

X-RAYS

Did you ever notice it? It is always the littlest man at the hotel table that does the most talking.

It is reported there is a milk famine in Milwaukee. What do they want of milk in Milwaukee for, anyway?

There is a man in Salem who always adds "yours truly" at the end of a telegram before he signs his name.

The man who always has his hammer out, and is knocking, never gets along anywhere. There is no room for him.

If the postoffice department prohibits all guessing contests through the mail, what will become of the weather reports?

How can the heathens at the foreign missions know whether Rockefeller's money is tainted or not—it all looks good to them.

The naval battle between the Russians and the Japs is a good deal like the Flinnigan-Flannigan story: "Off agin, on agin."

If Mayor Dunne of Chicago can put down the strike of the teamsters as easily as he was elected mayor he will be a peacherino.

If we all had our just dues, where would we be? Some would be on Easy street, and some in the penitentiary. Where would you be?

A Michigan dealer in feathers says the feather bed is disappearing. Not in Oregon—there are any number of the old reliable feather beds in the state that can discount the Ostromoor mattress for comfort and ease.

Telegraphic dispatches say that a baseball nine from one of the Japanese universities is coming over to this country to make a tour of the United States. A Russian ball team would make a better record, as they are faster runners.

All kinds of money looks alike to the American Baptist Home Missionary society. They have accepted another gift of \$200,000 from John D. Rockefeller, which makes a total of more than \$1,000,000 the society has received in the past 20 years.

Now that Shonts has given it out that he intends to run the building of the Panama canal on a business system—for the benefit of the United States—there won't be so many geezers looking for soft jobs down there. Japs and Chinese will have the preference.

President Alderman Installed.
Charlottesville, Va., April 13.—In the presence of many distinguished educators, representing nearly all the prominent institutions of learning in the country, Edwin A. Alderman, former president of Tulane University, was today inaugurated as first president of the University of Virginia. It was one of the most notable occasions in the history of the university since its foundation by Thomas Jefferson. The inaugural ceremonies proper were preceded by a parade of faculty, alumni, trustees and visiting educators, all garbed in classic cap and gown. The ceremonies were opened with prayer, followed by addresses on behalf of the trustees. The inaugural address of President Alderman was followed by congratulatory addresses on behalf of the faculty, student body, alumni and the various institutions of learning represented among the visitors.

Edwin A. Alderman, D. C. L., LL. D., is 48 years old and the product entirely of southern educational methods. He was educated at Bethel Academy, Va., and the University of North Carolina, graduating from the latter institution in 1882 with the degree of Ph. D. He at once went to teaching, and has taught every grade of school from the primary department up. From 1884 to 1887 he was superintendent of the Goldsboro (N. C.) schools, and from 1889 to 1892 was assistant state superintendent of North Carolina, a position which he filled with much credit to himself. Early in 1892 he was chosen professor of English in the North Carolina Normal College, and in the fall of the same year was elected professor of pedagogy in the University of North Carolina. In 1896 he was made president of the same college, and in 1900 he assumed the presidency of Tulane University at New Orleans, which position he continued to fill until chosen to the presidency of the University of Virginia.

Democratic Oratory to Flow.
New York, April 13.—There will be a great flow of Democratic oratory in the grand ballroom of the Waldorf-Astoria tonight, when, in response to the invitation of the Democratic club,

Sick Headache

When your head aches, there is a storm in the nervous system, centering in the brain.

This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epilepsy, fits, dizziness, etc.

Allay this stormy, irritated, aching condition by taking Dr. Miles' Anti-Pain Pills.

They stop the pain by soothing, strengthening and relieving the tension upon the nerves—not by paralyzing them, as do most headache remedies.

Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs.

"Sick headache is hereditary in my family. My father suffered a great deal, and for many years I have had spells that were so severe that I was unable to attend to my business affairs for a day or so at a time. During a very severe attack of headache, I took Dr. Miles' Anti-Pain Pills and they relieved me almost immediately. Since then I take them when I feel the spell coming on and it stops it at once."

A POOR IMITATION
Is weak flattery—style and quality are lacking and prices are less. Must be, because the genuine article costs more to produce. If you really want good, serviceable shoes you'll discover real economy in the sort we sell. You see, we've been in the shoe business for years; expect to continue along that line many a year to come, and we must suit you to hold our trade. Sense in that.

To Fight Tuberculosis.
Atlanta, Ga., April 13.—Preparations for the meeting of the Anti-Tuberculosis League, which is to be held in Atlanta next week, are practically completed, and the indications are that the convention of distinguished medical men will be one of the most successful conventions ever held in the south. Prominent physicians and health authorities from all sections of the country will attend the meeting, and the local medical fraternity is making arrangements to receive and entertain them in a becoming manner. The convention will be held in the hall of the house of representatives, and Governor Terrell will deliver the address of welcome.

Röntgen Ray Congress.
Berlin, April 13.—An international Röntgen Ray Congress opened in Berlin today. It is the first of its kind ever held, and its purpose is to show what progress has been made since the discovery of the rays by Prof. Röntgen. During the several days the congress will be in session lectures will be delivered and demonstrations made by leading scientific men and physicians of various countries. In connection with the congress there is an elaborate and comprehensive exhibition of Röntgen-ray appliances and of the literature on the subject.
