## SANITARY TWENTIETH CENTURY

### What Is Being Done in the Way of Hygienic Science

#### Salem Has One of the Most Modern Contrivances for Cleanliness

One of the greatest innovations, and probably one of the most to be desired that has come with the 20th century is the great demand for cleanliness, hygienic and sanitary conditions, and the application of these principles to the everyday affairs of life are what constitute the greatest blessing.

Many of the luxuries of life in the past have proven, upon close inspection to be of a filthy and unsanitary nature, and not least among these are the soda fountains of the land. All will learn with delight that Salem now has installed and ready for operation one of the new 20th century fountains, the first one in Oregon. It is a model of beauty, and makes all patrons of this delicious beverage much pleased to know the fact that they are no longer absorbing all kinds of filth in the guise of a delicious drink.

This new 20th century fountain has just been installed by the Brewer Drug Company, on Court street, and will be in operation soon. Its construction is a thing of beauty. The woodwork is made of mahogany-birch, carved and highly polished, and presents a rich appearance. The fountain proper is built of delicately-tinted inlaid onyx-tiled front, with Italian marble base and onyx ball soda levers, and has heavy French plate mirrors at the rear. The impression of delightful cleanliness conveyed by this sanitary fountain must prove a strong and constant invitation to customers. The ice chest is heavily metal lined with aluminum surfaces. At either side, below, are large refrigerators, with double plate glass doors, while their is a large container in the center below for tanks for cylinders. In front of this magnificent piece of furniture is a beautiful counter of the same wood, hand-carved, with an elaborate top. Under this counter is a very ingeniously constructed work table, not only built for hard service, but constructed for hygienic cleanliness. It has an ice cream cabinet, sink, metal drain boards, slop chute and towel rail, complete in every detail, all connected

with sanitary plumbing. As stated above, this is the only one of its kind in Oregon, and will interest every person, both because it produces a clean, sparkling beverage, and because it is always interesting to know that such a place is kept perfectly clean from objectionable matter. We now can get that delicious beverage which has caused the American people to nearly forego the ale of England, the beer of Germany, the wine of France, and of which Samuel Johnson would surely have said, had he lived in our time, "The cup that cheers, but not inebriates." And it is clean.

#### Fulton Has Voice.

Washington, March 16.—Senator Fulton will name the new register and receiver of the Roseburg land office. He had a conference today with Secretary Hitchcock, and was told that, in time, Booth and Bridges will be removed. When the government is ready to make new appointments, Senator Fulton will be asked to make recommendations. His men will be examined, and if satisfactory, will be appointed. If they do not meet the requirements, he will be asked to submit other names. In any event, men of his selection will get the offices. Secretary Hitchcock has abandoned his independent search for men for the land office.

#### French May Lose Title.

Paris, March 16.—The French Cable Company received a dispatch from its manager at Caracas stating that the judgment annulling the company's concession was expected on March 20th. He does not mention any seizing or cutting of cables. The French cabinet will consider the question tomorrow.

#### Hawley Dangerously Ill.

Washington, March 16.—General Joseph R. Hawley is dangerously ill at his home here.

# CZAR BREAKS DOWN

## RULER SUFFERS FROM SEVERE HEAD TROUBLE

Berlin, March 16.—An article in the Schlesischezeitung says that the Czar is collapsing under the severe mental strain, and suffers from prolonged and acute headache. At intervals he is apathetic, and is indifferent as to either the victory or defeat of his armies.

## RUSSIANS FEAR NOT THE CZAR

### Organize Clubs for Purpose of Debating Political Questions

St. Petersburg, March 16.—The imperial ukase, issued simultaneously with the receipt conferring upon individuals and institutions the right to freely petition the emperor through the committee of ministers is being taken advantage of by the Zemstovs, Doumas and other organizations. They are demanding representation upon the commission. They propose to test the government's sincerity by the open organization of clubs for debating political questions.

St. Petersburg, March 16.—A dispatch from Santo Pu, Manchuria, states that the Russians have abandoned all advanced positions on the Pan river, after a repulse by the Japanese on March 14th, and burned their supplies. A severe engagement is now being fought north of Tie Pass.

Strike conditions seem to be everywhere improved. The Social Democrats here have advised the strikers who are without money and confronted with starvation to return to work. Less than 10,000 men are now out.

The agrarian disturbances are on a large scale, and becoming decidedly more threatening, causing the deepest concern. The agitation has spread to Simubisk province, where the pheasants are making ready to begin a division of the land as soon as the snow melts. It is reported that the terrorists have formally notified the government that they will cease activity for a month to await the result of the rescript.

