**OHAS. H. HINGES**  
16 State St. Next Door to Ladd & Bush Bank

## SPECIAL AGENT IN CHARGE

No Contest Hearings or Final Proofs Will Be Allowed at Present

Roseburg, Jan. 13.—It is not yet known whether a special investigation of the land office itself will be made, but if so a special agent will be detailed by the department for that purpose.

Special Agent Neuhausen, now in charge of the Roseburg land office, has received official approbation from Washington of the action reported by him in relation to the method pursued regarding applications, final proofs and dispositions of official moneys in the interim of suspension of the local officers. All applications and filings are received at the local office, and the hour of receipt noted on the papers, but no notations are made on the records.

In cases where drafts are tendered in payment of filings the fact of the tender of the amounts is noted on the papers, and the drafts are then returned to the applicant. This course is also followed in handling cash payments. No contest hearings will be held during the period of suspensions, and no final proofs scheduled to be taken before the local office will be considered, unless special provision is made therefore by the general land office.

### Removed.

The Parvin Music Rooms have been removed from the old location on Commercial street, to room No. 9, in the Opera House. 1-9-31

### Feed the Birds.

One of Salem's kind-hearted bird-lovers asks The Journal to please suggest to the people everywhere to feed the birds during this unusual season, and it is a good idea. As the writer was plodding to his work this morning, just after eating a good hot breakfast, he saw a robin in a nearby orchard working away at a half-rotten apple in the snow, and he could heartily sympathize with the feathered beauty in his desperate efforts to get a cold meal. It would indeed be a good plan for everybody to put out some feed for the multitude of birds now here. One bird-lover saw a hummingbird the other day, which is unusually early for the little fellows to return from their winter home, and if many are here they will surely suffer, if not perish. Several other varieties of early migrating birds have been seen, and they certainly ought to have some protection in the way of food.

**HOSTETTER'S BITTERS**  
The bitters is now recognized everywhere as their "best friend." It has a stimulating effect upon their weak organs and cures Vomiting, Sick Headache, Sleeplessness, Costiveness, Fainting Spells, Indigestion and Dyspepsia. We urge a trial. A Famous Remedy for Sickheadache.

Over Ladd & Bush's Bank, Salem, Or.

## SALEM MEN INVENT

A Device for Repeating Talking Machine Records

Another home invention has sprung into prominence, and bids fair to be one of the most successful results of Salem's inventors yet produced. This is the Kurtz-Wenger patent repeating device for talking machines. The original idea is claimed by Mr. Wenger, who thought that this device could be made in some simple manner, and expressed his views to Mr. Kurtz, who also believed that he could do it. It seems that both gentlemen were right in their surmises, and the thing is at last accomplished. The invention is a simple affair, which, when attached to the machine, and the machine wound up, does not get into action until the end of the record is reached, when the little affair "gets busy," and proceeds to start the record in over again. This it continues to do as long as the machine runs. These attachments can be attached to any cylinder talking machine of any shape or size, at very little expense, in fact they can be placed upon the market, owing to their simplicity at a lower price than any other machine of this kind now in existence. There are two other machines for this purpose on the market now, but Mr. Wenger has faith, and it looks very probable that his invention will effectually end the career of the rivals, they being inferior to his in every way.

## MARKET QUOTATIONS TODAY

"Make Salem a Good Home Market."

**Poultry—at Steiner's Market.**

## FAVOR ZIONIST MOVEMENT

For Colonization of East Africa By American Jews

Washington, Jan. 13.—Colonization of East Africa by American Jews will in the opinion of Secretary Hay reflect no discredit whatsoever upon the Americanism or patriotism of the colonists. The attention of the secretary was recently called in a conversation with Israel Zangwill, the well-known writer, to the movement in which the International Society of Zionists is interested, looking to the formation of a Jewish colony in East Africa. Mr. Zangwill pointed out that some of the wealthy Jews in this country have hesitated about joining the movement, fearing that their affiliation with it might discredit the genuineness of their American citizenship and patriotism.

To Mr. Zangwill the secretary gave permission to make public his personal opinion that participation in the Zionist movement could not in the faintest degree discredit the loyalty of American Jews. It is hoped that the opinion of the secretary will go far toward removing this obstacle to the Zionist movement. The society of which Mr. Zangwill is one of the leaders is undertaking the problem of caring for between 60,000 and 70,000 possible immigrants a year from this country and Europe to East Africa.

### TWO SHOVELING IRISHMEN.

Ed. Lang and Briney O'Brine Shovel Snow to Keep Warm.

Judge Moore being afraid that his boarders, Ed. Lang and Briney O'Brine, would get lonesome without something to do, has these gentlemen exercising their muscular ability with scoop shovels on the snow which has drifted up in front of the police station. Engineer DeLong, of the fire department, is standing guard over them, and he says that, in all fairness, he has seen men who were a great deal worse workers than are these two celebrities. The only other occupant of the city jail at present is a man who was brought in night before last for a bed, who had a very sore leg, which he said was caused by an accident last Saturday at Ashland, in the bumpers of a car. He was released yesterday morning with his partner, and the two were given until noon in which to leave the city. Shortly before noon the partner came back to the station to tell the officers that they had tried to get out on several trains, but his partner was unable to work his way on account of his leg, and the trainmen would not let him work the way of both of them. The sick man was then brought back to the jail, and his partner, although he did not want to leave him, saying they had been together for three months, was ordered to leave town or go to work, and it is supposed that he did the former, as he has not been seen since. The lame man will be sent to the county poor farm until he is able to get about by himself.

### BORN

WITTEL—At the home of the mother's parents on January 11, 1905, to Mr. and Mrs. Herbert Wittel, an 8 1/2-pound girl.

## EXECUTION AGAIN DELAYED

This is the Fourth Stay of Execution Granted Rudolph

St. Louis, Jan. 13.—This was the date fixed by the supreme court for the execution of William Rudolph, one of the Union Bank robbers, but owing to the granting of a motion to transfer the case to court en banc the execution is again delayed until the case is disposed of by the court. George Collins, the partner of Rudolph in the robbery of the Union bank and the murder of Pinkerton Detective Schumacher, was executed nearly a year ago.

The Union bank robbery occurred December 26, 1902, and the murder of the detective January 24, 1903. Rudolph and Collins were captured at Hartford, Conn., in March following.

### Oregon's First Stamp Mill.

Cottage Grove Nugget: W. W. Hawley, now a resident of Star, called at the Nugget office recently. Mr. Hawley came to Oregon in 1867, and was in Bohemia as early as 1868. He says his faith never wavered in the future outcome of the district which was at that date 176 miles from the nearest railway.

Mr. Hawley tells an interesting story of the getting of the first mill into the district. It was first used on the old Matt mine and came from San Francisco via Portland by water and brought up the Willamette river by boat to Eugene, thence by wagon and pack train to Grouse mountain, Bohemia. He is of the opinion it was the first stamp mill set up in Oregon. That being a fact, Bohemia can claim at the present time the oldest, as well as the newest, stamp mills in the state of Oregon—a further coincidence is that both mills are on the same property and owned by the Vesuvius Gold Mining company.
