COUNCIL MEETING

The city council met last evening in regular session, with Mayor Waters and all councilmen present, except Skaffe and Wallace. Recorder Moores was in charge of the records.

The committee on ordinances reported recommending the passage of an ordinance for vacating the alley in block 74, also ordinances establishing the grade on High and Saginaw streets. The ordinance to tax express companies was recommended, with amendment changing the tax from \$50 to \$25 per quarter. The ordinance taxing telegraph companies was returned with a communication from the interested parties.

Sidewalks were ordered built by the street commissioner for the following persons, who have failed to build the same, after orders from the council: J. J. Downing, R. H. Miller, J. W. Colter, E. C. Kriet, L. C. Arnold and Mary Goshline.

Street crossings on Front street across Oak, Columbia, River and North streets were asked for. Referred.

The committee on streets reported that it would require about \$50 more to complete the graveling of Oak street, and asked for authority to complete the work. Upon motion the committee was authorized to expend \$25 more on this street.

Councilman Fraser asked for an expenditure to surface Market street (Garden Road), Broadway and North Capital street. He moved that an order be made that North Liberty street, from the bridge to Market street, and thence to the east limit of the city. Mr. Jacob spoke for the motion, and Mr. Gesner then moved to amend, by adding about a dozen other streets, and referring the matter to the street committee. Several others were added by different aldermen, including every road running into the city, and the motion carried.

The committee on public buildings was authorized to ascertain the cost for necessary repairs on State street building and report to the council.

Mr. Jacobs, of the bridge committee, reported the big steel bridge and the South Commercial street bridges in bad shape.

Upon motion the east side of the South Commercial street be closed for repairs.

Upon motion the street commissioner was authorized to temporarily repair the steel bridge.

Upon motion the street committee was instructed to report cost of repairs on South Commercial street bridge and report at the next meeting.

Upon motion the printing committee was authorized to advertise for bids on the South Commercial street improvement.

The report of the park board was received, showing receipts for six months, \$474.01, and expenses on Wilson avenue \$289.96, and on Marion square \$67.22, leaving a balance on hand of \$116.83. It is estimated that

"NO, THANK YOU"

Says the poor dyspeptic when asked to partake of certain foods. He really wants them, but is afraid of the consequences. Heartburn, Bloating, Cramps, Nausea or Headache invariably follow. Every sufferer should try.

HOSTETTER'S STOMACH BITTERS

Before meals and see the wonderful amount of good it will do. It will strengthen the stomach and cure Indigestion, Dyspepsia, Costiveness, Biliousness and Malaria, Fever and Ague.

\$400 more will be required for the remainder of the year, to also cover account of Wm. Manning of \$104, for 52 days' labor. Mr. Gesner thought it looked suspicious to pay this bill without referring the report to the committee on parks for investigation, and suggested that, in the future, such work be passed around among the various park commissioners. The report was referred as suggested.

Crossan introduced a resolution asking for estimates for bridges on a number of streets crossing Mill creek, which was unanimously adopted.

At this juncture the special committee appointed last year to investigate the accounts of the city treasurer made a supplemental report as to the state of the city's accounts, which is printed elsewhere in this issue of The Journal. The report was referred to the committee on ways and means, to bring the same up to January 1, 1905.

Recorder Moores made his monthly report, which was referred as usual.

Mr. Bayne moved that the balance estimated for park improvements in the annual budget be now allowed the park board. Carried.

Mr. Stensloff urged that the foot bridge on North Capital street be repaired, and moved that a concrete pier be placed in the center of the stream, and the bridge repaired. Referred to bridge committee.

Mr. Gesner moved that the matter of the procedure of the direct primary law be referred to the city attorney, with instructions to report the necessary action to put it into effect.

The ordinance to vacate the alley in block 74 was read the third time and passed. This is the block occupied by the residence of J. J. Murphy, and the same alley was vacated about 20 years ago, but no record of same was made.

The ordinance to establish the grade on High street, between Leslie and Lincoln streets, was read and passed.

The ordinance to establish the grade on Saginaw street, between Mission and Lafayette streets, was also passed.

The ordinance to tax express companies was amended to \$25.00 per quarter and passed.

The ordinance to tax telegraph companies was amended to \$12.50 per quarter, instead of \$50, and passed.

