the ladies, together with the brilliantly lighted room, was a splendid scene, and will be remembered long by those attending.

The entire decoration of the hall was arranged by C. F. Buef, the Asylum avenue florist, who was highly complimented on his work, the whole being very artistic.

Mr. and Mrs. Ottenheimer have opened up the social season which will follow during the legislature very brilliantly, and it will long be remembered as the most successful social event in the Capital City.

Holland-Glover Nuptials.
A beautiful and attractive home wedding of the winter season occurred Wednesday evening, January 11, at the home of Mrs. H. B. Holland, 177 Center street, when her youngest daughter, Remoh, became the bride of Ralph A.

Glover. At 8 p. m., as the sweet melody of Lohengrin's wedding march floated through the rooms, played by Miss Beatrice Shelton, the bride and groom, unattended, slowly entered from the hallway and passed through the back parlor, thence into the front parlor and took their place in a window recess under a bunch of mistletoe and a white lovers' knot. Here they were met by Rev. P. S. Knight, pastor of the Central Congregational church, who used the ring ceremony and said the sacred words which make these two hearts beat as one.

The charming bride was lovely in a clinging gown of white silk crepe de chine over white taffeta, and carried a bouquet of Bride's roses.

About 75 guests were present and remembered the young couple lavishly with gifts, many of much value.

At 9 o'clock a delightful dinner was served by Mrs. John Brophy, Miss Hazel Campbell of Portland, Miss Ethelwyn Albright of Oregon City, Miss Cora Talkington and Bertha Allen of Salem. The bridal party was served in the dining room, which was very beautifully decorated in smilax. The centerpiece was pink chrysanthemums and smilax. The guests were seated at small tables scattered throughout the parlors. The hall was decorated all in green, the parlors in green and white.

After a short bridal tour to Portland and other northern points the young couple will be at home to their hosts of friends in their newly built cottage on Winter street, near Center.

Car Kills Cow.

A Commercial street car, in charge of Motorman Clark, last night ran into and killed a cow on the north end of the line, near the Fair Grounds. The car was running at its usual rate of speed, when the cow ran in front of it, and, although the brakes were applied, the track was frosted and the car could not be stopped in time to save the animal.

The cow is said to have been a valuable animal, belonging to Mr. Mitchell, of North Salem.

DOLAN TURNS TRAINER

Mr. Sam Dolan, of this city, has entered Zadak, his fine Zembro colt, in the big \$6000 futurity stakes offered by the California Association for colts from mares bred in 1901. The colt is now two years old, and is a hammer. He will be heard from.—Albany Democrat.

Mr. Dolan is not unknown in this city, and the news of his going into the business of raising a race horse comes as a surprise to his many friends here, the most of whom know him only as a curly, shock-headed football hero, and cannot imagine him as cracking a whip over the back of a fast colt. A Journal reporter has had that privilege, and will say that it is worth the price of admission, and all desiring to spend a happy Saturday night make an excursion to Albany just to see the "old dog" in his new role.

The colt is said to be a promising animal, and it is sincerely hoped that Mr. Dolan will be successful in this matter as he has always been on the gridiron, where he has been seen many times by Salemites, and made his presence known to the sons of old Willamette rather forcibly while defending the orange and black of Albany college.

Some 1905 wool clips have been contracted for in Wallowa county at 16 cents per pound.

Senators and Members

Of the house all want to live well while in Salem, and there is one place where they can do it.

MAC SMITH'S CAFE

Keystone Fence Is All Right
So say the numerous farmers who have bought and are buying. Note that the weave is continuous, the stay wires going up and down, interweaving with the main wires, and making the very firm yet elastic weave for which the Keystone is famous. Double wire above and below. Call and see the fence or send for circulars.
