

A Matter of Health

There is a quality in Royal Baking Powder which makes the food more digestible and wholesome. This peculiarity of Royal has been noted by physicians, and they accordingly endorse and recommend it.

ROYAL BAKING POWDER CO., NEW YORK.

DAILY CAPITAL JOURNAL

BY HOFER BROS.

OFFICIAL CENSUS SALEM, MAY, 1904, 13,287.

AMEND THE REPORT, GENTLEMEN.

The judiciary committee in the senate tacked on an amendment to the bill for a constitutional convention that should be defeated.

The committee of lawyers in the senate have added a provision that **ONE-THIRD OF THE MEMBERS OF THE CONVENTION TO MAKE A NEW CONSTITUTION SHALL BE APPOINTED BY THE SUPREME COURT.**

The people elect sixty members and the supreme court shall appoint half that number. There is supposed to be wisdom in this, and the thirty persons appointed would be a kind of upper house.

The people cannot be trusted to elect men to make a constitution, according to this theory. The thirty persons named by the supreme court would be of a higher order of public virtue.

The report of the judiciary committee may well be intended, but it is unDemocratic and unRepublican. **IF THE PEOPLE CANNOT BE TRUSTED TO ELECT REPRESENTATIVES TO MAKE A CONSTITUTION, WHAT CAN THEY BE TRUSTED FOR?**

There may be precedents of this sort in some other states. But the people of Oregon have already taken into their own hands the power to make and unmake the constitution.

Why should they be asked to surrender that power in whole or in part by delegating one-third of their sovereign power to a mere co-ordinate branch of the state government?

THE PEOPLE HAVE BEEN ABLE TO MAKE ALL THE CONSTITUTIONS IN THE PAST, AND WILL BE ABLE TO DO SO IN THE FUTURE WITHOUT SOME BODY OF SUPERIOR WISDOM SITTING OVER THEM TO PROTECT THEM AGAINST THEMSELVES. This proposed usurpation of the power to make constitutions, **WHAT IS IT THE LAWYERS OF THE OREGON SENATE ARE AFRAID THE PEOPLE WILL DO?**

Are they afraid the people will not give up themselves forever all the abuses that have been built up in our state government; and against which the supreme court seems unable to protect them?

SHALL THE FLAT SALARY ABUSE AND THE CONDITION OF THINGS BY WHICH A FEW STATE OFFICIALS AND THE CORPORATIONS REALLY OVERSHADOWED AND DICTATE TERMS TO THE LEGISLATURE AND THE PEOPLE CONTINUE?

Are we to have a court-made, official-made, parasitical, barnacled abuse-encrested constitution, or shall the new ship of state sail off on an even keel, with a clean hull, and fair passage for all classes of citizens on equal terms?

The report of the senate judiciary committee should never be engrafted on the bill. It should be rejected in the joint convention on next Wednesday.

"A multitude of small expenditures make you poor; just so, a multitude of small savings make you rich."

The habit of saving is the direct road to prosperity. We solicit the accounts of those who wish to save a part of their income and place it where it will be earning something. Interest paid on deposits of one dollar or more, which can be made at any time.

Savings Department

Capital National Bank

and the people should go there to see that it is done.

If Senator Brownell had to consent to get his bill reported back to the senate, he should never consent to have his bill pass in that form. **LET THE PEOPLE CHOOSE THE MEMBERS OF THE CONVENTION TO MAKE THE NEW OREGON CONSTITUTION—ALL OF THEM.**

NO GIRLS' REFORM SCHOOL WANTED.

The fight to establish a girls' reform school at Salem is a mistake. Such a school can be started, and, with a workable commitment law, 200 girls can be unloaded on the state in a year. Then what has been accomplished for the girls? Is a state reform school a proper place for a wayward girl? Above all, it should not be located out alongside of the boys' reform school.

A few other states have tried that, and had to give it up. Wayward girls need religious and educational advantages, but not to have the state brand put upon their foreheads forever.