The following bills were allowed: Chase & Skaffe, repairs and supplies \$ 1.10
W. A. Moores, stamps 3.25
Hofer Bros., advertising 7.00
Hofer Bros., advertising 10.50
E. S. Badlong, hauling gravel 12.00
Harry Moyer, hauling gravel 22.80
J. H. Penland, collecting taxes 15.70
J. H. Penland, labor 9.60
K. O. Cummins, labor80
Chas. O'Brien, labor 11.80

Is there anything better than trade between friends?

Schilling's Best makes friends and trade.

Your grocer's; moneyback.

Just a Bit of Wreckage.

City Recorder Moores had a sweetly solemn look in his eyes this morning when The Journal reporter asked after the little flock gathered by the police force from the highways and by-ways. He said it made him feel sad to have brought before him a big, husky man, in the pride of strength and youth, who had run up against the inevitable, and this morning such a case occurred. John Craig, a bit of human wreckage, drifted into Salem from somewhere, tossed by the restless waves of the great human sea, blown by variable winds and finally stranding, literally, on the bar of bars. "It was pathetic," said the recorder. "I felt really touched, and only gave him two days and a half."

WILL BE A LARGE CROWD

Go From Here to Make Salem Day a Success at the Fair

Salem's Business Men's League met in Union hall last evening to discuss the matter of making Salem day at the Lewis and Clark fair a grand success. It was unanimously decided to close all places of business on that day, so that no obstacle would be in the way of any person desiring to swell the crowd at the fair. While all the business men were, of course, not present, the representation was large, and certainly enthusiastic. J. L. Stockton set a fast pace by announcing that the store of J. L. Stockton & Co. would not only be closed on that day, but the firm would pay the expenses of its employees who desired to attend the fair. The rate for the round trip on the railroad will be \$1.65, and tickets will be placed on sale Thursday at different points in the city, and it is desired that those intending to visit the fair that day get their tickets at least a day or two before the 14th, in order that the railroad may provide coaches for all. The trains will leave here at 7 o'clock in the morning, and will leave Portland at 10:30 the same evening, giving 12 full hours at the fair. President Rogers this morning appointed a committee to call upon every business man and secure his promise to close on that day, and another committee to look after badges, banners and such decorations as may be thought suitable. The success of Salem day is now assured, and the largest crowd that ever left Salem on one day will board the train for Portland next Wednesday, just one week from today.

Anyway, grand old George H. Williams is a good loser.

SOCIAL EVENTS

Miss Shelton's Recital.

The piano recital given by the pupils of Miss Beatrice Shelton at the First Methodist church last evening was attended by a large and appreciative audience who listened to the rendition of the numbers with much interest.

The first number was an "Overture-

Division of Profits

This bank has been highly favored. Its earnings have been satisfactory to the stockholder; the depositor has also had a fair division of the profits, and otherwise enjoyed the prosperity of the bank. All of which goes to show that the interests of the bank and the people are identical; and that the two are so closely interwoven that they cannot be separated.

A JUDGE'S WIFE

CURED OF PELVIC CATARRH

MRS. MINNIE E. McALLISTER.

She Suffered For Years and Doctors Failed to Give Relief—Cured by Pe-ru-na.

MRS. MINNIE E. McALLISTER, wife of Judge McAllister of Minneapolis, Minn., and Chaplain Loyal Mystic Legion of America, writes:

"I suffered for years with a pain in the small of my back and right side. It interfered often with my domestic and social duties and I never supposed that I would be cured, as the doctor's medicine did not seem to help me any. 'Fortunately a member of our Order advised me to try Peruna and gave it such high praise that I decided to try it. Although I started in with little faith, I felt so much better in a week that I felt encouraged."

"I took it faithfully for seven weeks and am happy indeed to be able to say that I am entirely cured. Words fail to express my gratitude. Perfect health once more is the best thing I could wish for, and thanks to Peruna I enjoy that now."—Minnie E. McAllister.

Miss Esther M. Milner, DeGraff, Ohio, writes:

"I was a terrible sufferer from female weakness and had the headache continuously. I was not able to do my housework for myself and husband. I wrote you and described my condition as near as possible. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine."—Mrs. Esther M. Milner.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes:

"I take pleasure in commending your Peruna as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

As a tonic and nerve invigorator Peruna has no equal.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio. All correspondence held strictly confidential.

