

GOVERNOR ADDRESSES STUDENTS

Says He Will Quarrel With Legislature When Right

Governor Chamberlain delivered an address to the students of Willamette University this morning, in chapel, on the subject of "Official Delinquency." The governor first called attention to the corruption in public life throughout the country, and stated that no bill could pass the legislature unless sanctioned by some man who would profit thereby from a business standpoint. He stated that the four normal schools which are distributed at different points throughout the state are controlling the legislation. He also called attention to the Oregon land frauds, and said that they were to be regretted, regardless of party affiliation, and were a disgrace to the whole state. He stated that the only cure for these conditions will be to educate public opinion to demand of man as high a standard in public life as in private. He stated: "I have had some quarrels with the present legislature, and expect to have more before the week is out, although I will not unless I think I am right, but when I know that I am right I shall oppose anything contrary, and I don't care what they do to me."

Oregon Loses Bliss

Governor Chamberlain this morning received a requisition and issued a warrant of arrest for Duane T. Bliss, formerly agent for the Green Bay Lumber Company, in Carroll county, Iowa, who is at present under arrest at Woodburn. Bliss is charged with embezzling \$434.50 from the company by which he was employed, and coming to Oregon to escape. Albert E. Cummings, governor of Iowa, issued the requisition and named Sheriff George A. Schmich, of Carroll county, as agent to come after the prisoner.

The Terrible Machine

The denunciation of the machine in the Portland Republican papers recalls the fact that two years ago the manager of the machine was in charge of the Harvey Scott candidacy for the United States senate. The machine that is now very bad was then very good.

Will Address Students

Hon. R. D. Hume will address the students on "Lack of Religious Principles Responsible for the Degeneracy of Our Times," at the chapel tomorrow morning at 9 o'clock. Mr. Hume is an able speaker, and it will be an interesting treat.

KILLING BILLS BY METHOD

Both House and Senate Pursuing Slow Process Policies

The senate did almost no business Monday forenoon. The house dragged slowly along, and killed time, as though it had weeks ahead of it.

There seemed to be deliberate agreement to smother many meritorious measures by failing to reach consideration. Today Kay moved to adjourn to 2 p. m.

The apathy and lethargy extends to the clerks and even the pages and messengers move with slow and measured tread. Hundreds of bills will remain without action after midnight tonight.

House—Monday Afternoon

Consideration of the governor's veto of the Mayger tide land bill was made a special order for Tuesday at 11 o'clock. The special appropriation bill, including normal schools, was taken up at 3 o'clock. The Smith railroad commission bill was indefinitely postponed.

Smooth-voiced, sententious, shabby Smith.

CLARK COUNTY KILLED

The Measure to Divide Union County Failed by a Few Votes

The committee on counties reported favorably on the bill to create Clark county. A minority report favored indefinite postponement.

McLeod led the fight against the bill (substitute for Hot Lake) to divide Union county. The members in both houses and three-fourths of all the people of Union county were opposed to this bill.

Jayne, of Wasco, defended the bill for the new county. He showed that the bill had substantial merit, in spite of the protests of the gentleman from Union.

McLeod closed the debate by repeating his accusation that many of the petitioners were women, and hotel dining room girls.

On motion of adopting minority report and killing bill ayes 31, noes 27.

House—Monday

The house opened with prayer, Speaker Mills in the chair.

H. B. No. 137.—By Von der Hellen, to create office of deputy fish warden for Southern Oregon. Passed.

H. B. No. 20.—By Bailey, to regulate payment of wages. Passed.

H. B. No. 151.—By Welch, to declare time when tax levy shall be made. Passed.

H. B. No. 363.—By ways and means committee, relating to employment of convicts. Passed.

H. B. No. 190.—By Smith, of Josephine, reserving to people mining rights on railroad lands. Passed.

Substitute for H. B. 231.—Salaries Douglas county. Passed.

Ask Referendum

The governor is receiving petitions for the referendum on H. B. No. 6, by Linticum, to establish a state library commission. The bill was filed with the secretary of state by the governor without his approval.

Appropriation Bill

H. B. No. 365.—By the ways and means committee, was considered by items in committee of the whole by the house. Speaker Mills called Kay to the chair. Smith, of Josephine, offered amendments for the Democrats, but made no inroads on the bill.

It is rumored that the governor will veto a bill if it carries the appropriations for the normal schools, as he has taken the position that all such items should be provided for in a separate bill. The house may pass a bill with the school items in it, and then pass the bill over the governor's veto.

Vawter's Triumph

The passage of the ways and means bill without a scratch of a pen was a great triumph for Chairman Vawter. Kay's amendment to add \$8000, as well as all of Smith's amendments to subtract were voted down almost unanimously. It was a grand expression of confidence in the committee.

House Officer Hurt

M. P. Isenberg, of Hood River, sergeant-at-arms of the house, was seriously hurt by being struck by a street car Sunday afternoon. He was badly cut over the eye, and was taken to the sanitarium. The house elected F. A. Baker, of Salem for the balance of the term.

A Touching Story

is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At J. C. Perry's drug store; 50c and \$1.00 guaranteed. Trial bottle free.

A Pleasant Way to Travel

The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and we believe that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.