THE PRESENT DEAF MUTE SCHOOL BUILDING, on the recommendation of Senators Smith and Kuykendall, SHOULD BE USED FOR THE IDIOTIC AND FEEBLE-MINDED WARD OF THE STATE INSANE ASYLUM.

That would relieve the state insane asylum, and would bring the deaf mute children into the city, where they should be kept.

For \$25,000 the state can build a deaf mute school on the school-land already the property of the state on South Commercial street. That would be an act of justice to these children and to the asylum.

That would involve the purchasing of no new tracts of land. It is hardly to be expected that anything so sane and businesslike will be done, as there is no graft possible on this plan.

Plans are all laid to buy another large farm for the state at about three prices. Another wing is to be erected for the asylum, when the commitment law should be reformed so that improper commitments would cease.

BUT ABOVE ALL NO GIRLS' SCHOOL SHOULD BE ESTABLISHED IN THE VICINITY OF THE BOYS' REFORM SCHOOL. That is the last thing that should ever enter the head of a legislator to undertake.

INVESTIGATE THEM ALL. The resolution of the legislature to investigate into the charge whether the warden at the state prison is not living in a house furnished at state expense should be broadened.

It is charged that Governor Chamberlain has solicited bills for furniture and supplies for the living of some of the officials at the state prison, and that this is contrary to law.

THE FACT IS THE GOVERNOR HAS ONLY DONE FOR SOME OF THE PRISON OFFICIALS WHAT IS DONE FOR ALL THE OFFICIALS AT THE OTHER INSTITUTIONS—they all live more or less at state expense, and so do their families.

The superintendent of the asylum and the resident physicians, and the heads of all the institutions in Salem and their families live at the institutions at state expense.

They use furniture bought by the state, sleep in beds bought by the state, eat meals bought by the state, and served by state servants.

If this is wrong, investigate them all and stop the abuse and try to run these institutions on some other plan. The plain truth is that it is the only way the institutions can be run, and have people with families in charge of them.

The governor has done no more and no less than has been done by the state officials in charge of other institutions.

THE PHYSICIANS AT THE ASYLUM HAVE WHAT THE GOVERNOR HAS NOT—THEY ARE FURNISHED WITH HOUSES TO LIVE IN AT STATE EXPENSE.

Because they are Republicans does not make it right or wrong—any more than the fact that the governor is a Democrat makes it wrong for him to do so.

Why single out an institution on a charge that is just as true of every institution, and in some of them more than at the post?

EQUAL RIGHTS.

The grange champions a bill for equal rights that should pass. When a man dies half his real estate goes to his wife and the rest to his children.

When a woman dies all her land goes to her husband.

This bill would put the woman on the same footing with the man and establish the courtesy of the husband in the hands of his deceased wife.

NEEDLE WORK CLASSES

Practical Work in the Salem Public Schools

Free Tuition Offered in Case Parents Are Unable to Pay for Instruction

The needlework classes in the public schools conducted by Mrs. A. A. Sanborn were started in September when the Salem public schools opened, and are conducted in all five of the city schools. There were some boys to start with, but the boys have dropped out, as some fun was made of them and the people have not yet learned the value of needlework from the

MRS. A. A. SANBORN.

standpoint of occupation. Mrs. Sanborn has not yet taken up the fancy needlework, and advancing from the various kinds of hems, seams and stitches to making of simple garments. Learning to use their hands.

If there is anything in which women are lacking it is in knowing how to use their hands—the tool wage, as it has been called, being deficient. Many children who have not been taught do not know how to hold the needle or use the thimble. The sewing lessons are not confined to learning stitches, but the use of the hands and fingers is taught, how to run a straight seam, training the eye not only to be accurate as to spaces and distances, but from the artistic standpoint. This training of the hands and the eye and the sense of form and color combinations is most important. The children become very skillful in needlework at an early age when taking lessons for several years, and the work is done very thoroughly by Mrs. Sanborn, so that whatever comes to the child afterwards in any station of life can be mastered.