Semiramide" by Rossini, a very difficult composition, which was played in a very fine manner by Nina Bushnell, Myrtle Duncan, Bertha Duncan, and Mrs. Jessie Albert. Miss Jennie Fry gave "Polka de Concert" by Bartlett, which was very good. Miss Edith Mapletorpe and Bertha Duncan gave a pretty duet in a most pleasing manner. Miss Nina Bushnell gave two exceedingly difficult numbers, the first one, "Polonaise Op. 26, No. 1," by Chopin, being especially well executed, and in perfect time.

The audience was then favored by a vocal solo, "Beloved, It Is Morn," by Miss Lois Peebles, who has a beautiful mezzo soprano voice, and a clear enunciation.

Miss Claire Jones played "Mazurka Fantastique" with a clear musical touch.

"Recollections of Home," by Miss Bertha Duncan, was very good, and the feeling of the piece was beautifully displayed.

Mrs. Grace Pierce and Miss Nina Bushnell rendered a pleasing number, "Scherzo-Brillante," in a most finished manner. These duets are difficult to play, but both the ladies rendered it in a faultless manner.

Miss Edith Cleaver's number, "Prin-

temps d'Armour," was unusually good. One of the best numbers on the program was the number "Troiseme Balade, Op. 47," by Chopin, given by Percy V. Cotter in a most excellent manner. Chopin's compositions are hard pieces, and it is seldom that pupils render them in such a finished manner. Miss Myrtle Duncan also gave one of Chopin's, "Polonaise Op. 40," No. 1, which is a very beautiful piece, and was carefully played by Miss Duncan, who displays fine technique.

Miss Peebles then sang Tosti's "Goodbye," which was very much enjoyed. Her voice is just suited to the song, and was rendered with much feeling.

The last number on the program was an eight-handed piece, "Fest-Polonaise," by Mrs. Jessie Albert, Mrs. Grace Pierce, Miss Beatrice Shelton and Mrs. Elizabeth Evans, and was a very fine piece, and rendered in faultless time.

The whole program was good, and the audience was very attentive listeners. There will be a second recital given tonight by the pupils, which will also be as interesting. Miss Bertha Hewitt, reader, and the Misses Vercler, talented young violinists, will assist. The public are cordially invited to attend.

A Row of Good Things

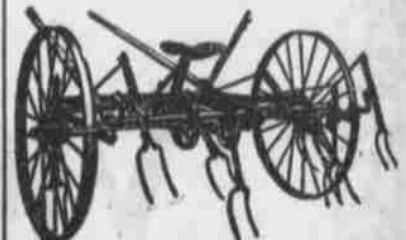

Every Prosperous Farmer has a McCormick

Here's the McCormick mower, that stands the test of time and experience. It has the weight to drive the knife in any kind of grass. It draws the main shoe, under the tongue, leaving no neckweight and no side draft. It has a long hickory pitman, and runs with as little friction as it is possible to produce.

And here's the McCormick rake. A heavy angle steel axle with the teeth fastened under, places the strain on steel and not on the castings that hold the teeth, hence almost unbreakable. A lot of other good features, too, that you must see to appreciate.

And here's the McCormick hay tedder. Such a machine as this may be the means of saving your hay crop, conditions being at a certain point. Hay tedders are pretty good insurance policies. Come and see this before the season catches you.

And here's that Sharples Tubular Cream Separator again. It's high time every farmer considered the value of a cream separator, even though he does not sell a pound of cream or butter. It pays mighty good interest on the investment if used for a few cows making butter for home consumption. The Sharples is the sort the women folks want, for it is low and convenient, cleans so quickly because there's only one part in the bowl, and the gears are long-lived because they run in oil where they are free from dust and always lubricated. Send for free book, "Business Dairying," whether you own a separator or not. It's good reading. Send for Sharples literature. Free for the asking.

This is the famous Keystone Twine found only in the weave of Keystone fencing. It's worth your while to get acquainted with Keystone fencing, for you'll all need some sooner or later. We have a goodly lot of satisfied customers to whom we are glad to refer you. Drop us a line.
