CHICAGO BUSINESS PARALYZED

NINE HUNDRED POLICE

To Be Added to Strike Breaking Forces

Committee of Labor Leaders Named to Wait on President

Chicago, May 2.—Employers of labor in Chicago are determined to have interference by the military forces with the teamsters' strike now in progress. Mayor Duane and Chief of Police O'Neill declare that they have the situation well in hand, and that there is no need of interference on the part of Governor Deneen or President Roosevelt. The union leaders maintain that there is no need of soldiers. Fifteen hundred strike-breakers are already in the city, and they were reinforced by 500 more this morning. A majority of the strike-breakers are negroes. Money is pouring into Chicago to aid the business men in their fight against the teamsters' union. The Associated Employers in Chicago, not directly affected by the strike, are also giving financial aid. The Employers' Company has arranged to send out 500 teams today, each accompanied by four officers and several plain clothes men. The police force on strike duty has been increased to 1150, with 500 private detectives.

Victory for the Unions.

The Union Traction Company and the Morgan & Wright Rubber Co. this morning deserted the Employers' Company and signed contracts with the union teaming companies using union men. This is considered a big victory for the unionists. Two detachments of strike-breakers, number 300, marched through the streets this morning on their way to the armalee barns, from which they will be sent out today. They were headed by Strike-Breaker Carter. As they passed along the streets they were pelted with stones and jeered by the crowds. None were seriously hurt.

Situation Very Critical.

There have been many collisions in various parts of the city. In some cases strike-breakers, acting as teamsters, have been pulled off the wagons and maltreated.

Up to noon five men have been taken to the hospital as a result of attacks on the caravan of wagons at Jackson and Halstead streets. Nine arrests have been made.

Colored Guard Shoots.

A caravan of wagons of the Teaming Company was passing along Wabash avenue at 11 o'clock this morning. Henry Schultz, aged 36, a police man, cast a missile at F. E. Carter, a negro guard. Carter immediately fired, the ball striking Schultz in the right side. The wounded man was taken to the hospital and Carter was arrested.

Nine Hundred More Cops.

The conference between the mayor, chief of police and city officials

this afternoon it was decided to swear in 900 more policemen tomorrow. This action is due to a statement of merchants that the business of the city will be paralyzed unless they could make deliveries. It is said to be intended to make deliveries, beginning at 8 o'clock tomorrow, with 1885 wagons, that need protection. Presidents Shea and Dold, of the Teamsters' Union and Federation of Labor, and three others, has been appointed a committee to wait upon President Roosevelt, when he arrives, to present the labor side of the dispute.

To Protect Express Companies.

Judge Kohlsaat, of the federal court, this afternoon issued an injunction restraining the strikers from interfering with the business of the express companies.

1000 in a Melee.

At State and Taylor streets this afternoon a riot was precipitated by a negro driver on a Montgomery, Ward & Co. wagon, who fired into the crowd that was following the caravan, throwing missiles. The negro was pulled from his seat and a wild scrimmage followed in which the following were injured: Leonard Weber, white, shot in neck, probably fatal; J. W. Howe, detective, knocked unconscious; Guy Bittinger, detective, stabbed in the head; six colored men seriously injured. A large number were more or less hurt. Twenty-five policemen arrived and began clubbing the bystanders. A thousand people participated in the melee.

BLUE BEARD HOCH

Chicago, May 2.—After the jurors had been accepted and sworn in, Hoch turned, with a smile to the reporters, and said: "That jury is fine."

Assistant States Attorney Olsen expressed himself as satisfied with the men to try the case. Hoch became much excited when Assistant State's Attorney Olsen declared in his address to the jury that two more grains of arsenic were found in the body of Hoch's late wife, Mrs. Marie Walker-Hoch, when it was exhumed last week. "The embalming fluid has been given the strongest test possible," declared the prosecutor, "and no arsenic was found in the fluid."

Hoch jumped to the floor and was about to say something, when he was forced to sit down and remain quiet.

