M. P. SALDWIN, Agt.

## DECEPTION.

When the conjurer shows an empty hat, and at once begins to extract from it rabbits or cabbages, we know that we have been adroitly deceived, because we know we can't get out anything that isn't in it. If people would only reason in that way about medicines they would be a great deal better off in health and pocket.

A number of so called "blood making" and "flesh forming" "tonic" medicines are only stimulants in disguise. You can't get strength out of a stimulant because strength is not in it. All physical strength is derived from food digested and assimilated and in the form of blood nourishing the entire body. Doctor Pierce's Golden Medical Discovery does not make blood or make strength, no medicine can do that. But it does cure diseases of the stomach and its allied organs, and so causing the perfect digestion and assimilation of food, it enables the building of the body in sound and vigorous health.

"I can say to you one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease," writes W. H. Brawell, of McAdeville, Gaston Co., N. C. "My health is worth all the world to me. I will praise you as long as I live."

The People's Common Sense Medical Adviser, a book containing 1003 pages, is given away. Send 21 one-cent stamps the expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

Court Street,  
All work guaranteed.

## MONEY DUE OREGON

### Governor Expects \$100,000 From Government.

Salem Special.—Governor Chamberlain has begun an investigation which he believes will result in showing that the state of Oregon is entitled to receive from the United States more than \$100,000, and perhaps double that sum, on account of public land sales in this state.

Under the provisions of the act of congress admitting Oregon to the Union, certain grants were made to this state, among them being the grant of the 13th and 36th sections of land for school purposes, certain other land for university purposes and still other lands for public building purposes. The fifth grant was as follows:

"That 5 per centum of the next proceeds of sales of all public lands lying within said state which shall be sold by congress after the admission of said state into the Union, after deducting all the expenses incident to the same, shall be paid to said state, for the purpose of making public roads and internal improvements as the legislature shall direct."

This grant was a pure gift without consideration, but was made in return for certain concessions made by the state. Among these concessions were that property of the United States in Oregon shall not be taxed and that property of non-residents shall not be taxed higher than property of residents. This condition was expressed in the act making the grant, and the state passed an act granting on its part the concessions asked for by the United States in return for its grant of lands and proceeds of sales.

The state has received the 5 per cent. of the proceeds of actual sales, as provided in the grant, but the United States has been disposing of large areas of public land otherwise than by sale for cash, which conveyances were not contemplated, at the time the state made its concessions to the government. Among these conveyances are the large selections made by holders of scrip, the allotments to Indians, and some minor conveyances. It is chiefly on account of the large areas of public land given to corporations holding scrip that the governor thinks the state is entitled to more money from the government.

The Northern Pacific Railroad company, for example, held large amounts of scrip obtained by the creation of forest reserves in Washington and Montana. Because some of the company's worthless lands in those states were placed in forest reserves, the company was permitted to select in lieu of them large areas of valuable timber land in Oregon. Other holders of scrip were given the same privilege, and thus hundreds of thousands of acres of the most valuable lands were disposed of by the government without any cash being paid.

Governor Chamberlain takes the ground that when the government exchanges its lands in this state for lands in other states, Oregon has a right, under the agreement with the United States, to receive 5 per cent. of the reasonable value of the lands so disposed of. He has found that under what seems to be very similar conditions in one or two other states, the government has fulfilled its obligations in this respect, and he expects to show that Oregon should be paid its proportion of what the proceeds would have been if the lands had been sold instead of exchanged or given away. He will take the matter up with the proper government officials at Washington.

Under the terms of the grant from the government this money must be used for road-building or for internal improvements, and under the state law must be apportioned among the several counties, according to their area. The state's portion of the proceeds of sales in 1902 was \$20,000 and in 1904 \$60,000. Governor Chamberlain estimates that the amount to which the state is entitled on account of land disposed of in the manner described, for many years past, could not be less than \$100,000, and would probably be much more.

## EXPERT CHIROPODISTS
