ACCUSED OF BEING CROOKED

Directors of National Base Ball League in Session Today

Boston, Mass., June 2.—Much interest centers in the outcome of today's meeting of the board of directors of the National Baseball League, called by President Pulliam, to consider the charges filed by President Dreyfuss, of the Pittsburg club, against Manager McGraw, of the New York club. Dreyfuss charges McGraw with openly accusing him of being crooked, and controlling the league umpires. The importance of the issue, however, lies in the fact that it is but an evidence of a deep-seated disaffection said to exist in certain quarters of the big league, and which may develop into a serious split. The directors went into session behind closed doors at the Hotel Touraine this morning, and declined to publicly discuss the matter.

ESCAPED THE BOMB

Paris, Jun 1.—King Alfonso went to Chailons today to witness the army maneuvers, accompanied by President Loubet. Before starting Alfonso attended early services in the Catholic church at Saint Clothilde, where he offered thanks for his escape from death at the hands of the bomb thrower last night. The police made fifteen additional arrests this morning of suspected anarchists, but are certain the man who threw the bomb has not been captured.

TO USE ALL STEEL CARS

Philadelphia, Pa., June 2.—An order for 150 all-steel passenger cars for the New York Central Railroad has been received by the American Car and Foundry Company of Berwick. It is the first time that an American railroad has had made steel cars for passenger traffic with the single exception of the New York underground road. It is expected, however, that the present wooden cars will be generally superseded by steel cars before long. The steel cars are stronger than wooden cars. They are non-combustible, they do not shatter in wrecks, and they are said by experts to be safer and more economical in every way.

GOOD NEWS.
Many Salem Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of bad sufferers in Salem are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is had no more, thanks to Doan's Kidney Pills. People are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Mrs. L. W. Monech, wife of L. W. Monech, cabinet maker, residing corner Fourth and Main streets, Albany, Oregon, says: "After any over exertion, or when I contracted a cold, pain ceased itself in the seat of my back, causing it to ache severely, and there was a difficulty with the kidney secretions. On such occasions stooping lifting, twisting or turning was always followed by sharp shooting twinges through the kidneys. When I was badly in need of something to bring relief I read about Doan's Kidney's Pills and procured a box and took them strictly according to directions. They thoroughly relieved me of the last attack, and up to the present time I have not had a trace of symptoms of irritated or inactive kidneys. I will be pleased to allow you to use my name if it will be the means of doing good to others."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

AMERICAN HONORED

Paris, June 2.—Lewis Einstein, formerly third secretary of the American embassy in London, today delivered an address at the annual meeting of the Semi-Official Society of Diplomatic History. The meeting was held at the foreign office and the honor bestowed upon Mr. Einstein was unique, as it was the first time in its history that the society had invited an American to speak before it. The other speakers at today's meeting were Frederick Mason, of the French academy, and Count Emanuel Harcourt, both of whom are among the most distinguished historians in France.

That Bank of Sumpter Case.

The most important case to be tried at the next term of court will be against Roy Miller, in connection with the failure of the Bank of Sumpter. Roy Miller, the only one indicted on account of that transaction, is the one man who did not profit thereby, received no monetary benefit. The true story—that is, all of it—about that affair; the sale of the bank, the temporary disappearance of the money belonging to the city of Sumpter from the First National bank, and a half dozen other incidents connected therewith, have been repeated only in whispers, under bonds of secrecy, though the facts are known by others than the principal actors in the drama—business tragedy, one might say.—Baker City Maverick.
