Fishing Tackle--Base Ball Supplies HAUSER BROS. PROPS., SALEM GUN STORE

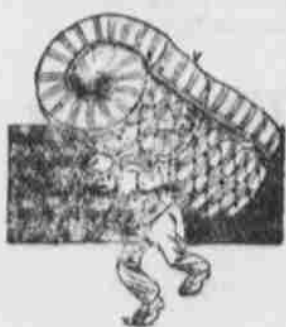

Jefferson Review: The Jefferson Milling Company this week purchased 1,000,000 feet of fine logs lying on the banks of the north fork of the Santiam near the Golden Ferry. The logs are now being rolled into the river, and will be brought to the mill at this city as rapidly as possible. This large purchase, in addition to the logs already on hand, means a busy summer for our sawmill, and many hundreds of dollars paid out for hands. It is the intention of this company to arrange for the delivery each year at their mill of 1,000,000 feet of the magnificent yellow fir and pine timber from the Cascade mountains, than which no finer timber grows.

A BUSINESS

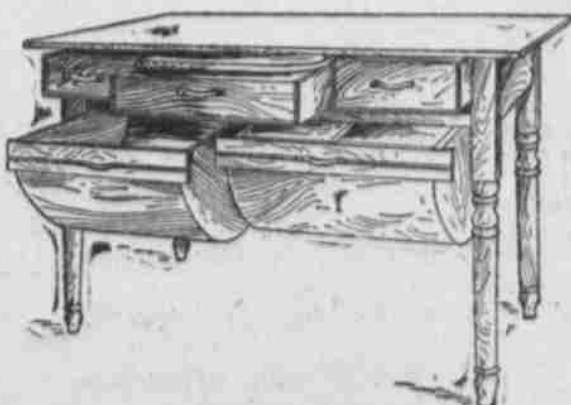

That grows as our business grows must be as good for the public as for the proprietors.

Are you satisfied with your curtain stretcher? Have you examined our no-piece, adjustable pin stretcher? \$2.25 buys ours, and no other stretcher equals it.

Do not lose sight of the fact that we make our own mattresses. Just now we are putting up a fine felt mattress out of the most fleecy felted cotton ever brought from the Sunny South.

This is what its name signifies, House hold Treasure, and also a household necessity, where economy of space and convenience is desired. We have them at \$3.00 and \$4.00.

The furnishings of your hall help to create a favorable impression for the rest of the house. Try it on your neighbor, and see.

One dollar buys one, with a table.

It may be cool today, but warm weather is sure to come soon. Better not put off refrigerator buying until the hot wave strikes you.

Harbingers of Summer

"One swallow doesn't make a summer." Neither does the prophecy of a weather prophet; but a store full of bright, new things in clothing, furnishings, etc., is a pretty good indication of itself that the welcome summer season is not far away. It's a good sign for those who have learned the wisdom of making early selections for their summer wear.

Reports show that there will be a shorter crop of strawberries than usual, but the outlook for all other small fruits is excellent. The berry growers east of the city report pretty full vines, but on the lower land and in the red hills the crop is short.
