## Would You "Worry" for Five Cents an Hour

Your work is probably hard enough—after you have subtracted the "worry" from it. It will be a bit too hard for you if you cultivate the luxury of worrying. Because you need a new clerk, or new servant, or partner, or stenographer, or more business capital—none of these things need to worry you. A Want Ad. big enough to be effective will cost you less than twelve hours of worry at five cents an hour. And the chances are that your want can be filled in twelve hours or less. Is it worth five cents an hour to secure immunity from worry?

PLACE YOUR WANT AD IN THE JOURNAL. It will bring results.

## Pain in the Head

Is a danger signal, warning you that the brain nerves are exhausted—irritated, and are undergoing an unnatural strain.

Frequent and prolonged attacks of pain weaken the generative power of the nerve cells of the brain, and lead to loss of memory, melancholy, spasms, epilepsy, and frequently insanity.

When the brain nerves are weakened they are unable to supply sufficient nerve force to the nerves that control the lungs, heart, stomach and other organs, and these organs are thus robbed of energy, and unable to meet the demands upon them, and they get sick.

Stop the head pains with Dr. Miles' Anti-Pain Pills, and the influence upon your general health will be greater than you can realize.

"I want to tell you how thankful I am for Dr. Miles' Anti-Pain Pills. From a child I have been subject to sick headache, and never found any lasting relief until I received a sample of Dr. Miles' Anti-Pain Pills while in Geneva six weeks ago. By taking one it usually throws off my pain, so I can go about my home duties."  
\*MRS. ALMA GATES,
