

NEW YORK FASHIONS

The summer of 1905 will be known as a "Linen Summer." It would seem as if all the possibilities for the use of this fabric had been exhausted in the two previous seasons, but now and fascinating details for the use of this material are appearing from day to day. In several styles for morning wear, suits are built of linen in natural and white shirings, in embroidered weaves with touches of bright contrasting color, and in solid colors, green-blue, soft blue, and the more neutral tones.

Contrasting Collars and Cuffs.
The fad of the moment in these strictly tailor made suits is to have the collar and cuffs in strong contrast. White or neutral tints have these accessories in bright red, or blue or green in the reseda tones. When the solid colors are used for the suit, the collars and cuffs are usually of embroidered white linen, detachable to allow of frequent change and that daintiness which is demanded by every woman who aspires to appear well dressed.

For More Dressy Wear.
For more dressy wear, there is no end to the elaboration lavished upon

linen, and the styles selected are correspondingly ornate, or if the lines employed are after simple tailor cuts, so much embroidery in cut work is employed that the effect is ornate. Cut out embroideries in English designs are in the lead in popular favor, but laid work is also used to a considerable extent, and lace especially one-half inch insertion put on in braiding patterns, is modishly combined with the hand work, and certainly the white and colored linen suits now on view in Lord & Taylor's beautiful show window on Broadway, attracted the attention of passers-by—combining the finest material, the most fashionable designs and colors, together with exceptional elegance in style and finish.

Some of the Prettiest.
Of the new linen suits have short butterfly packets, cut up in various ways to show the pretty lingerie waists that are the proper caper for wear on all dress occasions. Many of these

jackets are little more than circular capes with the fullness caught under the arm to form sleeves. Others suggest kimono in their lines, but trimmings and shirings and braidings of shirred bandings disguise the original models almost beyond recognition.

Parasols and Belts and Hats.
Parasols, belts and hats to match are of linen hand embroidered. The cost of such costumes is prohibitive to women of limited resources, and not to be possessed unless they are adepts with the needle. The ingenious woman of taste and skill the present styles afford great possibilities and a few daintily embroidered belongings lend an air of elegance to the simplest costume.

Illustration.
This handsome linen costume, the illustration of which is supplied by The Toilettes Fashion Co., is made of white French linen with box-plaited skirt, cuirass basque, cut out in front and stole collar. Cost sleeve full at top with flaring cuff. Front plait, cuffs and collar embroidered with mercerized cotton.

Crin Hats.
With the arrival of warm weather the demand for "Crin," or horsehair hats is noticeable among the smart women here. These hats are usually built of flats or plateaux, are wired with fine silk wire and bent in innumerable fancy forms to suit the taste or style of the wearer. An unusual

number of ostrich feather trimmings are seen on these straws as well as wings and flowers. Lingerie hats are excellent style with linen gowns. Other styles include chips, tuscans, leghorns and liberty silk or mull hats, the latter in the exaggerated sailor shape, trimmed almost exclusively with the hat material.

LUCY CARTER.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

Account of Salem Day at Lewis and Clark Exposition, June 14, 1905.

JAPANESE DON'T GRAFT

JAPANESE

"Graft is a thing entirely unknown in Japan," said David Starr Jordan, president of the Leland Stanford University, addressing one of the meetings preliminary to the regular session of the congress of religions at Chicago.

"I venture to say," continued Mr. Jordan, "that in the present war not \$100 of Japanese war funds has been stolen. On the other hand, I presume that not one dollar in twenty, if one in a hundred on the side of the Russians ever reached its proper destination. I heard of only one dishonest Japanese while in the country, and he was one whose morals had been contaminated by residence abroad."

Dr. Jordan's lecture was largely upon Shintoism, the chief religion in Japan, which he said was not a form of worship, but a spiritual living so ancestors would not be ashamed of their descendants.

Business among the Japanese commercial houses is almost suspended while the victory of Togo is celebrating.

"If peace is declared," said Mr. Takahashi, "it is likely another large loan will be floated to take up the present loan at a cheaper rate of interest. The first loans were made on a percentage basis, the second loan at 4 1/2 per cent, and I believe a cheaper rate of interest can be secured."

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of Piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for Blind, Bleeding, Itching and Protruding Piles, Bucklen's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries. 25c at J. C. Perry's Drug Store.

The Southern Pacific Company
Will sell tickets, Salem to Boswell Springs and return up to and including September 30, 1905, limited to 30 days, rate of \$5.55. 6-5-15

Made Raised Map.

The eighth grade of the public school at Independence has completed a map of Polk county, made of putty and clay. The students went out in squads in every section of the county, located the different wheat, dairy, fruit, timber, hop, and other sections of the county, measured the height of the mountains and hills and have located on this map the different products raised, the altitude of each section, the different railroads, the rivers, towns and the topographical features of the country. This map will be a part of the Polk county exhibit at the Lewis and Clark fair.

Would You "Worry" for Five Cents an Hour

Your work is probably hard enough—after you have subtracted the "worry" from it. It will be a bit too hard for you if you cultivate the luxury of worrying. Because you need a new clerk, or new servant, or partner, or stenographer, or more business capital—none of these things need to worry you. A Want Ad. big enough to be effective will cost you less than twelve hours of worry at five cents an hour. And the chances are that your want can be filled in twelve hours or less. Is it worth five cents an hour to secure immunity from worry?

PLACE YOUR WANT AD IN THE JOURNAL. It will bring results.