London, March 16.—Baron Hyashi makes public the following statement: "Our advanced troops are pressing against the enemy everywhere. We occupied Tie Ling at 12:25 this, Thursday, morning."

London, March 16.—A telegram from St. Petersburg states that the Czar has signed the decree for a mobilization of more troops in the military districts of Warsaw, Moscow, Kieff and Vaseau.

Berlin, March 16.—The Tageblatt says that the Czar has ordered Kuropatkin to transfer the command of the

army to General Linevitch, pending the arrival of Nicholaievitch.

London, March 16.—Baron Hayashi announces that a detachment of Japanese occupied Sheng King on March 13th.

St. Petersburg, March 16.—It is reported that Tie Pass has been evacuated by General Kuropatkin's army.

#### Chinese Are Jubilant.

New Chwang, March 16.—The inhabitants of the city are jubilant over the capture of Tie Pass, which will release, as soon as the river is open, 100 junks, long detained on the upper Liao river, and having on board a vast accumulation of beans and bean cake. Traffic on the Yinkow and Sin Min Tin railroad was reopened today.

#### Seeking Cold Climate.

St. Petersburg, March 16.—General Kuropatkin reports as follows: "Our troops are passing through Tie Ling in good order on my route to the north. I have seen my trains all in moving order. When I left Tie Ling fighting had not commenced."

Another dispatch from Kuropatkin states that there has been no fighting today, and adds: "The troops have been reorganized and drawn up in readiness for further fighting."

#### Fine Fair Visitors.

Seattle, Wash., March 16.—The Western Central Labor Union, which represents 50 local organizations, tonight endorsed the action recently taken by the Seattle Building Trades Assembly in supporting the Portland Structural Building Alliance in the Lewis and Clark exposition controversy, and passed a resolution recommending that all members who attend the fair be fined \$25.

The representative of the American Federation of Labor, now in Portland, was advised of the action. The painters, carpenters, plumbers and sign-painters today endorsed the cause of the Portland strikers.

#### Seed Wheat and Oats.

For sale by Tillson and Company. 3-11-1wk

## DEMOCRATS ADOPT FILIBUSTERING TACTICS

### Peabody Will Be Seated as Governor but Will Resign at Once

Denver, March 16.—The gubernatorial situation took a new turn this morning, when the Democrats began filibustering. When they discovered that the Republicans intended to seat Peabody, who will resign and permit

McDonald to serve out the term, they announced that they would take advantage of the rule giving members ten minutes each to discuss the contest reports submitted to the legislature. This will probably defer the vote until tomorrow.

## SOUTHERN PACIFIC TRAINS

### Tied Up in California and Traffic Is Almost At Stand Still

Los Angeles, March 16.—All railroads are again blocked this morning, as the result of a renewal of the storm last night. Seven Southern Pacific trains are stalled between Los Angeles and Santa Barbara. Food for the passengers on the trains is scarce, but the railroads are sending supplies. There are fresh evidence of disaster at sea, and wreckage is coming ashore, but no bodies of persons drowned were found. The city streets are running full of water, and it is still raining.

San Diego, March 16.—Nearly an inch of rain fell here last night, bringing the total for the season up to 13.58 inches. The reservoirs contain over

7,000,000 gallons, the largest supply on record. The damage done is inconsequential, except at Coronado, where the high surf washed the property lines and will make it necessary for the removal of residences from the ocean front.

#### Landslides and Washouts.

Santa Barbara, March 16.—Heavy precipitation last night caused serious damage along the entire Southern Pacific line to Los Angeles. Another landslide occurred at Benham, 20 miles below Santa Barbara, and there are heavy washouts near Santa Paula and Los Angeles. Only one train out of five that left Santa Barbara yesterday arrived in Los Angeles, taking 18 hours to make the trip of 100 miles.

#### Cortelyou Will Resign.

Washington, March 16.—Postmaster-General Cortelyou reiterated his statement that he would resign the chairmanship of the Republican National Committee, but said that the date was not set.

If you need anything in the jewelry line, or expect to need anything, it will be money in your pocket to attend the Hinges jewelry auction.

#### Unearth Many Murders.

Salt Lake, March 16.—Following the arrest of Mrs. Lizzie Geisler this morning, on the charge of murder, the police say that they believe they have unearthed numerous child murders. The woman operated a "lying-in" hospital, patronized by many young women.

## Jos. Meyers & Sons

SALEM'S GREATEST STORE  
THE WHITE CORNER

### Ours Is A Metropolitan Stock.

Such as never before has been placed on sale in Salem. Whether you wish the most exclusive importations or the standard productions of our own country you'll find them here in satisfactory abundance, and always at lowest prices.
