THE HOOP SKIRT.

To erinoline or not to erinoline, that is the question for femininity. The hoop skirt is rivivivus. The dressmakers' conventions have deposed its rival.

In this connection it is interesting to note the war being made upon the hoop skirt by Mrs. Arthur Stannard (John Strango Winter) the novelist. Noting the movement originating in Paris and extending to this country, Mrs. Stannard has written the newspapers, calling upon the women of England to unite against the threatened fashion.

RUSSIA A VOLCANO.

"The death of half a million of men and the loss of billions of money is the progress of western civilization. Sebastopol struck the shackles from the serfs, and Port Arthur, Mukden and Tsu island should free Russia from the slavery of the bureaucracy."

Eruptions

The only way to get rid of pimples and other eruptions is to cleanse the blood, improve the digestion, stimulate the kidneys, liver and skin. The medicine to take is Hood's Sarsaparilla which has cured thousands.

DELUSION OF CIGAR SMOKERS

Probably there is not one smoker in a thousand who would not be surprised and, in fact, incredulous if he were told that the color of a cigar is absolutely no guide to its strength. Yet such is the case, and a fact well known to cigar manufacturers and importers.

But of recent years the inclination of smokers toward light hued cigars has assumed the proportions of a "craze," and the producers are finding much difficulty in meeting the demand. The manufacturers and Cuban tobacco raisers would now gladly correct the error; but, after having carefully classified their products under the style of claros, colorados, maduros, etc., for decades, they find it next to impossible to dispel the illusion.

A maker of Havana cigars uses but one grade or blend of tobacco in the body or filler of his cigars. Exactly the same stock is used in his conchas as in his perfectos; in his claros as in his maduros. After the cigars are made, however, his "selector" takes them in hand and classifies them according to the relative shades of the wrappers. This is done to effect a uniformity in the appearance of each box of cigars, and to enable the dealer to readily indulge the whims of the self-deluded smoker.

Inasmuch as the wrapper constitutes not more than one-tenth of the cigar, it will readily be seen that the degree of its strength or mildness is very inconsiderable in effect. In this connection, however, it is interesting to note that tobacco tradesmen versed in the intricacies of the industry rigidly bar the light-colored wrapper from their own smoking tables, knowing that it generally indicates that the leaf was prematurely cured, and that it impairs the flavor and burn of the cigar. Cubans, who, by the way, are notably partial to mild tobacco, avoid smoking light-colored cigars, just as they avoid eating a green orange or an unripe banana.

The prejudice of these natives and of tobacco tradesmen is a logical one, and serves to throw into bold relief a peculiar misconception of facts, which is

Summer Terrors

An itching, burning skin disease during the hot, sultry summer weather, is a positive terror and a veritable demon of discomfort. The intolerable itching and stinging are tantalizing almost beyond endurance, and the unsightly eruption and rough, red skin keep one thoroughly uncomfortable and miserable night and day.

TORMENTING ECZEMA.

KANSAS CITY, Mo., May, 1898.
In 1896 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. As time went by it grew worse. I had read medicine in my early twenties (now 50 years of age) and was convinced that I was afflicted with a type of Eczema. I consulted several physicians and a number of specialists, and used several external applications, one of which was claimed to be a certain specific. I confess, however, I had but little faith in external applications, yet I used them, receiving but slight temporary relief.

In February I decided to try S. S. S. and in less than a month I experienced a change for the better, and by May of that year all symptoms had disappeared, and I found myself entirely cured, and have had no return of the disease since.

SSS

or check the outflow of the burning fluids through the skin. Only persistent and faithful constitutional treatment can do this. The acid poison in the blood, which is the real cause of the eruption, must be attacked, and when the blood has been cleared of all accumulated impurities and restored to a healthy condition, then, and only then, will a thorough and lasting cure be effected, and for the accomplishment of all this, no remedy equals S. S. S., which contains all requirements for cleansing and building up the acid blood, and invigorating and toning up the system.

Acne, Tetter Eczema Salt Rheum Psoriasis Nettle Rash

Acne, Tetter, Eczema, Salt Rheum, Psoriasis, Nettle Rash. The itching, burning skin disease during the hot, sultry summer weather, is a positive terror and a veritable demon of discomfort.

THE ITCHING WAS TERRIBLE.

ESCONDIDO, San Diego Co., Cal., Oct. 1900.
DEAR SIRS—My body broke out with a rash or eruption. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many preparations without benefit, and hearing of S. S. S. determined to give it a fair trial; a few bottles cured me entirely, removing every blemish and pimple from my body.

BAD FORM OF TETTER.

For three years I had Tetter on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble.

Skin diseases appear in various forms—sometimes in pustules or blisters, sores, rashes, or red, disfiguring bumps and pimples—but all are caused by a bad condition of the blood, and for which S. S. S. is a safe and effectual cure.

No bad effects can come from its use, because it contains no Arsenic, Potash or other harmful drugs, but is guaranteed a strictly vegetable remedy.