Seattle Brewery Strike.

Seattle, May 2.—Rotten egg throwing at a number of non-union drivers was the only violence attending the brewers' strike today. Deputies sheriffs and police are guarding the plants. About 150 non-union men are at work today. The strikers and strike-breakers both say that it is a finish fight. Several brewery officials drove wagons themselves today.

Chicago Markets.

Chicago, May 2.—Cash wheat, 93¢ @ 91½; corn, 47½ @ 48¼; oats, 28½ @ 29¢.

Twenty thousand dollars in gold nuggets was shown to the Chicago business men while they were in Baker City.

GIRL RETURNED TO SLAVERY Law Is Against Ah Sou, Who Fled From Her Captors.

San Francisco, May 2.—The final decision was handed down by the United States circuit court of appeals in the case of Ah Sou, a Chinese slave girl, who was landed at Seattle on the pretense that she was the daughter of Max Sou, a merchant of that city. It was shown afterward that she was not his daughter, but the slave girl of Ah Bui, who had bought her in China.

After being landed she was placed in a disreputable house, but escaped and took refuge in a Chinese woman's mission home in Portland. Being tired of the home, and wishing to leave it, she went through the ceremony of marriage to a Chinese laborer, but the marriage was never consummated. The court holds that she must return to China. Knowing that this practically condemns her to slavery, the court scored the law as it stands.

BLOODY STRIKE AT WARSAW

Warsaw, May 2.—The city is quiet today. The bodies of 30 odd persons, who were killed in the rioting yesterday, are unidentified. Ten of the wounded have died in the hospital. Workmen are going from factory to factory trying to inaugurate a strike.

CLOSING ADDRESS MADE

In the Second Trial of the Actress Nan Patterson

New York, May 2.—Assistant District Rand made the closing address for the prosecution of Nan Patterson this morning. The court room was so crowded with spectators that the doors had to be locked.

Rand said if Young did not procure a revolver he did not shoot himself. The revolver was bought June 3d at a pawnshop of Hyman Stein. The prosecution had accounted for every minute of Young's time on June 3d, and he had not bought a revolver. The defense had shown no reason why Young should commit suicide. Rand showed the peculiar mechanism of the revolver, which made it necessary to press the button in the handle and at the same time pull the trigger. He declared if the jury could shoot themselves as Young was shot they could set the girl free. He pointed out that the reflex action would not account for finding the revolver in his right hand pocket, after the man's spine and lung were shot in two, as suggested by the defense.

Francis Garvan, who is assisting Rand in the prosecution, said this afternoon that the case will not go to the jury until tomorrow.

Never before at this time of the year have sheep in the eastern part of the state been so free from scab as they are this season.

AGAIN TACKLES TRUSTS

St. Paul, Minn., May 2.—The state railroad and warehouse commission today began the hearing of the arguments in the case of the independent oil dealers of the state versus the railroads doing business in the state. The independent oil dealers allege that the rate on oil products in less than carload lots is excessive.

Although the name of the Standard Oil company is not mentioned in the formal complaint the fight is practically against that company. Under the present classification of oil products as freight, the Standard Oil is the only company doing business in the state that is in a position to take advantage of the carload rate, which is 50 per cent less than the rate on less than carload lots to local points within the state.

The independents on their small shipments are compelled to pay third class rates, whereas the Standard can take advantage of the first class rates. The independents ask the commission to reduce the rate on shipments in less than carload lots from third to fourth class. It is urged that if this is done thousands of dollars will be saved the consumers of the state, as the price of oil will be materially reduced. It is claimed that the Standard does not base the selling price of its products upon the cost of production plus the cost of transportation, but upon the inability of the local dealers to take advantage of the lower freight rates.

BANKERS TO DROP BIGELOW

New York, May 2.—Bankers from various portions of the country are assembling for the annual meeting of the American Bankers' Association. The session begins tomorrow, and it is said that the name of F. G. Bigelow, the former Milwaukee banker, will be stricken from the list of members. He was a former president of the association.
