

COMING TO OREGON.

Call to the Thirty-seventh Annual Convention of the N. A. W. S. A. The thirty-seventh annual convention of the National American Woman Suffrage association will be held in the First Congregational church, Portland, Ore., June 28 to July 5, inclusive.

A cordial invitation is extended to all who believed in the inalienable right of women to self-government and also to those not yet in sympathy with the purposes of this association. A government of men and women—not by women alone, not by men alone, but a government of men and women, for men and women—this is the aim and ideal of our association.

One hundred years ago Oregon was an untrodden wilderness. The transformation of that primeval territory into prosperous communities, enjoying the highest degree of civilization, could not have been accomplished with the work of women. No restriction should be placed upon energies and abilities so potent for good. The extension of the right of suffrage would remove a handicap from the efforts of women and give them an opportunity to work for the welfare of the state.

We do not claim that women's voice in the government would at once sound the death knell to all social and political evils. But we do believe that a government representing the interests and the benefits of women and men would prove itself, and is proving itself, where it now exists, to be a better government than one which represents the interests and beliefs of men alone.

The movement for the enfranchisement of women is based upon the unchanging and unchangeable principles of human liberty, in accordance with which successive classes of men have won the right of self-government.

On such a foundation ultimate victory is assured,—and, in truth, is conceded, even by those who oppose. The day is ever drawing nearer when the nation will apply to women the principles which are the very foundations of its existence, when, on every election day, there will be re-affirmed the immortal truths of our Declaration of American Independence. Then will this indeed be a just government, "deriving its powers from the consent of the governed."

\$500° REWARD FOR WOMEN WHO CANNOT BE CURED

BACKED up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

No other medicine than Dr. Pierce's Favorite Prescription could possibly "win out" as the saying goes, on such a proposition. But they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such unrivaled curative properties as to fully warrant its makers in publishing the remarkable offer above made in the utmost good faith.

Their financial responsibility is well known to every newspaper publisher and druggist in the United States, with most of whom they have done business for over a third of a century.

WHEN LOVE INVITES

The woman follows the man of her choice though the path leads out of Eden into a world untrodden and untried. What is her reward? Many a time when her health is broken by the burdens she has borne for the man's sake, her reward is to see him turn from her to seek rosier cheeks and brighter eyes. It is man's nature to crave beauty in the wife as in the maid. And what woman is there, who would not be happy to keep her maiden bloom when motherhood has crowned her wifely happiness? Some women seem to have found this secret of perpetual youth.

"Age cannot wither them." They have learned that fairness of face and form depend upon the health, and that the general health depends upon the local womanly health. They establish regularity of the periods. They dry the disagreeable drains which draw the luster from the eyes and the vermilion from the lips as well as sap the body's strength. They quench the internal fires of inflammation in which the very elements of beauty are consumed. They heal the ulcer which gnaws into the very life.

ILLS THAT VEX HER.

They walk the world as wonders—women exempt from the sacrifice to love. How have they done this? By the use of Dr. Pierce's Favorite Prescription, which makes weak women strong and sick women well. It matters not how weak the woman is, or how sick she is, "Favorite Prescription" will cure the womanly ills that vex her: will

round out the sunken curves of her form, put light in her eyes, tint her cheeks with health's carnation, and make her a glad and happy woman. Hundreds of thousands of women testify to the truth of these statements.

"A short time ago I was almost dead with nervous prostration, general debility and female weakness," writes Mrs. Loretta Webster, of 117 Virginia Avenue, Lexington, Ky. Worthy Treasurer, Independent Order of Good Templars. "Dr. Pierce's Favorite Prescription was recommended to me as a sure cure, and I found this to be true, for I obtained splendid results, securing fine health. Women ought to be grateful to think that there is one safe and sure cure offered to them for their troubles. I advise every sick and suffering woman to stop spending money and wasting time with doctors' prescriptions, when a few bottles of your remedy is sure to cure. I am the happy mother of two children, boy aged sixteen, and girl, eight years."

IRRIGATION SYSTEMS IN LANE

Three Big Canals With Numerous Laterals Will Be Constructed

F. J. Black, a civil engineer of years of experience and prominence, filed with the county clerk of Lane county Monday afternoon papers for the construction of huge irrigation system in Lane county, says the Eugene Guard. One canal will commence at Thurston, where a headgate will be constructed, and the water will be taken from the McKenzie river. This canal will be 42 feet wide at the bottom and 7 feet deep, crossing the river below Eugene and continuing south of the railroad, emptying into the river six miles below Junction City.

Another ditch of the dimensions will commence just a mile above Natron, passing north of Springfield and crossing the river near Judkins' Point, extending south of Eugene and entering into another canal just below the city.

A third canal will be taken out of the McKenzie just above the Coburg bridge and will be tunneled through the rocky point at Coburg, entering Muddy creek for a distance, passing near Halsey and Tangent, and entering the river near Albany.

These systems will have cross laterals and proper waste ditches. Mr. Black has had years of experience along the lines formulated and states that this is the best and most feasible project for such a system proposed he has ever seen. In a few years the increase in crops, the successful growth of alfalfa and sugar beets and increased dairy products would add to the value of the lands and quadruple the population of the country affected.

A feature of crossing the river will be a siphon system of pipes underneath the river bed.

No bonus or anything of the kind is asked by Mr. Black or his associates, who are at present unknown, but the credentials borne by Mr. Black assure Eugene people that he understands his line of business. He has been in this vicinity for 90 days surveying and quietly getting his papers in shape. He will soon give out a statement for the benefit of the people.

Wants City to Pay.

An action to recover \$2500 damages from the city of Pendleton has been started by Henry Harper as the guardian of Loren Harper, says the Pendleton East Oregonian. In the complaint it is stated that the little boy suffered a broken leg on February 28, through a large disc falling upon him. The implement was the property of Fred Weber, the Court street dealer, and was stored on Thompson street, and where, while playing, the little boy was injured. In the complaint it is stated that the implements were allowed to be stored in the street in violation of the laws on the subject, thus making the city responsible.

At the Old Standstill

Some are born great, some have greatness thrust upon them—others advertise. The merchant who sits down and waits for business to come to him will find himself among the left over baggage when the Empire State express of business success pulls out.

Business success needs three things—knowledge, push and good advertising.

Advertising isn't an art; it's just applied common sense. Advertising is naturally a creative force. Since it has been applied to modern commerce there have been created dozens of commodities and branches of trade that did not exist before its advent. The \$600,000,000 spent annually in this country for publicity has set many hundreds of millions of dollars running into wholly new channels.

Business is warfare—in a sense, a hard, constant fight to the finish. Advertising is the business man's most modern, most effective, weapon.

Once in a while we hear some old fellow saying, "I have never advertised and am still doing business at the old stand." He means that he is doing business at the old standstill.—M. L. Corey in Retailer and Advertiser.

The most successful merchants in this town advertise regularly in this paper. The moral is obvious.