Free Tuition Pupils. Mrs. Sanborn says some of the children who are in need of learning needlework are unable to pay tuition—or their parents feel that they cannot afford to have the children take the sewing lessons and pay their tuition. To all such she wishes to say that if the parent will send her a note, saying they wish to have the child learn needlework but cannot afford to pay the tuition, she will remit the tuition in such cases, and charge only for the material she furnishes—thread, thimble and fabrics on which to practice sewing. That expense for material only, including different kinds of cloth for working will be at the nominal sum of 25 cents per month paid in advance. Such pupils will have all the instruction that is given to those that pay tuition.

STATE NEWS

Pendleton has a fine new creamery. Baker county will spend \$3000 on its exhibit at the Lewis and Clark fair. Its mining display alone will be worth \$50,000.

The steamer George W. Elder is on the rocks near Goble, in the Columbia river, and cannot be gotten off. She will be stripped of her equipments and a new boat will be built.

Nelson Walker, a well-known Portland contractor, was struck down at his own doorstep by footlock, and now lies in a critical condition at his home.

Marion County Bicycle Club.

Passes Resolutions

Inasmuch as a good bicycle rack is a great convenience, if not an actual necessity to all bicycle riders, and inasmuch as quite a number of the merchants of Salem have kindly provided such racks, and as these racks are much appreciated by the Salem bicycle riders, therefore be it

Resolved, That we tender our sincere thanks to all those merchants who have so kindly provided such racks.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

"The World of Medicine Recognizes Grip as Epidemic Catarrh."—Medical Talk.

A Southern Judge Cured.

Judge Horatio J. Goss, Hartwell, Ga., writes:

"Some five or six years ago I had a very severe spell of grip which left me with systemic catarrh.

"A friend advised me to try your Peruna, which I did, and was immediately benefited and cured. The third bottle completed the cure."—H. J. Goss.

Cured in a Few Weeks.

Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Stock Co. She writes the following:

"During the past winter of 1901, I suffered for several weeks from a severe attack of grip, which left a serious catarrhal condition of the throat and head.

"Some one suggested Peruna. As a last resort, after wasting much time and money on physicians, I tried the remedy faithfully, and in a few weeks was as well as ever."—Jean Cowgill.

Grip Resulted in Catarrh.

Miss Alice Bielke, Treasurer Young Women's Society of the Lutheran Church, Menasha, Wis., writes:

"I gratefully acknowledge the good that Peruna did me after I had been sick with la grippe which left me in a very weak and emaciated condition, with catarrhal trouble of the head and ears.

"My mother suggested that I take it to build up my strength and rid myself of the troublesome catarrh, and it acted with wonderful speed.

"I was able to resume my work inside of two months and I am in splendid health now."—Alice Bielke.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results,—it cures.

LaGrippe Is Epidemic Catarrh.

It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip."

Without intending to do so, a new word has been coined that exactly describes the case. As if some hideous giant with awful grip had clutched us in its fatal clasp.

Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Have you the grip? Or, rather, has the grip got you? If so, read the following letters.

These testimonials speak for themselves as to the efficacy of Peruna in cases of la grippe or its after-effects:

Saved by Pe-ru-na.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make what is, serving on public boards a number of times. He endorses Peruna in the following words:

"I am 68 years old, am hale and hearty and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.

A Relative of Abraham Lincoln.

Mr. Silas S. Lincoln, who resides at 913 I street, N. W., Washington, D. C. has the honor of being third cousin to Abraham Lincoln. He writes:

"I had la grippe five times before using your medicine. Four years ago began the use of Peruna, since which time I have not been troubled with the disease.

"I can now do as much work at my desk as I ever could in my life. I have gained more than ten pounds in weight."—S. S. Lincoln.

Pe-ru-na Not Only Cured La Grippe but Benefitted the Whole System.

Miss Alice M. Dressler, 1818 N. Bryan Ave., Minneapolis, Minn., writes:

"Last spring I suffered from la grippe and was partially cured, but the after-effects remained through the summer and somehow I did not get strong as I was before.

"One of my college friends who was visiting me asked me try Peruna and did so and found it all and more than I had expected.

"It not only cured me of the catarrh but restored me to perfect health, and built up the entire system."—Alice M. Dressler.
